

What's New in Cisco Product Documentation

January 2011

RSS

What's New in Cisco Product Documentation lists new and revised Cisco documentation since the last release of this monthly publication. To subscribe to the *What's New in Cisco Product Documentation* RSS feed, paste this URL into your RSS reader:

http://www.cisco.com/cdc_content_elements/rss/whats_new/whatsnew_rss_feed.xml

Previous releases of the *What's New in Cisco Product Documentation* are available at the following URL:

<http://www.cisco.com/en/US/docs/general/whatsnew/archive/archive.html>

Cisco Product Documentation Collaboration Tools

Cisco DocWiki

You can collaborate on Cisco documentation at this URL:

<http://docwiki.cisco.com>

Cisco Icon Library

Cisco icons are globally recognized and generally accepted as standard for network icon topologies. Cisco icons are available for download at the following URL:

<http://www.cisco.com/web/about/ac50/ac47/2.html>

Cisco International Websites

To find international Cisco websites, go to <http://www.cisco.com>, and click *Worldwide [change]* at the top of the page.

Americas Headquarters:

Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

Cisco Internetworking Terms and Acronyms (ITA)

Provides accurate and consistent definitions of internetworking terms and acronyms. These terms are specific to Cisco products, technologies, or services; they could also have an additional definition or description that is unique to Cisco.

This file does not duplicate industry-standard terms for which definitions can be found in other sources.

http://docwiki.cisco.com/wiki/Category:Internetworking_Terms_and_Acronyms_%28ITA%29

Cisco Product Photography

Cisco allows third parties to use Cisco product photography. You can download the conditions for using Cisco product photography from the following URL:

http://resources.cisco.com/app/tree.taf?asset_id=64535&public_view=true

Technical Documentation Ideas Forum

Allows you to communicate with other customers and Cisco technical writers. You can share your ideas about Cisco documentation on the Technical Documentation Ideas Forum.

<http://www.cisco.com/go/techdocideas>

Application Networking Services

Revised Documents

- [*Release Note for the Cisco 11500 Series Content Services Switch \(Software Version 8.10.x\)*](#)
Describes the resolved and open caveats, and CLI command changes for software version 8.10.7.01 of the Cisco 11500 series CSS.
- [*Release Note for the Cisco 11500 Series Content Services Switch \(Software Version 8.20.x\)*](#)
Describes the resolved and open caveats, and CLI command changes for software version 8.20.5.01 of the Cisco 11500 series CSS.
- [*Release Note for the Cisco Application Control Engine Module \(Software Version A2\(3.X\)\)*](#)
Describes the resolved and open caveats, and CLI command changes for software version A2(3.3) of the ACE module.

Cisco Interfaces and Modules

None at this time.

Cisco IOS and NX-OS Software

New and Revised Documents for Cisco IOS Release 15.1(1)S

The Cisco IOS documentation set includes configuration guides, command references, release notes, system message guides, and master command lists. For all new and revised Cisco IOS documentation for Cisco IOS Release 15.1(1)S, see the following URL:

http://www.cisco.com/en/US/products/ps11280/tsd_products_support_series_home.html

For a list of the new software and hardware features in Cisco IOS Release 15.1(1)S, see the release notes:

http://www.cisco.com/en/US/products/ps11280/prod_release_notes_list.html

New and Revised Documents for Cisco IOS Release 15.1(3)T

The Cisco IOS documentation set includes configuration guides, command references, release notes, system message guides, and master command lists. For all new and revised Cisco IOS documentation for Cisco IOS Release 15.1(3)T, see the following URL:

http://www.cisco.com/en/US/products/ps10592/tsd_products_support_series_home.html

For a list of the new software and hardware features in Cisco IOS Release 15.1(3)T, see the release notes:

http://www.cisco.com/en/US/products/ps10592/prod_release_notes_list.html

New and Revised Documents for Cisco IOS XE Release 3.2S

The Cisco IOS documentation set includes configuration guides, command references, release notes, system message guides, and master command lists. For all new and revised Cisco IOS documentation for Cisco IOS XE Release 3.2S, see the following URL:

http://www.cisco.com/en/US/products/ps11174/tsd_products_support_series_home.html

For a list of the new software and hardware features in Cisco IOS XE Release 3.2S, see the release notes:

http://www.cisco.com/en/US/products/ps11174/prod_release_notes_list.html

Network Management and Automation

New Documents

- *[Incremental Device Driver Update for CiscoWorks Network Compliance Manager](#)*
Describes the device drivers supported by CiscoWorks Network Compliance Manager.
- *[Release Notes for CiscoWorks Network Compliance Manager 1.5.03](#)*
Describes the supported platforms, supported databases, hardware/software requirements, resolved issues, and known caveats.

Revised Documents

- *[Cisco DCNM Release Notes, Release 5.1](#)*
Describes the 32-port 10-Gigabit Ethernet I/O module.

