Introduction

The paths to several of the drawers and folders have changed from release 2.x to release 3.0 of CiscoWorks2000 Resource Manager Essentials (RME). This document describes the changes in drawers and folder paths from RME 2.x to RME 3.0.

Prerequisites

Requirements

There are no specific requirements for this document.

Components Used

The information in this document is based on the CiscoWorks2000 Resource Manager Essentials (RME).

The information in this document was created from the devices in a specific lab environment. All of the devices used in this document started with a cleared (default) configuration. If your network is live, make sure that you understand the potential impact of any command.

Conventions

Refer to [Cisco Technical Tips Conventions](#) for more information on document conventions.

Navigational Changes

The following tables compare the RME 2.x paths to the updated RME 3.0 paths. The tables below are grouped according to the drawers or applications in RME 2.x.

24-Hour Reports

Option/Task	Old Path	New Path

Display Device Reloads in Last 24 Hours	24-Hour Reports > System Admin > Reloads Report	Resource Manager Essentials > 24-Hour Reports > Process Management > Reloads Report
Display Offline Devices in Last 24 Hours	24-Hour Reports > System Admin > Offline Device Report	Resource Manager Essentials > 24-Hour Reports > Offline Device Report
Display All Changes in Last 24 Hours	24-Hour Reports > Change Audit Report	Resource Manager Essentials > 24-Hour Reports > Change Audit Report
Display Software Upgrades in Last 24 Hours	24-Hour Reports > Software Upgrade Report	Resource Manager Essentials > Software Upgrade Report
Display Syslog Messages in Last 24 Hours	24-Hour Reports > Syslog Messages	Resource Manager Essentials > 24-Hour Reports > Syslog Messages
Display Configuration Sync Report in Last 24 Hours	24-Hour Reports > Configuration Sync Report	Resource Manager Essentials > 24-Hour Reports > Configuration Sync Report

Availability

Option/Task	Old Path	New Path
Change Polling Options	Admin > Availability > Change Polling Options	Resource Manager Essentials > Administration > Availability > Change Polling Options
View the Reachability Dashboard	Tasks > Availability > Reachability Dashboard	Resource Manager Essentials > Availability > Reachability Dashboard
Monitor Device Availability	Tasks > Availability > Availability Monitor	Resource Manager Essentials > Availability > Availability Monitor
Report Device Reloads	Tasks > Availability > Reloads Report	Resource Manager Essentials > Availability > Reloads Report
Report Offline Devices	Tasks > Availability > Offline Device Report	Resource Manager Essentials > Availability > Offline Device Report
Graph Protocol Distribution	Tasks > Availability > Protocol Distribution Graph	Resource Manager Essentials > Availability > Protocol Distribution Graph

CCO Tools

Option/Task	Old Path	New Path

CCO Tools options (Tech Tips, Troubleshooting, Bug Toolkit, Open Forum Q&A, Open a TAC Case, Query a TAC Case, Browse options)	Tools > CCO Tools	Management Connection > CCO Tools
--	-------------------	-----------------------------------

Case Management

Option/ Task	Old Path	New Path
Open a Case	Tools > Case Management > Open Case	Management Connection > Case Management > Open Case
Query or Update a Case	Tools > Case Management > Query or Update Case	Management Connection > Case Management > Query or Update a Case

Change Audit

Option/ Task	Old Path	New Path	Comments
Define Exceptions Summary	Admin > Change Audit > Define Exceptions Summary	Resource Manager Essentials > Administration > Change Audit > Define Exceptions Summary	

Delete Change History	Admin > Change Audit > Delete Change History	Resource Manager Essentials > Administration > Change Audit > Delete Change History	Now uses Job Management for scheduling.
Display Exceptions Summary	Tasks > Change Audit > Exceptions Summary	Resource Manager Essentials > Change Audit > Exceptions Summary	
Search Change Audit	Tasks > Change Audit > Search Change Audit	Resource Manager Essentials > Change Audit > Search Change Audit	
Display All Changes	Tasks > Change Audit > All Changes	Resource Manager Essentials > Change Audit > All Changes	

