

Preface

The *Installation Guide for Cisco Broadband Access Center 3.5* describes general requirements and installation procedures for Cisco Broadband Access Center, which is referred to as BAC throughout this installation guide.

This chapter provides an outline of the other chapters in this guide, details information about related documents that support this BAC release, and demonstrates the styles and conventions used in the guide.

This chapter contains the following sections:

- [Audience, page v](#)
- [Organization, page v](#)
- [Product Documentation, page vii](#)
- [Product Documentation, page vii](#)
- [Obtaining Documentation and Submitting a Service Request, page viii](#)

Audience

System integrators, network administrators, and network technicians use this installation guide to install BAC on a Solaris operating system.

Organization

This guide includes the following sections:

Section	Title	Description
Chapter 1	Introduction	Describes general requirements for a successful installation of BAC.
Chapter 2	Before Installing Broadband Access Center	Describes factors to consider as you prepare to install BAC; for example, the individual components of BAC, the database requirements, and the order of operations for installing the software.
Chapter 3	Installing Broadband Access Center	Describes how to install the individual components of BAC from the GUI or the command line interface (CLI).

Section	Title	Description
Chapter 4	Adding a DPE	Describes how to add a BAC component, the DPE, from the GUI or the CLI.
Chapter 5	Uninstalling Broadband Access Center	Describes how to uninstall BAC from the GUI or the CLI.
Chapter 6	Configuring the Syslog Utility to Receive BAC Alerts	Describes how to configure the syslog file to receive alerts after BAC is installed.
Appendix A	Reinstalling Broadband Access Center	Describes how to reinstall BAC from the GUI or the CLI in case of a corrupted installation.
Appendix A	Installation Worksheet	Describes the various BAC Installation Parameters that you need to consider before installing BAC.

Conventions

This document uses the following conventions:

Convention	Indication
bold font	Commands and keywords and user-entered text appear in bold font .
<i>italic font</i>	Document titles, new or emphasized terms, and arguments for which you supply values are in <i>italic font</i> .
[]	Elements in square brackets are optional.
{ x y z }	Required alternative keywords are grouped in braces and separated by vertical bars.
[x y z]	Optional alternative keywords are grouped in brackets and separated by vertical bars.
string	A nonquoted set of characters. Do not use quotation marks around the string or the string will include the quotation marks.
<code>courier font</code>	Terminal sessions and information the system displays appear in <code>courier font</code> .
< >	Nonprinting characters such as passwords are in angle brackets.
[]	Default responses to system prompts are in square brackets.
!, #	An exclamation point (!) or a pound sign (#) at the beginning of a line of code indicates a comment line.

Note

Means *reader take note*.

Tip

Means *the following information will help you solve a problem*.

Caution

Means *reader be careful*. In this situation, you might perform an action that could result in equipment damage or loss of data.

Product Documentation

Note

We sometimes update the printed and electronic documentation after original publication. Therefore, you should also review the documentation on Cisco.com for any updates.

Table 1 describes the documentation that is available for this BAC release.
