New and Changed Information for This Release

The following table provides an overview of the significant changes to this guide for this current release. The table does not provide an exhaustive list of all changes made to this guide or of all new features in this release.

Table 1: New Features and Changed Behavior in Cisco UCS Director, Release 6.0.

Feature	Description	Where Documented
Support for deploying and cloning VMs across datacenters	You can now provision a VM on a datacenter by using a template image available on any other datacenter under the same cloud. Likewise, you can clone a VM from one datacenter to another datacenter under the same cloud.	VMware Templates Provisioning VMs Using Orchestration Workflows
