## Introduction

This document addresses internal device temperature.

## Prerequisites

### Requirements

There are no specific requirements for this document.

## Affected Products

4000S, VSR-2, VSR-8, IntraPort Enterprise-2, IntraPort Enterprise-8, IntraPort Carrier-2, and IntraPort Carrier-8

## Affected Versions

All versions

## More Information

Compatible Systems devices with an internal power supply can tell you what their internal temperature is. You can query the temperature of the unit via the command line when you issue the **show sys hard** command.

It is the last parameter listed.
