## Bug Severity Levels

Known problems (bugs) are graded according to severity level. The following table describes bug severity levels:

Severity Level		Description
1	Catastrophic	Reasonably common circumstances cause the entire system to fail, or a major subsystem to stop working, or other devices on the network to be disrupted. No workarounds exist.
2	Severe	Important functions are unusable and workarounds do not exist. Other functions and the rest of the network is operating normally.

Severity Level		Description
3	Moderate	Failures occur in unusual circumstances, or minor features do not work at all, or other failures occur but low-impact workarounds exist.  This is the highest level for documentation bugs.
4	Minor	Failures occur under very unusual circumstances, but operation essentially recovers without intervention. Users do not need to install any workarounds and performance impact is tolerable.
5	Cosmetic	Defects do not cause any detrimental effect on system functionality.
6	Enhancement	Requests for new functionality or feature improvements.

## Search for Bugs

To search for bugs, do the following:

### Procedure

- 
- Step 1** Go to <https://tools.cisco.com/bugsearch/search>.
  - Step 2** Sign in with your Cisco.com user ID and password.
  - Step 3** Enter the bug ID or specify search parameters.
- 

### What to Do Next

For more information, select **Help** on the **Bug Search** page.

## Open Caveats in Release 10.6(7)

Identifier	Severity	Component	Headline
<a href="#">CSCuv15478</a>		jabber-phone	Evaluation of cucilync for OpenSSL June 2015

## Resolved Caveats in Release 10.6(7)

Identifier	Severity	Component	Headline
<a href="#">CSCux46087</a>	2	jabber-phone	libxml2 December 2015 parsing vulnerabilities
<a href="#">CSCuw30268</a>	6	lync-integrations	Multiple lync popups occur when webex meeting starts

Identifier	Severity	Component	Headline
<a href="#">CSCUw54113</a>	3	lync-integrations	CUCILync is closing Lync IM window after webex meeting ends
<a href="#">CSCUw54124</a>	3	lync-integrations	CUCILync doesnt send WebEx invitation link via S4B
<a href="#">CSCux46609</a>	5	jabber-phone	CUCI-Lync displaying 'Unable to load custom contact(s)'
<a href="#">CSCux43556</a>	3	jabber-phone	Calls fails for contacts that has URI address alphanumeric characters

## Closed Caveats in Release 10.6(7)

Identifier	Severity	Components	Headline
<a href="#">CSCus35699</a>	3	jabber-phone	No video or audio on a call (EDGE+SSO)

## Open Caveats in Release 10.6(6)

Identifier	Severity	Component	Headline
<a href="#">CSCus35699</a>	3	jabber-phone	No video or audio on a call (EDGE+SSO).

## Resolved Caveats in Release 10.6(6)

Identifier	Severity	Component	Headline
<a href="#">CSCuv76474</a>	3	jabber-phone	The client cannot be connected/associated with it's IP phone.
<a href="#">CSCul28499</a>	6	lync-integrations	Drag and drop from Outlook to CUCI-Lync.
<a href="#">CSCuv52524</a>	3	lync-integrations	CUCILync Drag&Drop does not work if email and JID are different.
<a href="#">CSCuq04999</a>	6	installer	Add installer switch so that device selector is turned off.
<a href="#">CSCUw01236</a>	2	jabber-phone	CUCILync 10.6.2 - IE POPUP feature not supported with latest IE Ver.
<a href="#">CSCul00095</a>	6	jabber-phone	CUCI-Lync 9.2 does not save Username at logout.

Identifier	Severity	Component	Headline
<a href="#">CSCuv86705</a>	4	jabber-phone	Transferred call history log is not the same as deskphones.
<a href="#">CSCuv25705</a>	3	jabber-phone	CUCILYNC crashes when call history icon is pressed on docking window.
<a href="#">CSCuu67896</a>	3	lync-integrations	Call toast is displayed if Lync is started before CUCILync.
<a href="#">CSCuu76643</a>	3	lync-integrations	Drag and drop phone only number creates conference call.
<a href="#">CSCuu67931</a>	3	lync-integrations	DND presence problem when Lync is starter before CUCILync.
<a href="#">CSCuu28925</a>	3	lync-integrations	Delay in getting number from Lync to call.
<a href="#">CSCuu53075</a>	6	lync-integrations	Lync chat window is not on the top.
<a href="#">CSCuv61043</a>	3	jabber-phone	CUCILync Call History changes after call transfer.
<a href="#">CSCuw21610</a>	3	installer	Lotus Notes calendar integration not working.
