Configure Conferencing for a Cloud-Based Deployment Using Cisco WebEx Meeting Center

Configure the appropriate settings with the Cisco WebEx Administration Tool and assign the meeting and conferencing capabilities to the appropriate users.

Authentication with Cisco WebEx Meeting Center

You can use the following types of authentication with Cisco WebEx Meeting Center:

- Direct Authentication — The client can pass user credentials directly to Cisco WebEx Meeting Center.

To enable direct authentication, complete the following steps:

1. Create user accounts for Cisco WebEx Meeting Center using the Cisco WebEx Administration Tool.
Cisco WebEx Meeting Center must validate user credentials in a direct authentication scenario. The user accounts hold the credentials so that Cisco WebEx Meeting Center can validate them when the client attempts to authenticate.
2. Specify Cisco WebEx Meeting Center credentials in the client interface.

See the *Overview of Loosely Coupled Integration* topic for more information.

Disable Instant WebEx Meeting Menu Option

Procedure

Step 1 Remove one of the following registry keys to disable Instant WebEx Meeting menu option.

- 64 bit versions of Windows—

`HKEY_LOCAL_MACHINE\SOFTWARE\Wow6432Node\Microsoft\Communicator\SessionManager\Apps\{7DE5E338-CF87-4824-810D-3822EDEF97E}`

- 32 bit versions of Windows—

`HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Communicator\SessionManager\Apps\{7DE5E338-CF87-4824-810D-3822EDEF97E}`

Step 2 Restart the client for this to take effect.
