Bug Search Tool

The system grades known problems (bugs) according to severity level. These release notes contain descriptions of the following bug levels:

- All severity level 1 or 2 bugs
- Significant severity level 3 bugs
- All customer-found bugs

You can search for problems by using the Cisco Bug Search tool.

To access Bug Search, you need the following items:

- Internet connection
- Web browser
- Cisco.com user ID and password

Follow these steps to use Bug Search:

- 1 Access Bug Search.
- 2 Log in with your Cisco.com user ID and password.
- 3 If you are looking for information about a specific problem, enter the bug ID number in the **Search for:** field, and click **Go**.

Tip

Click **Help** on the Bug Search page for information about how to search for bugs, create saved searches, and create bug groups.
