

Supplemental End User License Agreement

IMPORTANT: READ CAREFULLY

Dear Customer,

This Supplemental End User License Agreement (“**SEULA**”) contains additional terms and conditions for the Software product(s) set forth herein and licensed under the End User License Agreement (“**EULA**”) between you and Cisco Systems, Inc. or its Affiliates (collectively, the “**Agreement**”). Please note that there may be terms in this SEULA that do not apply to you. Only those terms related to the specific Software product(s) you purchased apply to you. Except as otherwise set forth in this SEULA, capitalized terms will have the meanings as in the EULA. To the extent that there is a conflict between the EULA and this SEULA, this SEULA will take precedence.

By downloading, installing, or using the Software you agree to comply with the terms of this SEULA.

SUPPLEMENTAL LICENSE TERMS FOR: Enterprise Networking

Table 1. SOFTWARE ENTITLEMENT:

<u>Product</u>	<u>License Metric</u>	<u>License Duration</u>
APIC-EM	End point	Perpetual

DEFINITIONS:

- “Software” means the Application Policy Infrastructure Controller Enterprise Module (APIC-EM) software that allows you to develop a custom controller for use in software defined networking and enables you to add software defined networking functionality directly to your applications.
- “Telemetry Data” means quantitative and qualitative data, error logs and tables about your devices, hosts, services, and related pages accessed by users.

ADDITIONAL GENERAL LICENSE RIGHTS AND RESTRICTIONS:

- Subject to the Cisco Privacy Statement (http://www.cisco.com/web/siteassets/legal/privacy_full.html), you hereby consent and grant to Cisco a license to collect and use Telemetry Data generated by your use of the Software. Cisco may share Telemetry Data with third parties to assist Cisco to improve your user experience, the Software and other Cisco products and services. The Telemetry Data collected by Cisco is intended to be non Personal Information. You may terminate Cisco’s right to collect Telemetry Data at any time by pressing the opt out button on the APIC-EM Settings Section of the Software.
