

# LTE Forbidden Tracking Area Configuration Mode Commands

The LTE Forbidden Tracking Area Configuration Mode is used to create and manage forbidden tracking area code (TAC) configurations.

**Command Modes** Exec > Global Configuration > LTE Policy Configuration > LTE HO Restriction List Configuration > LTE Forbidden Tracking Area Configuration

configure > lte-policy > ho-restrict-list *list\_name* > forbidden tracking-area plmnid *plmn\_id* 

Entering the above command sequence results in the following prompt:

[local]host\_name(forbidden\_ta)#

C)

**Important** The commands or keywords/variables that are available are dependent on platform type, product version, and installed license(s).

**Important** For information on common commands available in this configuration mode, refer to the Common Commands chapter.

• tac, on page 1

## tac

Configures a tracking area code (TAC) or area codes where a UE, associated with this LTE policy, is restricted from participating in a handover scenario.

Product	MME
Privilege	Administrator
Command Modes	Exec > Global Configuration > LTE Policy Configuration > LTE HO Restriction List Configuration > LTE Forbidden Tracking Area Configuration

#### configure > lte-policy > ho-restrict-list *list\_name* > forbidden tracking-area plmnid *plmn\_id*

Entering the above command sequence results in the following prompt:

[local]host\_name(forbidden\_ta)#

Syntax Description [ no ] tac area\_code +

#### no

Removes a configured forbidden handover area code or area codes from this policy. If no tracking area code is specified, then all tracking area codes are removed.

#### area\_code

Specifies a tracking area code or area codes from which UEs are restricted from participating in a handover as an integer from 0 to 65535. Multiple area codes can be entered (up to 128 in a single line, separated by spaces).

#### +

Indicates that multiple area codes up to 128 in a single line, separated by spaces, can be entered in this command.

**Usage Guidelines** Use this command to configure tracking area codes that will be forbidden to UEs associated with this LTE policy.

#### Example

The following command configures eight tracking area codes (1, 2, 3, 4, 5, 6, 7, 8) where a UE, associated with this LTE policy, is restricted from participating in a handover scenario:

tac 1 2 3 4 5 6 7 8