Optical Networking

The terms “Unidirectional Path Switched Ring” and “UPSR” may appear in Cisco literature. These terms do not refer to using Cisco ONS 15xxx products in a unidirectional-path-switched-ring configuration.

Instead, these terms, and “Path Protected Mesh Network” and “PPMN,” generally refer to Cisco’s Path Protection feature, which may be used in any topological network configuration. Cisco does not recommend using its Path Protection feature in any particular topological network configuration.

Physical Security and Building Systems

None at this time.

Routers

Revised Documents

- [Cisco 7600 Series Router SIP, SSC, and SPA Software Configuration Guide](#)
Describes the configuration and troubleshooting of SPA interface processors (SIPs), SPA services cards (SSCs), and shared port adapters (SPAs) that are supported on a Cisco 7600 series router.
- [Cisco 7600 Series Router Software Configuration Guide Cisco IOS Release 15S](#)
Describes the configuration information for Cisco IOS Release 15S for Cisco 7600 series routers.

Security

New Documents

- [Accessibility Features in Cisco NAC Agent- Keyboard Navigation](#)
Describes the keyboard shortcuts that are used to navigate through the Cisco NAC Agent.

Revised Documents

- [Cisco NAC Appliance Switch and Wireless LAN Controller Support](#)
Describes Cisco NAC Appliance interoperability support information for a variety of Cisco switches and Wireless LAN Controllers.
- [Cisco NAC Guest Server Installation and Configuration Guide, Release 2.0](#)
Explains how to install and configure the Cisco NAC Guest Server appliance, Release 2.0.
- [Release Notes for Cisco NAC Appliance \(Cisco Clean Access\), Version 4.8](#)
Contains late-breaking and cumulative release, upgrade, and bug fix information for Release 4.8.
- [Release Notes for Cisco NAC Guest Server, Release 2.0.3](#)
Contains a list of bugs in Cisco NAC Guest Server, Release 2.0.3 and their workarounds.

Service Exchange

New Documents

- [Cisco Insight v2 Installation Guide, Release 2.0.0](#)
Explains how to install and configure the Cisco Insight v2 software.
- [Cisco Insight v2 User Guide, Release 2.0.0](#)
Explains how to install, provision, and maintain Cisco Insight v2. This document is for administrators and end-user operators.
- [Release Notes for Cisco Insight v2, Release 2.0.0](#)
Describes the new, changed, and unique characteristics of this release.

Storage Networking

None at this time.

Switches

New Documents

- [Cisco IE 3010 Switch Command Reference](#)
Describes the commands that have been specifically created for use with the switch.
- [Cisco IE 3010 Switch Getting Started Guide \(All Languages\)](#)
Explains how to unpack the switch and connect it to a network.
- [Cisco IE 3010 Switch Hardware Installation Guide](#)
Explains how to install the switch in a rack, install components in the switch, and how to connect cables to the switch ports.
- [Cisco IE 3010 Switch Software Configuration Guide](#)
Explains how to configure the switch by using the command-line interface and how to configure the software features.
- [Cisco IE 3010 Switch System Message Guide](#)
Describes the platform-specific messages for the switch.
- [Regulatory Compliance and Safety Information for the Cisco IE 3010 Switch](#)
Lists the safety warnings and compliance standards that are specific to the switch.
- [Release Notes for the Cisco IE 3010 Switch, Cisco IOS Release 12.2\(53\)EZ](#)
Describes new, and unique characteristics of this release.

Revised Documents

- [Cisco Nexus 7000 Series FPGA/EPLD Upgrade Release Notes, Release 5.1](#)
Included information about the 32-port 10-Gigabit Ethernet I/O module with the XL option.

- [Cisco Nexus 7000 Series Hardware Installation and Reference Guide](#)
Included information about the 32-port 10-Gigabit Ethernet I/O module with the XL option and its optics.
- [Cisco Nexus 7000 Series NX-OS System Management Configuration Guide, Release 5.x](#)
Updated the GOLD chapter to include information on the SnakeLoopback test.
- [Cisco Nexus 7000 Series Site Preparation Guide](#)
Included information about the 32-port 10-Gigabit Ethernet I/O module with the XL option and its optics.
- [Cisco NX-OS Release Notes, Release 5.1](#)
Included information about the 32-port 10-Gigabit Ethernet I/O module with the XL option and its optics.

TelePresence

None at this time.

Unified Computing

None at this time.

Universal Gateways and Access Servers

None at this time.

