## New and Changed Information

The following table provides an overview of the significant changes to the organization and features in this guide up to this current release. The table does not provide an exhaustive list of all changes made to the guide or of the new features up to this release.

**Table 1: New Features and Changed Behavior in Cisco Cloud APIC Release 5.0(1)**

Feature or Change	Description	Where Documented
Support for new AWS instance type for Cloud APIC deployment.	Support is available for the M5.2xlarge instance type for the Cloud APIC deployment.	<a href="#">Requirements for the AWS Public Cloud</a>
Support for policy-based upgrade, downgrading, and migration.	In addition to the migration-based upgrade that was available previously, you can also upgrade using policy-based upgrades in certain situations. Instructions for downgrading and recovery are also available.	<a href="#">Performing a System Upgrade, Downgrade or Recovery</a>
