Open Caveats

Cisco Webex Meetings

CSCwc37857:Save the same whiteboard again, previous name it is getting saved for Windows (A-Assigned/Sev-3/Global)

Issue Description:

Save the same whiteboard again, previous name it is getting saved for Windows

Pre-Requisites:

- Download and Install Latest Version of Cisco Webex Meetings for Windows.

Steps to reproduce:

1. Login with valid credentials in Cisco Webex Meetings for Windows
2. Join meeting from Windows user 2
3. Share white board from Windows user 1
4. Rename the whiteboard from Windows user 1 and save the whiteboard
5. After saving whiteboard try to annotate in the same whiteboard and save with new name
6. Whiteboard is not saving with new name, previous name it is getting saved

Actual Behavior:

Save the same whiteboard again, previous name it is getting saved for Windows

Expected Behavior:

When saving save whiteboard it should save with new name

Environment Matrix:

- Cisco Webex Meetings for Windows Version : 42.8.0.121

Fixed version:

- Unspecified

A blue rounded rectangular button with the word "Global" written in white text.

CSCwc37141 : Webex Apps are not displaying after restore layout is selected from panel option for Windows (A-Assigned/Sev-3/Global)

Issue Description:

Webex Apps are not displaying after restore layout is selected from panel option

Global

Pre-Requisites:

- Download and Install Latest Version of Cisco Webex Meetings for Windows.

Steps to reproduce:

1. Login with valid credentials in Cisco Webex Meetings for Windows and Join meet from any other client
2. From Windows, select View->Panels->Restore Layout
3. Choose Apps panel

Actual Behavior:

Apps panel is showing empty and Search/Discover options didn't give any results

Expected Behavior:

Apps Panel should display Apps

Environment Matrix:

- Cisco Webex Meetings for Windows Version : 42.8.0.121

Fixed version:

- Unspecified

CSCwc49632 : When host joined from web, people insight option not available and is redirecting to chat for iPhone (A-Assigned/Sev-3/Global)

Issue Description:

When host joined from web, people insight option not available and is redirecting to chat for iPhone.

Pre-Requisites:

- Open Cisco Webex Meetings for iPhone and Web
- Provide user id and password to login in Cisco Webex meetings for iPhone and Web respectively

Steps to Reproduce:

1. Login with valid credentials in iPhone and Web
2. Start the meeting from Webex Meetings for Web
3. Join the meet from iPhone
4. In iPhone go to Participants
5. Click or Long press on the host joined through Web

Actual Behavior:

It is not showing chat/people insights option and directing to chat

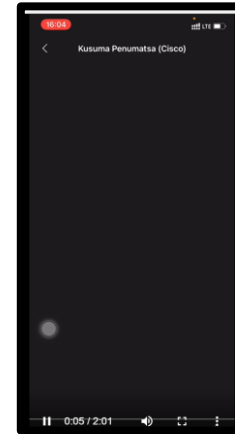

Expected Behavior:

It should show chat / People insights option and then from user click navigate to respective feature

Environment Matrix:

- Cisco Webex Meetings Web App Version 42.7.2.1379
- Cisco Webex Meetings for iPhone: 42.7.0(42700.290)

Global

Cisco WebexRoom OS

CSCwc56100: Sign-in option is not available for Hot Desk Mode registered in Webex Cloud (O-Opened/Sev-2/Global)

Issue Description:

Sign-in option is not available in on-screen display of Cisco Webex Desk Pro after connecting with laptop via USB-C cable.

Steps to Reproduce:

1. Register Webex Desk Pro in Webex Cloud
2. Enable New Room OS 11 Experience in Webex Desk Pro
3. Login to Webex Control Hub using Webex admin credentials
4. Navigate to Devices -> add devices ->New Workspaces -> Scheduling -> Enable Hot Desking mode -> next-> activate device device 16-digit code->Desk pro activated
5. Check OSD of Webex Desk Pro after enabling Hot desk mode
6. Connect and pair Cisco Webex for Windows to Webex Desk Pro via USB-C cable

Actual Behavior:

Sign-in option is not available for Hot Desk Mode registered in Webex Cloud

Expected Behavior:

Sign-in option should be available for Hot Desk Mode registered in Webex Cloud

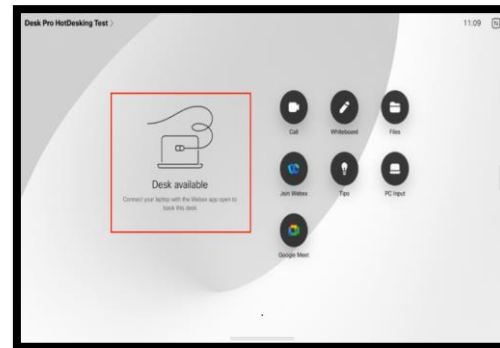

Environment Matrix:

- Webex Desk Pro Build : RoomOS 10.17.1.1 ab490d5db06
- Webex for Windows : 42.7.0.22904

Fixed Version:

- Unspecified

Global

Resolved Caveats

Cisco Collaboration Endpoints

CSCwc35560: Reload UI option available while unregistered state of Cisco Webex Desk Pro (R-Resolved/Sev-3/Global)

Issue Description:

Verify whether user able to find reload page option on Web UI of Cisco Desk Pro while enabling Extending logging

Steps to Reproduce:

1. Make Room OS EP as unregistered state
2. Navigate to Issues and diagnostics -> Click on system log
3. Start extending logging by including full packet capture
4. Verify the behaviour

Actual Behavior:

Reload UI option available on Web UI of Webex Desk Pro while enabling Extending Logging

Expected Behavior:

Reload page option should not be available on Web UI of Webex Desk Pro

Environment Matrix:

- Webex Desk Pro Build : RoomOS 10.16.1.6 1d075d92585

Global

CSCwc55854: Sign-in option is not available for Hot Desk Mode registered in On-Premises (R-Resolved/Sev-2/Global)

Issue Description:

Sign-in option is not available in on-screen display of Cisco Webex Desk Pro after connecting with laptop via USB-C cable.

Steps to Reproduce:

1. Register Webex Desk Pro in Unified CM
2. Enable New Room OS 11 Experience and Webex Engine in Webex Desk Pro
3. Login to Webex Device connector using Webex admin and Unified CM credentials
4. Link Webex Desk Pro to Webex Cloud via Webex Device Connector
5. Login to Webex Control Hub using Webex admin credentials
6. Navigate to Devices -> Search Webex Desk Pro Click on Webex Desk Pro -> Directory number -> Configuration -> Enable Hot Desking mode -> Save
7. Check OSD of Webex Desk Pro after enabling Hot desk mode
8. Connect and pair Webex for Windows to Webex Desk Pro via USB-C cable

Actual Behavior:

Sign-in option is not available for Hot Desk Mode registered in On-Premises

Expected Behavior:

Sign-in option should be available for Hot Desk Mode registered in On-Premises

Environment Matrix:

- Webex Desk Pro Build : RoomOS 10.17.1.1 ab490d5db06
- Webex for Windows : 42.7.0.22904
