

Installing the Cisco UCS Manager Adapter

This chapter includes the following section:

- [Installing the Cisco UCS Management Pack](#) , on page 1
- [Uninstalling the Cisco UCS Management Pack](#), on page 2

Installing the Cisco UCS Management Pack

Before you begin

- Download the *.pak* file from Cisco.com and save the file in your local system.

-
- Step 1** Log in to the vRealize Operation Manager using *https://UI_vROps_IP*.
- Step 2** For the release version vROps 8.6 and later, navigate to **Data Sources > Integrations > Repository**.
- Note** For the release version vROps 8.5 and earlier, navigate to **Administration > Solutions > Repository**.
- Step 3** On the **Repository** page, click **ADD/UPGRADE**.
The **Add Solution** page appears.
- Step 4** Click **Browse**, and navigate to the folder in which UCS management pack *.pak* file is saved.
- Step 5** Click **Upload**.
Monitor the progress of the upload.
- Step 6** Click **Next**.
EULA agreement page appears.
- Step 7** Review the agreement and select **I accept the terms of this agreement**, and click **Next**.
- Step 8** Click **Finish**.
After the installation is complete, the installed adapter appears as **Cisco UCS** in the **Solutions > Repository**.

- Important** If you are upgrading from 2.0(1) or 2.0(2) to higher versions, we recommend that you do the following:
- During installation, check the Reset Default Content check box for overwriting the alert definitions
 - Restart the vRealize Operations Manager after the installation
 - Reconfigure all the adapter instances
-

Uninstalling the Cisco UCS Management Pack

Once the Cisco UCS Management Pack is installed, you cannot uninstall it from the vRealize Operations Manager system. However, you can delete all the adapter instances to stop the data being collected in vRealize Operations Manager. To delete the adapter instance, follow these steps:

Step 1 Access the vRealize Operations Manager window.

Step 2 For the release version vROps 8.6 and later, navigate to **Data Sources > Integrations > Repository**.

Note For the release version vROps 8.5 and earlier, navigate to **Administration > Solutions > Repository**.

Step 3 In the **Repository** page, click **UNINSTALL** for **Cisco UCS**.

Step 4 Select **I understand the risk and agree**, and click **OK**.