Connectivity Tools

Option/ Task	Old Path	New Path	Comments
Check Device Connectivity	Tools > Connectivity Tools > Management Station to Device	CiscoWorks2000 Server > Diagnostics > Connectivity Tools > Management Station to Device	

Use Traceroute	Tools > Connectivity Tools > Traceroute	CiscoWorks2000 Server > Diagnostics > Connectivity Tools > Traceroute	
Use Ping	Tools > Connectivity Tools > Ping	CiscoWorks2000 Server > Diagnostics > Connectivity Tools > Ping	
Look Up a Device or Host	Tools > Connectivity Tools > NSLookup	CiscoWorks2000 Server > Diagnostics > Connectivity Tools > NSLookup	
Validate Device Addresses	Tools > Connectivity Tools > Validate Device Addresses	None	This option is available only through the CLI.

Contract Connection

Option/Task	Old Path	New Path
Check Contract Status	Tools > Contract Connection > Check Contract Status	Resource Manager Essentials > Contract Connection > Check Contract Status

Device Configuration

Option/Task	Old Path	New Path
General Setup	Admin > Device Configuration > General Setup	Resource Manager Essentials > Administration > Configuration Management > General Setup
Import from CiscoWorks	Admin > Device Configuration > Import from CiscoWorks	Resource Manager Essentials > Administration > Configuration Management > Import from CiscoWorks
Import from CiscoWorks status	Admin > Device Configuration > Import from CiscoWorks status	Resource Manager Essentials > Administration > Configuration Management > Import from CiscoWorks status
Display Archive Status	Admin > Device Configuration > Archive Status	Resource Manager Essentials > Administration > Configuration Management > Archive Status
Search Archive by Pattern	Tasks > Device Configuration > Search Archive by Pattern	Resource Manager Essentials > Configuration Management > Search Archive by Pattern
Display Custom Reports	Tasks > Device Configuration > Custom Reports	Resource Manager Essentials > Configuration Management > Custom Reports

Compare Configurations	Tasks > Device Configuration > Compare Configurations	Resource Manager Essentials > Configuration Management > Compare Configurations
Update Archive	Tasks > Device Configuration > Update Archive	Resource Manager Essentials > Configuration Management > Update Archive
Display Startup/Running Out of Sync Report	Tasks > Device Configuration > Startup/Running Out of Sync Report	Resource Manager Essentials > Configuration Management > Startup/Running Out of Sync Report
Display Netsys Report	Tasks > Device Configuration > Netsys Report	Resource Manager Essentials > Configuration Management > Netsys Report

Device Navigator

Option/Task	Old Path	New Path
Browse Device	Tools > Device Navigator > Browse Device	Management Connection > Device Navigator > Browse Device
Configure Fallback Port	Tools > Device Navigator > Configure Fallback Port	Management Connection > Device Navigator > Configure Fallback Port

Device Views

Option/ Task	Old Path	New Path	Comments
Browse Dynamic Views	Admin > Device Views > Browse Dynamic Views	Resource Manager Essentials > Administration > Device Views > Browse Dynamic Views	Updated selection window.
Browse Device Membership	Admin > Device Views > Browse Device Membership	Resource Manager Essentials > Administration > Device Views > Browse Device Membership	
Add Static Views	Admin > Device Views > Add Static Views	Resource Manager Essentials > Administration > Device Views > Add Static Views	Updated selection window.
Add Dynamic Views	Admin > Device Views > Add Dynamic Views	Resource Manager Essentials > Administration > Device Views > Add Dynamic Views	Updated selection window.
Change Static Views	Admin > Device Views > Change Static Views	Resource Manager Essentials > Administration > Device Views > Change Static Views	Updated selection window.

