

View Inventory

This chapter describs the tasks to view the inventory details of a single or multiple racks.

- View Inventory of All Racks and Chassis, on page 1
- View Inventory of Single Rack and Chassis, on page 2

View Inventory of All Racks and Chassis

You can view inventory of all the racks and chassis used on the network from the **Inventory** tab. To view the inventory of all the racks and chassis, perform these steps:

Before you begin

Log into Cisco Optical Site Manager

Procedure

Step 1 Click **Inventory** in the left panel.

The Inventory page appears and displays the following details:

- Location—Displays the location where the equipment is installed.
- UID—Displays the unique identifier of each component.
- Display Name—Displays the display name of each component.
- Equipment Type—Displays the type of equipment.
- Connected To-Displays the passive unit associated with the USB port of the chassis.
- Actual Type—Displays the specific card name.
- Serial No-Displays the equipment serial number.
- Product ID—Displays the manufacturing product identifier.
- HW Part No—Displays the hardware part number.
- CLEI Code—Displays the Common Language Equipment Identifier (CLEI) code.

- Version ID—Displays the manufacturing version identifier.
- HW Rev—Displays the hardware revision number.
- Boot ROM Rev—Displays the boot read-only memory (ROM) revision number.
- Manufacturing Date—Displays the manufacturing date of the component.

Step 2 (Optional) Click the Export to Excel icon to export and download the inventory information to an Excel file.

View Inventory of Single Rack and Chassis

To view the inventory details of a single rack or chassis, such as location, display name, and equipment type, perform these steps:

Before you begin

Log into Cisco Optical Site Manager

Procedure

Step 1	Click COSM Topology in the left panel.
	The COSM Topology page appears.
Step 2	Click the rack name from the Rack view.
Step 3	Right-click the chassis from the Rack view and select Open
	The Inventory page appears and displays the following details:
	• Location—Displays the location where the equipment is installed.
	• UID —Displays the unique identifier of each component.
	• Display Name—Displays the display name of each component.
	• Eqpt Type—Displays the type of equipment.
	• Connected To—Displays the passive unit associated with the USB port of the chassis.
	• Actual Eqpt Type—Displays the specific card name.
	• Serial No—Displays the equipment serial number.
	• Product ID—Displays the manufacturing product identifier.
	• HW Part No—Displays the hardware part number.

- CLEI Code—Displays the Common Language Equipment Identifier (CLEI) code.
- Version ID—Displays the manufacturing version identifier.
- HW Rev—Displays the hardware revision number.
- Boot ROM Rev-Displays the boot read-only memory (ROM) revision number.

• Manufacturing Date—Displays the manufacturing date of the selected rack or chassis.

Step 4 (Optional) Click the **Export to Excel** icon to export and download the inventory information to an Excel file.
