Statement 18
Part I, Line 6

Liquidation of BT Institutional Funds reflects management's investment policy decision based on a review of market conditions at that time. The BT Institutional Funds are indexed to the market; thus the funds lost values in the second half of year 2000, and management determined that the best course was to liquidate those funds before further losses occurred. At the time of liquidation, previously unrealized losses were realized, thereby generating the capital loss that is being reported for the tax period ending July 31, 2001.