Delete Views	Admin > Device Views > Delete Views	Resource Manager Essentials > Administration > Device Views > Delete Views	Updated selection window.
--------------	---	---	---------------------------

Home

Option/Task	Old Path	New Path	Comments
Display Copyright and Versions	Home > About Resource Manager Essentials > Copyright and Versions	CiscoWorks2000 Server > About CiscoWorks2000 > Applications and Versions	Name change and added functionality including device support list.
Display Product Overview	Home > About Resource Manager Essentials > Product Overview	CiscoWorks2000 Server > About CiscoWorks2000 > Product Overview	RME product overview is in its User Guide.
Use Cisco Connection Online options (Home Page, Enterprise Network Management, Documentation, Service and Support, Partners and Resellers)	Home > Cisco Connection Online	Home > Additional Resources	

Getting Started	Home > Getting Started	Not available in navigation tree.	See Using Resource Manager Essentials.
-----------------	------------------------	-----------------------------------	--

Inventory Manager

Option/ Task	Old Path	New Path	Comments
List Devices	Admin > Inventory > List Devices	Resource Manager Essentials > Administration > Inventory > List Devices	
Add Devices	Admin > Inventory > Add Devices	Resource Manager Essentials > Administration > Inventory > Add Devices	
Delete Managed Devices	Admin > Inventory > Delete Devices	Resource Manager Essentials > Administration > Inventory > Delete Devices	
Check Delete Device Status	Admin > Inventory > Delete Device Status	Resource Manager Essentials > Administration > Inventory > Delete Device Status	

Change Device Attributes	Admin > Inventory > Change Device Attributes	Resource Manager Essentials > Administration > Inventory > Change Device Attributes	
Import from a Local NMS	Admin > Inventory > Import from Local NMS	Resource Manager Essentials > Administration > Inventory > Import from Local NMS	
Import from a Remote NMS	Admin > Inventory > Import from Remote NMS	Resource Manager Essentials > Administration > Inventory > Import from Remote NMS	
Import from a File	Admin > Inventory > Import from File	Resource Manager Essentials > Import from File	
Export Device Information to a File	Admin > Inventory > Export to File	Resource Manager Essentials > Administration > Inventory > Export to File	
Use the Add/Import Status Summary	Admin > Inventory > Import Status	Resource Manager Essentials > Administration > Inventory > Import Status	

Set Change Report Filters	Admin > Inventory > Inventory Change Filter	Resource Manager Essentials > Administration > Inventory > Inventory Change Filter	
Schedule Inventory Collection	Admin > Inventory > Schedule Collection	Resource Manager Essentials > Administration > Inventory > Schedule Collection	
Update Inventory As Needed	Admin > Inventory > Update Inventory	Resource Manager Essentials > Administration > Inventory > Update Inventory	
Set the Inventory Poller Schedule	Admin > Inventory > Inventory Poller	Resource Manager Essentials > Administration > Inventory > Inventory Poller	
Create an Inventory Custom Report	Admin > Inventory > Custom Reports	Resource Manager Essentials > Administration > Inventory > Custom Reports	In Release 2.x, this option is visible only if you install the Inventory Custom Reports package.

Check Scan History	Tasks > Inventory > Scan History	Resource Manager Essentials > Inventory > Scan History	
Display a Hardware Report	Tasks > Inventory > Hardware Report	Resource Manager Essentials > Inventory > Hardware Report	
Display a Software Report	Tasks > Inventory > Software Report	Resource Manager Essentials > Inventory > Software Report	
Display a Detailed Device Report	Tasks > Inventory > Detailed Device Report	Resource Manager Essentials > Inventory > Detailed Device Report	
Display a Hardware Summary Graph	Tasks > Inventory > Hardware Summary Graph	Resource Manager Essentials > Inventory > Hardware Summary Graph	
Display a Chassis Summary Graph	Tasks > Inventory > Chassis Summary Graph	Resource Manager Essentials > Inventory > Chassis Summary Graph	
Display a Software Version Graph	Tasks > Inventory > Software Version Graph	Resource Manager Essentials > Inventory > Software Version Graph	

Display a Chassis Slot Summary	Tasks > Inventory > Chassis Slot Summary	Resource Manager Essentials > Inventory > Chassis Slot Summary	
Display Chassis Slot Details	Tasks > Inventory > Chassis Slot Details	Resource Manager Essentials > Inventory > Chassis Slot Details	
Display a Year 2000 Report	Tasks > Inventory > Year 2000 Report	Resource Manager Essentials > Inventory > Year 2000 Report	
Display an Inventory Custom Report	Tasks > Inventory > Custom Reports	Resource Manager Essentials > Inventory > Custom Reports	In Release 2.x, this option is visible only if you install the Inventory Custom Reports package.

