Updated Features

TLS v1.2 Support

This release supports Transport Layer Security (TLS) version 1.2 as the default version for both incoming and outgoing SSL connections.

Deprecated Features

None

Removed and Unsupported Features

Dashboards

The Dashboards drawer from the legacy interface is disabled.

Dashboards - Slideshow

The Dashboard slideshow feature that was used to move through items on the dashboard is removed.

Scheduled Reports on Dashboards

You can no longer add scheduled reports on Dashboards. If there are existing Dashboards with scheduled report widgets in versions prior to 11.6, those widgets (not the Dashboards) will be dropped on upgrade to 11.6.

Third-Party Software Impacts

None