Video and Content Delivery

New Documents

- [Cisco uBR-MC3GX60V Cable Interface Line Card Hardware Installation Guide](#)
Provides physical description, technical specifications, and cabling details for the Cisco uBR-MC3GX60V cable interface line card. Also explains how to install it.
- [Cisco uBR10012 Universal Broadband Router Hardware Troubleshooting Guide for Cisco IOS Release 12.2SC](#)
Explains the procedures for user-level hardware troubleshooting on Cisco uBR10012 universal broadband routers that support Cisco IOS Release 12.2SC and future releases.
- [Configuring the Cisco uBR-MC3GX60V Cable Interface Line Card](#)
Explains how to configure the Cisco uBR-MC3GX60V cable interface line card.
- [New Features in Cisco IOS Release 12.2\(33\)SCE](#)
Describes the new hardware and software features supported in Cisco IOS Release 12.2(33)SCE.

- [*Quick Start Guide: Cabling Cisco uBR 3x10 RF Switches to Cisco uBR-MC3GX60V Cable Interface Line Cards in a Cisco uBR10012 CMTS Router*](#)

Explains how to connect the cables among the Cisco uBR 3x10 RF Switches. Also explains how to work with and protect Cisco uBR-MC3GX60V cable interface line cards installed in a Cisco uBR10012 Cable Modem Termination System (CMTS).

- [*Quick Start Guide: Installing Cisco uBR-MC3GX60V Cable Interface Line Cards*](#)

Explains how to install the Cisco uBR-MC3GX60V cable interface line card. Also describes the cabling details.

Revised Documents

- [*Caveats for the Cisco uBR7200 Series Universal Broadband Routers in Cisco IOS Release 12.2SC*](#)

Describes the open and closed caveats for Cisco IOS Release 12.2(33)SCE.

- [*Caveats for the Cisco uBR10012 Universal Broadband Router in Cisco IOS Release 12.2SC*](#)

Describes the open and closed caveats for Cisco IOS Release 12.2(33)SCE.

- [*Cisco CMTS Universal Broadband Series Router MIB Specifications Guide*](#)

Explains how to implement the Simple Network Management Protocol (SNMP) for Cisco CMTS routers.

- [*Cisco DOCSIS 3.0 Downstream Solution Design and Implementation Guide*](#)

Describes the Cisco DOCSIS 3.0 downstream solution for Cisco IOS Release 12.3(23)BC, Cisco IOS Release 12.2(33)SCB, and later releases. It explains how to design and implement a cable network that uses the DOCSIS 3.0 downstream features.

- [*Cisco IOS CMTS Cable Command Reference*](#)

Describes the new and modified commands necessary to configure, maintain, and troubleshoot Cisco CMTS routers in Cisco IOS Release 12.2(33)SCE.

- [*Cisco IOS CMTS Cable Software Configuration Guide, Release 12.2SC*](#)

Describes the configuration details, prerequisites, and restrictions for new and modified software features supported on Cisco CMTS routers in Cisco IOS Release 12.2(33)SCE.

- [*Cisco IOS CMTS Cable System Messages Guide*](#)

Describes system error messages that are specific to the Cisco CMTS platforms.

- [*Cisco uBR10012 Universal Broadband Router Documentation Roadmap*](#)

Serves as an online directory to quickly access publications related to Cisco uBR10012 universal broadband router.

- [*Cisco uBR7200 Series Universal Broadband Router Documentation Roadmap*](#)

Serves as an online directory to quickly access publications related to Cisco uBR7200 series universal broadband routers.

- [*Cisco uBR10012 Universal Broadband Router Hardware Installation Guide*](#)

Explains how to install the hardware for the Cisco uBR10012 universal broadband router.

- [*Cisco uBR10012 Universal Broadband Router Performance Routing Engine Module*](#)

Explains how to install, remove, and troubleshoot Performance Routing Engine (PRE) on Cisco universal broadband routers.

- [*Cross-Platform Release Notes for Cisco Universal Broadband Routers in Cisco IOS Release 12.2SC*](#)
Describes the system requirements, software compatibility information, and gives a brief summary of the new hardware and software features supported on the Cisco CMTS routers in Cisco IOS Release 12.2(33)SCE.
- [*Regulatory Compliance and Safety Information for the Cisco uBR10012 Universal Broadband Router*](#)
Describes the regulatory compliance and safety information for the Cisco uBR10012 universal broadband router.
- [*Software License Activation on Cisco CMTS Routers*](#)
Explains the process and components to activate Cisco IOS software feature sets by obtaining and validating fee-based Cisco software licenses.