Management Connection

Option/ Task	Old Path	New Path	Comments
Create and Install a Connection File	Admin > Management Connection > Create	Management Connection > Administration > Create	

Import a Connection File	Admin > Management Connection > Import	Management Connection > Administration > Import	
Delete a Connection File	Admin > Management Connection > Delete	Management Connection > Administration > Delete	
Export a Connection File	Admin > Management Connection > Export	Management Connection > Administration > Export	
Modify a Connection File	Admin > Management Connection > Modify	Management Connection > Administration > Modify	
View Certification Status	Tools > Management Connection Certification > View Certification Status	Management Connection > Management Connection Certificate > View Certification Status	In Release 3.0, this option is visible only on the navigation tree with a special login.
Certify a Connection File	Tools > Management Connection Certification > Certification Process	Management Connection > Management Connection Certificate > Certification Process	In Release 3.0, this option is visible only on the navigation tree with a special login.

Software Management

Option/Task	Old Path	New Path
Edit Preferences	Admin > Software Management > Edit Preferences	Resource Manager Essentials > Administration > Software Management > Edit Preferences
Schedule Synchronization Job	Admin > Software Management > Schedule Synchronization Job	Resource Manager Essentials > Administration > Software Management > Schedule Synchronization Job
Create Approver List	Admin > Software Management > Create Approver List	Resource Manager Essentials > Administration > Job Approval > Create Approval List
Edit Approver List	Admin > Software Management > Edit Approver List	Resource Manager Essentials > Administration > Job Approval > Edit Approval List
Mail or Copy Log File	Admin > Software Management > Mail or Copy Log File	Resource Manager Essentials > Software Management > Job Management > Mail or Copy Log File

Add Images	Tasks > Software Management > Add Image to Library	Resource Manager Essentials > Software Management > Library > Add Images
Browse Images	Tasks > Software Management > Browse Library	Resource Manager Essentials > Software Management > Library > Browse Images
Search for Images	Tasks > Software Management > Search Library	Resource Manager Essentials > Software Management > Library > Search for Images
Display Synchronization Report	Tasks > Software Management > Synchronization Report	Resource Manager Essentials > Software Management > Library > Synchronization Report
Distribute Images	Tasks > Software Management > Distribute Images	Resource Manager Essentials > Software Management > Distribution > Distribute Images

Display CCO Upgrade Analysis	Tasks > Software Management > CCO Upgrade Analysis	Resource Manager Essentials > Software Management > Distribution > CCO Upgrade Analysis
Display Library Upgrade Analysis	Tasks > Software Management > Library Upgrade Analysis	Resource Manager Essentials > Software Management > Distribution > Library Upgrade Analysis
Browse Jobs	Tasks > Software Management > Browse Job Status	Resource Manager Essentials > Software Management > Job Management > Browse Jobs
Browse History	Tasks > Software Management > Browse History	Resource Manager Essentials > Software Management > History > Browse History
Search History by Device	Tasks > Software Management > Search History by Device	Resource Manager Essentials > Software Management > History > Search History by Device

Search History by User	Tasks > Software Management > Search History by User	Resource Manager Essentials > Software Management > History > Search History by User
Browse Bugs by Device	Tasks > Software Management > Browse Bugs by Device	Resource Manager Essentials > Software Management > Bug Report > Browse Bugs by Device
Locate Devices by Bugs	Tasks > Software Management > Locate Devices by Bugs	Resource Manager Essentials > Software Management > Bug Report > Locate Devices by Bugs

