

Staying Secure and Compliant in the Cloud

Benefits

- **Fueling Growth and Agility**
Helps CityMD grow its business and keep costs manageable by supporting a “cloud-first” strategy
- **Taking Control of Risk**
Gives employees the right cloud services to meet their needs while monitoring for new services or unusual usage patterns
- **Strengthening Cloud Governance**
Enhances compliance in a heavily regulated industry by using cloud providers with the right certifications

Staff: 2,000+

Location: New York City

Industry: Healthcare

Cisco Solution

- Cisco Cloud Consumption as a Service combined with Cisco Sourcefire helps CityMD mitigate risk and control costs by discovering which cloud services its employees are using to support patient interactions at urgent care clinics.

“CityMD is run by former ER doctors, and they want services fast. Cisco Cloud Consumption enables our agile, cloud-first approach, and helps us embrace public cloud services safely while remaining compliant.”

-Robert Florescu, VP of IT, CityMD