Voice and Unified Communications

New Documents

- [*Accessibility Features in Cisco UC Integration for Microsoft Lync Release 8.5*](#)
Provides accessibility information for Cisco UC Integration for Microsoft Lync Release 8.5.
- [*Cisco Unified Messaging Gateway 8.5 Installation and Upgrade Guide*](#)
Explains how to install and upgrade Cisco Unified Messaging Gateway 8.5.
- [*Cisco Unified Messaging Gateway 8.5 Administrator Guide*](#)
Explains how to configure and administer the Cisco Unified Messaging Gateway 8.5 features.
- [*Configuring Cisco Unified Messaging Gateway 8.5 Using the GUI: SRSV and E-SRST*](#)
Explains how to configure and administer the Cisco Unified Messaging Gateway 8.5 Survivable Remote Site Voicemail (SRSV) and Enhanced Survivable Remote Site Telephony (E-SRST) features using the GUI.
- [*Documentation Guide for Cisco UC Integration for Microsoft Lync*](#)
Describes the components of the Cisco UC Integration for Microsoft Lync documentation set.
- [*Frequently Asked Questions: Cisco UC Integration for Microsoft Lync Release 8.5*](#)
Explains how to use Cisco UC Integration for Microsoft Lync Release 8.5 in question-and-answer format.
- [*Installation Guide for Cisco UC Integration for Microsoft Lync Release 8.5*](#)
Explains how to install and configure Cisco UC Integration for Microsoft Lync Release 8.5.
- [*Licensing Information for Cisco UC Integration for Microsoft Lync Release 8.5*](#)
Provides open source licensing information for Cisco UC Integration for Microsoft Lync Release 8.5.
- [*Release Notes for Cisco UC Integration for Microsoft Lync Release 8.5*](#)
Describes the new features and caveats for Cisco UC Integration for Microsoft Lync Release 8.5.
- [*Release Notes for Cisco Unified Messaging Gateway 8.5*](#)
Describes the new features, system requirements, and support information for Cisco Unified Messaging Gateway 8.5.1.

Revised Documents

- [*Cisco Unified Messaging Gateway Command Reference for 8.0 and Later Versions*](#)

Provides an alphabetical reference to Cisco Unified Messaging Gateway commands. This document was updated for Cisco Unified Messaging Gateway 8.5.

Wireless

None at this time.

Creating Bookmarks to Cisco.com Pages

When you log into Cisco.com, you can use the My Cisco tool to save links and documents. You can then go to the links from any Cisco.com page. The tool is available on most Cisco.com pages. See the User Guide for help: <http://www.cisco.com/web/help/mycisco.html>.

Cisco Support and Documentation

The Cisco Support and Documentation website provides online resources to download documentation, software, and tools. Use these resources to install and configure the software in addition to troubleshooting and resolving technical issues with Cisco products and technologies.

Access to most tools on the Cisco Support and Documentation website requires a Cisco.com user ID and password.

For more information, go to this URL:

<http://www.cisco.com/cisco/web/support/index.html>

Submitting a Service Request

Open a service request online at:

<http://www.cisco.com/techsupport/servicerequest>

View a list of Cisco worldwide contacts at:

http://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.

- Sign up for Cisco e-mail newsletters and other communications at:

<http://www.cisco.com/offer/subscribe>

- Use the Cisco Support website to access online resources, documentation and tools to resolve technical issues with Cisco products. To receive security and technical information about your products, you can subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) feeds. You need a Cisco.com user ID and password to access most of the tools on the Cisco Support website.
<http://www.cisco.com/techsupport>
- Order the *Cisco Product Quick Reference Guide*, a portable, easy-to-use reference that provides an overview of Cisco products and solutions for each area of your business. Go to:
<http://www.cisco.com/en/US/prod/qrg/index.html>
- Visit the Cisco Services website for the latest technical, advanced, and remote services to increase the operational reliability of your network. Go to:
<http://www.cisco.com/go/services>
- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:
<http://www.cisco.com/go/marketplace/>
- Obtain general networking, training, and certification titles from Cisco Press publishers at:
<http://www.ciscopress.com>
- Read the Internet Protocol Journal, a quarterly journal published by Cisco for engineering professionals who design, develop, and operate internets and intranets. Go to:
<http://www.cisco.com/ipj>
- *What's New in Cisco Product Documentation* (this document) is an online publication that provides information about the latest documentation releases for Cisco products. This online publication is updated monthly and organized by product category:
<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>
- Product Selector Application (PSA) is available for customers and allows them to select their product or technology. To access Cisco technical documentation and resources, go to the following URL:
<http://www.cisco.com/go/techdocs>
- Warranty Finder is now available for finding your warranty information that applies to a specific product or product series/family. To access Cisco Warranty Finder, go to the following URL:
<http://www.cisco-warrantyfinder.com>
- Visit the Cisco Data Center Documentation Twitter Feed for daily updates on Cisco NX-OS features and documentation and provide feedback about the documentation. Go to the following URL:
<http://twitter.com/CiscoDCDocs>

Cisco and the Cisco Logo are trademarks of Cisco Systems, Inc. and/or its affiliates in the U.S. and other countries. To view the complete list of the Cisco trademarks, go to this URL: www.cisco.com/go/trademarks. Third-party trademarks mentioned are the property of their respective owners. The use of the word partner does not imply a partnership relationship between Cisco and any other company. (1005R)
