Introduction

This document contains a list of all standard unabbreviated prompts and abbreviated prompts in the Voice User Interface (VUI) prompt list. The MeetingPlace System Manager Guide describes how to customize the prompts and has a brief example of a few prompt numbers for the purpose of explaining the procedure, however it does not contain a complete list of prompts. The information in this document allows you to locate the corresponding prompt number for a prompt that you would like to customize, or to look up a prompt using its prompt number.

Prerequisites

Requirements

There are no specific requirements for this document.

Components Used

The information in this document is based on the software and hardware versions:

- Server version 5.2 and below

The information in this document was created from the devices in a specific lab environment. All of the devices used in this document started with a cleared (default) configuration. If your network is live, make sure that you understand the potential impact of any command.

Conventions
