ONS 15800 and 15801 Software and Firmware Matrix

Related Information

Introduction

This document provides a link to a matrix that defines the firmware versions that support each of the ONS 15800 and ONS 15801 hardware versions, and the software versions for each card.

Prerequisites

Requirements

Cisco recommends that you have knowledge of these topics:

- Cisco ONS 15800 and Cisco ONS 15801

Components Used

The information in this document is based on the Cisco ONS 15800 and Cisco ONS 15801.

The information in this document was created from the devices in a specific lab environment. All of the devices used in this document started with a cleared (default) configuration. If your network is live, make sure that you understand the potential impact of any command.

Conventions

Refer to Cisco Technical Tips Conventions for more information on document conventions.
