This installation guide covers MX300 G2 with a floor stand.

Dimensions

Height: 1521 mm / 59.9 in.
Width: 1278 mm / 50.4 in.
Depth: 671 mm / 26.5 in.
Weight total: 53 kg / 117 lb
Weight monitor: 35 kg / 78 lb

Manpower

x2   Two people working together are required to mount the monitor to the base module.

Room setup

Explore the Cisco Project Workplace website to find inspiration and guidelines when preparing your office or meeting room for video conferencing, http://www.cisco.com/go/projectworkplace

Documentation

Cisco Spark: Visit the Cisco Spark help site to find more information about Spark registered room systems, http://help.ciscospark.com
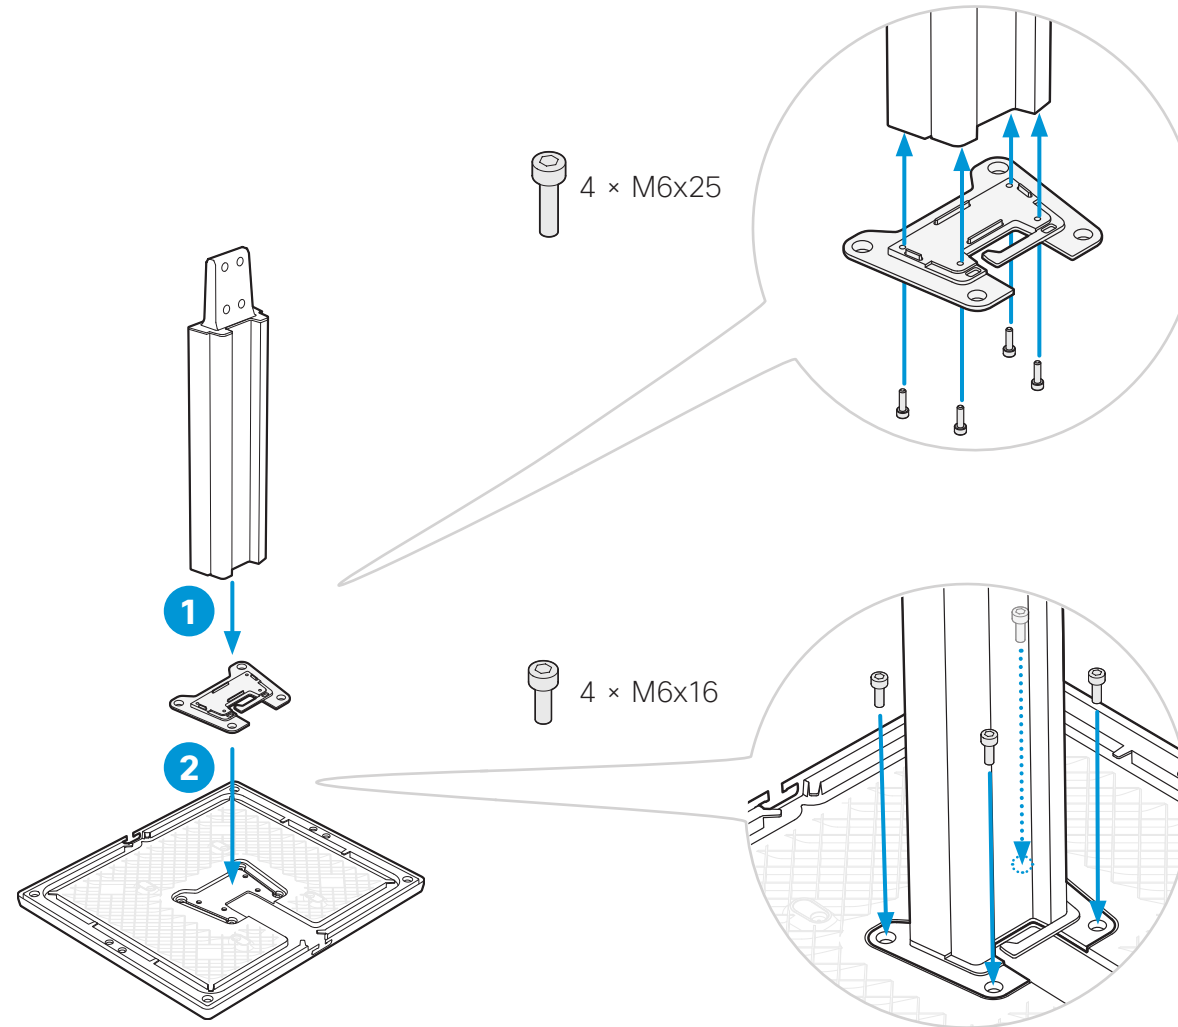

Other services: Visit the Cisco web site to find user guides and compliance and safety information for the video system, http://www.cisco.com/go/mx-docs

Back cover

Accessories:

- Microphones
- Cables
- Screws for mounting the monitor
- Gloves

Monitor

Touch controller

- Floor stand base
- Column
- Floor stand adapter
- Base covers
- Screws for mounting the base
- Screwdriver

The packaging may be slightly different for some shipments.