Syslog Analysis

Option/Task	Old Path	New Path
Change Storage Options	Admin > Syslog Analysis > Change Storage Options	Resource Manager Essentials > Administration > Syslog Analysis > Change Storage Options

Define Custom Reports	Admin > Syslog Analysis > Define Custom Report	Resource Manager Essentials > Administration > Syslog Analysis > Define Custom Reports
Define Automated Actions	Admin > Syslog Analysis > Define Automated Action	Resource Manager Essentials > Administration > Syslog Analysis > Define Automated Action
Define a Message Filter	Admin > Syslog Analysis > Define Message Filter	Resource Manager Essentials > Administration > Syslog Analysis > Define Message Filter
View Syslog Collector Status	Admin > Syslog Analysis > Syslog Collector Status	Resource Manager Essentials > Administration > Syslog Analysis > Syslog Collector Status
Change Your User URL	Admin > Syslog Analysis > Change User URL	Resource Manager Essentials > Administration > Syslog Analysis > Change User URL
Generate a Severity Level Summary	Tasks > Syslog Analysis > Severity Level Summary	Resource Manager Essentials > Syslog Analysis > Severity Level Summary
Generate Standard Reports	Tasks > Syslog Analysis > Standard Reports	Resource Manager Essentials > Syslog Analysis > Standard Reports

Generate Custom Reports	Tasks > Syslog Analysis > Custom Reports	Resource Manager Essentials > Syslog Analysis > Custom Reports
Generate Custom Report Summary	Tasks > Syslog Analysis > Custom Report Summary	Resource Manager Essentials > Syslog Analysis > Custom Report Summary
Generate an Unexpected Device Report	Tasks > Syslog Analysis > Unexpected Device Report	Resource Manager Essentials > Syslog Analysis > Unexpected Device Report

System Admin

Option/Task	Old Path	New Path
Display Process Status	Admin > System Admin > Process Status	CiscoWorks2000 Server > Administration > Process Management > Process Status
Display Log File Status	Admin > System Admin > Log File Status	CiscoWorks2000 Server > Administration > Log File Status
Display Package Options	Admin > System Admin > Package Options	CiscoWorks2000 Server > Administration > Package Options
Update CCO Links	Admin > System Admin > Update CCO Links	Not available

Back Up Data Now	Admin > System Admin > Back Up Data Now	CiscoWorks2000 Server > Administration > Database Management > > Back Up Data Now
Schedule Backup	Admin > System Admin > Schedule Backup	CiscoWorks2000 Server > Administration > Database Management > > Schedule Backup
Start Process	Admin > System Admin > Start Process	CiscoWorks2000 Server > Administration > Process Management > Start Process
Stop Process	Admin > System Admin > Stop Process	CiscoWorks2000 Server > Administration > Process Management > Stop Process
Use Event Channel Admin	Admin > System Admin > Event Channel Admin	CiscoWorks2000 Server > Administration > Event Management > Event Channel Admin
Configure System	Admin > System Admin > System Configuration	Resource Manager Essentials > Administration > System Configuration

Troubleshooting

Option/ Task	Old Path	New Path
Display Process Failures	Admin > Troubleshooting > Process Failures	CiscoWorks2000 Server >Diagnostics > Process Failures

Collect Server Info	Admin > Troubleshooting > Collect Server Info	CiscoWorks2000 Server >Diagnostics > Collect Server Info
Do Self Test	Admin > Troubleshooting > Self Test	CiscoWorks2000 Server >Diagnostics > Self Test

User Accounts

Option/Task	Old Path	New Path
Display Permissions Report	Admin > User Accounts > Permissions Report	CiscoWorks2000 Server > Setup > Security > Permissions Report
Modify My Profile	Admin > User Accounts > Modify My Profile	CiscoWorks2000 Server > Setup > Security > Modify My Profile
Add Users	Admin > User Accounts > Add Users	CiscoWorks2000 Server > Setup > Security > Add Users
Modify/Delete Users	Admin > User Accounts > Modify/Delete Users	CiscoWorks2000 Server > Setup > Security > Modify/Delete Users
