

Known Issues

The following tables address known issues open at the time of publication of these release notes. For an updated list of known issues, run the provided query in the Bug Search Tool.

If you have a Cisco support contract, use the following dynamic search for all open bugs severity 3 and higher for Version 6.2.1: https://bst.cloudapps.cisco.com/bugsearch/search?kw=*&pf=prdNm&pfVal=286259685&rls=6.2.1&sb=af&sts=open&svr=3nH&bt=custV

Caveat ID Number	Description
CSCve19910	access control policy does not pop-up IP address while calling objects in network tab
CSCvd45772	Creating an AC rule via REST API with inlineApplicationFilters renders policy edit UI page unstable
CSCve00784	[FMC] AC Validation optimization handling youtube/safesearch for SSL policy
CSCve21032	Network counts display incorrectly
CSCve37832	License Sync failed with CSSM in FMC HA env
CSCve17347	Unable to assign domain/device overridden ip pool to diagnostic interface
CSCve06445	Layer screen duplicates advanced settings when you change the description
CSCve32346	SIGABRT ActionQueueScrape cores in Firepower Management Center high availability
CSCve34792	FTD-NAT:Deployment fails when nat group object with in-line values overlaped with interface IP.
CSCve84182	Adding/removing a device to RAVPN policy causes existing assigned devices to be marked out of date
CSCve31687	Deployment failure for IPv6 pool changes when there are active VPN sessions using the pool
CSCve30147	Sub-domain SI objects cannot be deleted

Caveat ID Number	Description
CSCvd64182	Management Interface shows up even when connected switchport is shutdown
CSCve24555	Deployment failure when 6.2.1 FMC deploys max download/upload value to 6.2.0/6.1.0 device
CSCve36289	samba/SMB file monitor evasion
CSCve17433	Policy deployment failing on AWS Firepower Management Center
CSCvc64185	Task getting created whenever Cloud Management option is selected
CSCve03171	KP. Snort cores in NSE with sig abort during long SSL CPS test
CSCve12691	Hash statement shown after deleting custom topology
CSCvd85133	Stale Sessions in Firepower Management Center active users when Change of Relam in Radius object