1 Mounting the floor stand

4 × M6x25

4 × M6x16

2 Mounting the monitor
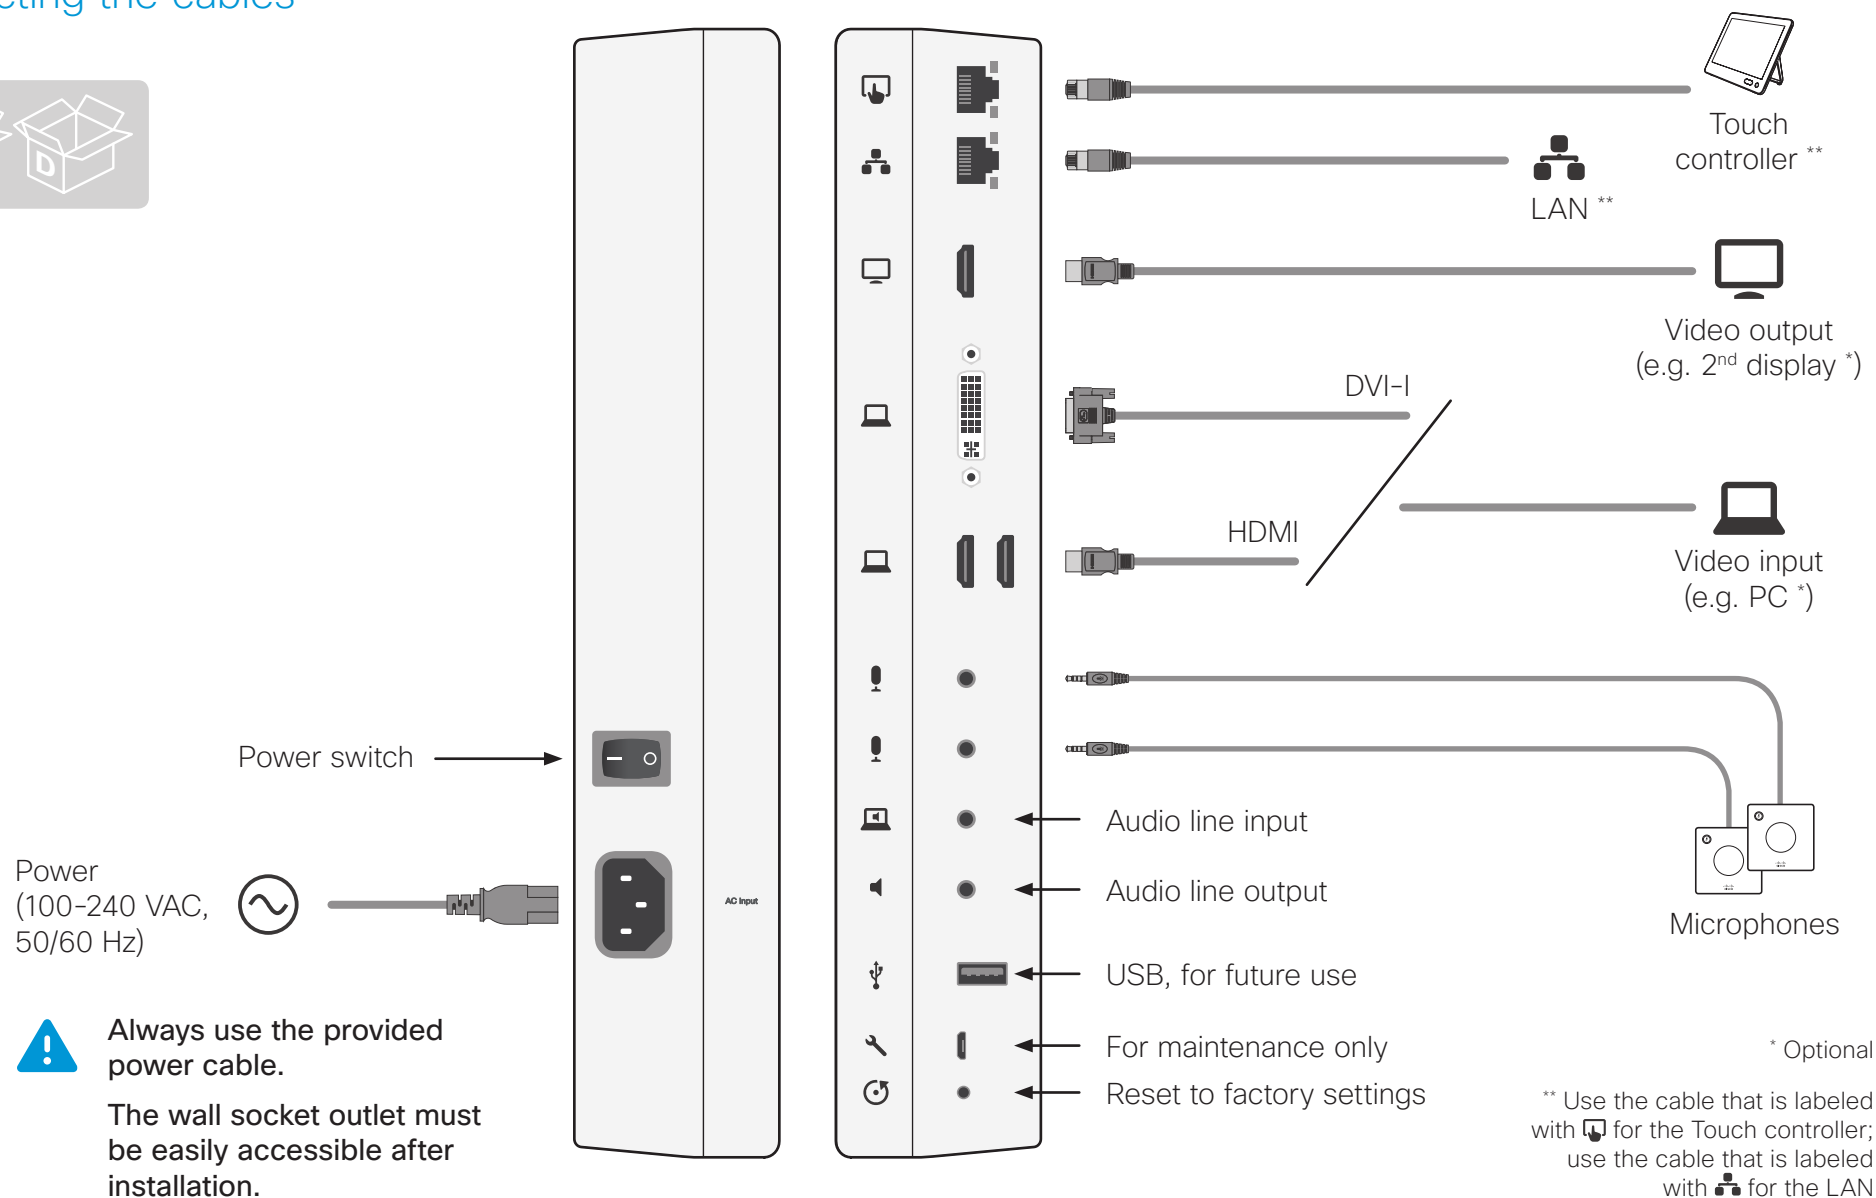

x2 Use gloves when handling the monitor.

4 × M6x16

Remove the cable channel lid for now. You need it in step 4.

Front

ℹ The monitor may be tilting slightly forward. If you gently pull it to a vertical position, the screws enter more easily.

3 Connecting the cables

Touch controller **

LAN **

Video output
(e.g. 2ⁿᵈ display *)

DVI-I

HDMI

Video input
(e.g. PC *)

Power switch

Audio line input

Audio line output

Microphones

Power
(100–240 VAC,
50/60 Hz)

AC Input

USB, for future use

⚠ **Always use the provided power cable.**

The wall socket outlet must be easily accessible after installation.

For maintenance only

Reset to factory settings

* Optional

** Use the cable that is labeled with 🖵 for the Touch controller; use the cable that is labeled with ⛬ for the LAN

4 Leading out the cables

Snap on the cable
channel lid for strain relief.

Lead the cables in the cable slots. Lead them
out at the front or back as appropriate.

Lead the cables around the cable slot several
times if the cables are longer than you need.

5 Starting up the system

- Connect to power and LAN/Ethernet.

- Switch on the system. The power switch is next
  to the power connector at the rear side of the
  system.

  Wait while the unit starts up. Normally this takes a few minutes.
 It may include automatic software upgrade and restart of the
  Touch controller.

- Follow the instructions on the Touch controller.

  Cisco Spark: To find more information on how to get started
  with Spark registered systems, visit http://help.ciscospark.com
  and look for Getting Started articles for room systems.

  Other services: For further information on set-up and
  configuration, download the *Getting Started Guide* from the
 Cisco web site, http://www.cisco.com/go/mx-docs

⚠ Never move the camera manually when power is switched on;
always use the camera control function on the Touch controller
to change the camera position.
