

Using IP/TV Viewer

This chapter describes how to set up network installations of IP/TV Viewer and how to use IP/TV Viewer to view a sample on-demand or scheduled program, and includes the following sections:

- Setting Up Network Installations of IP/TV Viewer
- Viewing Scheduled and On-demand Programs

Setting Up Network Installations of IP/TV Viewer

For information on doing the initial network installation, see Chapter 4, “Administering IP/TV Viewer” in the *IP/TV Administration and Configuration Guide*.

Viewing Scheduled and On-demand Programs

If you have defined a sample scheduled or on-demand program, follow these steps to view the program in the IP/TV Viewer:

- Step 1** Open the IP/TV Viewer.
- Step 2** On the Program Categories pane, double-click **OnDemand Videos** or **Scheduled Programs**.
- Step 3** Double-click **Sample Program**.
