

Drive Transformation With The Digital Education Platform

Now, more than ever, schools and universities around the world are understanding the value of digital transformation in education.

46%

of students are more actively involved in courses that use technology

78%

of students agree technology contributes to the successful completion of courses

49%

of institutions rated "increasing operating efficiency" as a first or second priority

The future of education is here, and it's made possible with Cisco and the Digital Education Platform. With our technologies, we've transformed more than

14,253
School Districts and Educational Institutions

9,834
Colleges and Universities

In 127
Countries

Our platform seamlessly integrates services, solutions and partner capabilities to transform campuses and enable digital learning and collaborative research in a safe and productive environment.

Connected Classrooms

Learning anywhere, anytime, on any device.

- Mobility**
Provide students with the ability to connect and learn on their own device with a high-density wireless experience.
- Secure Collaboration**
Securely connect students, faculty and researchers on any device, anywhere.
- Flipped Learning**
Record lectures and classes using Lecture Capture, post online, and allow students to learn the material before coming into your classroom.

Virtual Classrooms

Enabling learning across innovative spaces.

- Secure Collaboration**
Securely connect students, faculty and researchers on any device, anywhere.
- Online Courses**
Empower students to participate in online courses and learning opportunities beyond the classroom through WebEx, TelePresence and Spark.
- Blended Courses**
Enable students to utilize a hybrid model of in-person and virtual learning, so education can fit their lifestyle.
- Virtual Field Trips**
Provide students the opportunity to gather research and learn outside the institution by sending them on a virtual field trip. Ensure cost effectiveness and utilize TelePresence and WebEx.
- Outside Experts**
Enable students, educators and researchers to collaborate with peers and experts around the world using tools like Spark, Jabber and WebEx.

Connected Research

Innovation, acceleration and knowledge sharing.

- Global Learning**
Give learners the ability to access world-class resources and content, while connecting with experts and peers globally.
- Virtual Field Trips**
Provide students the opportunity to gather research and learn outside the institution by sending them on a virtual field trip. Ensure cost effectiveness and utilize TelePresence and WebEx.
- Outside Experts**
Enable students, educators and researchers to collaborate with peers and experts around the world using tools like Spark, Jabber and WebEx.
- Secure Research Computing**
Allow researchers to accelerate innovation with a suite of secure collaboration tools, data computing and storage.

Services Cisco One ELA

Connected Campus

Creating the intelligent, sustainable campus.

- Smart Parking**
Save time and resources by providing students and faculty with the ability to easily park on campus.
- Connected Campus**
Give fans the ultimate game day experience with Digital Signage and optimized wireless.
- Connected Vehicle**
Provide safe transportation for students while increasing access and connectivity.
- Smart Lighting**
Make your campus more sustainable through the Digital Ceiling.

Smart Workspaces

- Location Services**
Provide administration with comprehensive location services to ensure safety and efficiency on campus.
- Intelligent Facilities**
Give faculty and researchers the tools they need to empower students and foster learning while operating in a productive manner.
- Administration**
Enable a deeper look into building efficiencies, student behavior, and network security.

Secure Campus

Fostering physical and online security.

- Cybersecurity**
Keep student and faculty data secure.
- Campus Safety**
Monitor your campus and vehicles to ensure students remain safe.
