Cisco Compute Hyperconverged with Nutanix (CCHC + N) M6 Ordering Guide

Introduction

Cisco Compute Hyperconverged M6 Server with Nutanix Solutions

Cisco Compute Hyperconverged with Nutanix is a hyperconverged infrastructure solution integrating Cisco's best-in-class compute (Cisco Unified Computing System), datacenter networking, and SaaS infrastructure management platform (Cisco Intersight) with Nutanix's market-leading hyperconverged storage software, Nutanix Cloud Platform. The Cisco Compute Hyperconverged with Nutanix family of appliances delivers pre-configured UCS servers that are ready to be deployed as nodes to form Nutanix clusters in a variety of configurations. Each server appliance contains three software layers: UCS server firmware, hypervisor (Nutanix AHV), and hyperconverged storage software (Nutanix AOS).

Cisco Compute Hyperconverged M6 Server with Nutanix Clusters

Physically, nodes are deployed into clusters, with a cluster consisting of three or more Cisco Compute Hyperconverged Server. These are integrated into a single system by a pair of Cisco UCS® fabric interconnects, creating clusters that support general-purpose deployments and mission-critical high-performance environments.

Once the Deal registration is approved by Nutanix, an approval email will be sent to the Cisco Sales submitter. This approval letter will need to be attached later to the Cisco quote.
- Once the customer requirements are available, visit Nutanix Sizer tool ([Nutanix Sizer](#)) and complete the guided selling questionnaire to secure the Nutanix configuration specifications that meet the customer requirements.
- Build the configuration in CCW using top level ordering SKU HCI-M6-MLB. Create deal using the CCW configuration, every deal that contains Nutanix SW must go through non-Standard Deal Approval process. Cisco Sales AM will need to submit non-standard deal by providing info on Nutanix Deal Registration, justification for discount request and attaching the relevant approval letter from Nutanix.
- Commercial Finance will enter the non-standard discount and approve it after the required due diligence is done for ensuring that the discount aligns to the zone discount guidelines shared by Nutanix.
- Once the non-standard deal is approved, it is available to convert to order.
- Nutanix Software is Not a Cisco Smart License. License is fulfilled by Nutanix and managed on Nutanix portal. For every order line containing Nutanix, the order submitter must enter End customer information (name, email, address) in Provisioning info screen on the CCW order line for Nutanix SKUs.
- Nutanix will send the License activation email to the end customer email ID that is entered into the provisioning info screen.
