[创建组在包含CIS的外部组的综合域下是否是可能的？](#)

简介

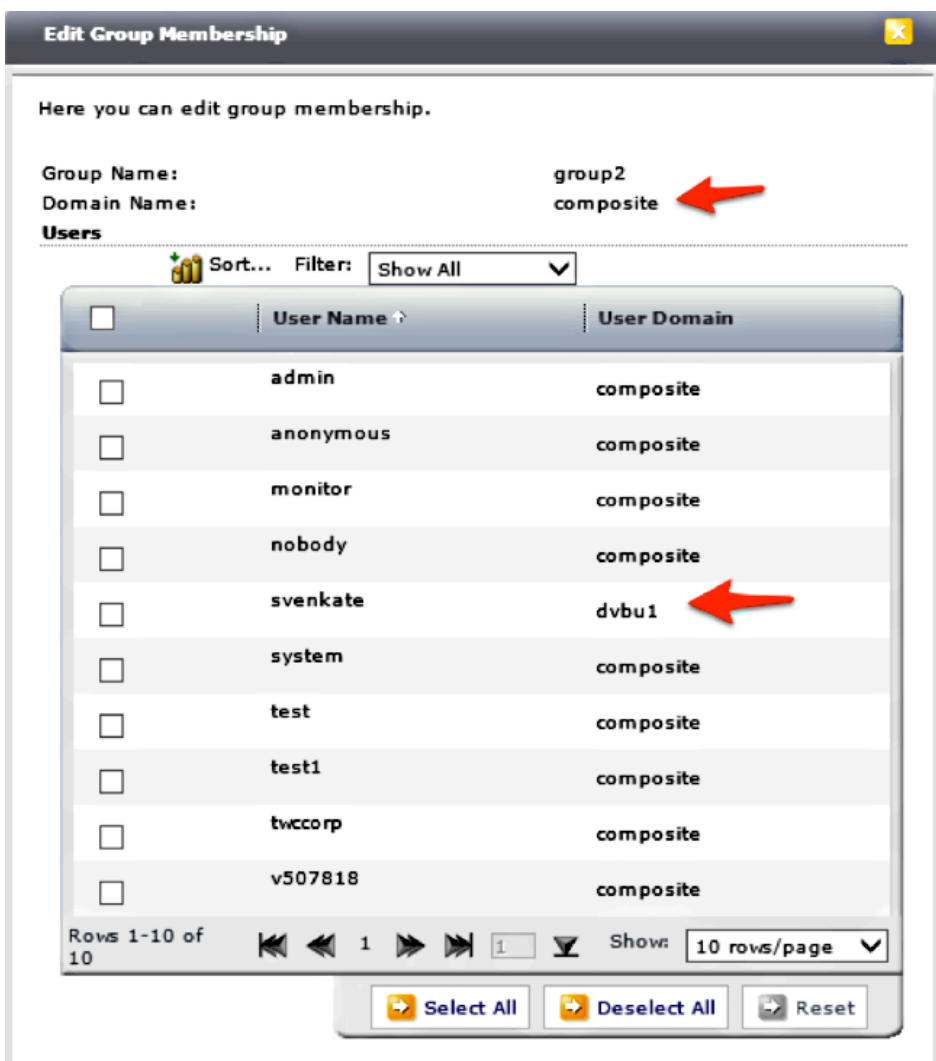

本文讨论，如果外部轻量级目录访问协议(LDAP)组可以被添加到在思科信息服务器(CIS)的综合域创建的组。

创建组在包含CIS的外部组的综合域下是否是可能的？

如果要创建包含其他外部组的组，您在外部LDAP服务器应该执行那。然后您能请求外部特级组到CIS。

您不能添加外部组到综合域的一组。

然而您能从外部域添加外部用户到综合域的一组。

The screenshot shows a window titled "Edit Group Membership" with a close button in the top right corner. Below the title bar, there is a text area that says "Here you can edit group membership." Below this, there are two labels: "Group Name:" and "Domain Name:". The "Group Name:" field contains the text "group2" and the "Domain Name:" field contains the text "composite". A red arrow points to the "composite" text. Below these fields, there is a section titled "Users" with a "Sort..." button and a "Filter:" dropdown menu set to "Show All". Below the filter is a table with two columns: "User Name" and "User Domain". The table contains the following rows:

<input type="checkbox"/>	User Name	User Domain
<input type="checkbox"/>	admin	composite
<input type="checkbox"/>	anonymous	composite
<input type="checkbox"/>	monitor	composite
<input type="checkbox"/>	nobody	composite
<input type="checkbox"/>	svenkate	dvbu1
<input type="checkbox"/>	system	composite
<input type="checkbox"/>	test	composite
<input type="checkbox"/>	test1	composite
<input type="checkbox"/>	twccorp	composite
<input type="checkbox"/>	v507818	composite

At the bottom of the table, there is a pagination control showing "Rows 1-10 of 10" and a "Show:" dropdown menu set to "10 rows/page". Below the table, there are three buttons: "Select All", "Deselect All", and "Reset". A red arrow points to the "dvbu1" text in the "User Domain" column of the "svenkate" row.
