

What's New in Cisco Product Documentation

November 2011

What's New in Cisco Product Documentation lists new and revised Cisco documentation since the last release of this monthly publication. To subscribe to the *What's New in Cisco Product Documentation* RSS feed, paste this URL into your RSS reader:

http://www.cisco.com/cdc_content_elements/rss/whats_new/whatsnew_rss_feed.xml

Previous releases of the *What's New in Cisco Product Documentation* are available at the following URL:

<http://www.cisco.com/en/US/docs/general/whatsnew/archive/archive.html>

Cisco Product Documentation Collaboration Tools

Cisco DocWiki

You can collaborate on Cisco documentation at this URL:

<http://docwiki.cisco.com>

Cisco Icon Library

Cisco icons are globally recognized and generally accepted as standard for network icon topologies. Cisco icons are available for download at the following URL:

<http://www.cisco.com/web/about/ac50/ac47/2.html>

Cisco International Websites

To find international Cisco websites, go to <http://www.cisco.com>, and click *Worldwide [change]* at the top of the page.

Americas Headquarters:

Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

Cisco Internetworking Terms and Acronyms (ITA)

Provides accurate and consistent definitions of internetworking terms and acronyms. These terms are specific to Cisco products, technologies, or services; they could also have an additional definition or description that is unique to Cisco.

This file does not duplicate industry-standard terms for which definitions can be found in other sources.

http://docwiki.cisco.com/wiki/Category:Internetworking_Terms_and_Acronyms_%28ITA%29

Cisco Product Photography

Cisco allows third parties to use Cisco product photography. You can download the conditions for using Cisco product photography from the following URL:

http://resources.cisco.com/app/tree.taf?asset_id=64535&public_view=true

Technical Documentation Ideas Forum

Allows you to communicate with other customers and Cisco technical writers. You can share your ideas about Cisco documentation on the Technical Documentation Ideas Forum.

<http://www.cisco.com/go/techdocideas>

Application Networking Services

None at this time.

Cisco Interfaces and Modules

Cisco IOS and NX-OS Software

New Documents

- [Release Notes for Cisco CRS-1 and Cisco CRS-3 for Cisco IOS XR Software Release 4.0.4](#)

Explains system requirements, hardware and software features supported on the Cisco CRS-1 and Cisco CRS-3 Routers, important notes, caveats, and troubleshooting information.

New and Revised Documents for Cisco IOS Release 15.0(1)SY

The Cisco IOS documentation set includes configuration guides, command references, release notes, system message guides, and master command lists. For all new and revised Cisco IOS documentation for Cisco IOS Release 15.0(1)SY, see the following URL:

http://www.cisco.com/en/US/products/ps11845/tsd_products_support_series_home.html

For a list of the new software and hardware features in Cisco IOS Release 15.0(1)SY, see the release notes:

http://www.cisco.com/en/US/docs/switches/lan/catalyst6500/ios/15.0SY/release_notes.html

Network Management and Automation

New Documents

- [*Cisco Prime Optical 9.3.1 Basic External Authentication*](#)
Describes how Cisco Prime Optical supports basic external authentication.
- [*Cisco Prime Optical 9.3.1 Database Schema Guide*](#)
Describes the database schema that Cisco Prime Optical uses to store information in a Structured Query Language (SQL) database such as the Oracle database.
- [*Cisco Prime Optical 9.3.1 GateWay/CORBA User Guide*](#)
Describes the northbound Common Object Request Broker Architecture (CORBA) interfaces supported by Cisco Prime Optical. This document serves as a reference for developers of OSS applications who work with the Cisco Prime Optical GateWay/CORBA interface.
- [*Cisco Prime Optical 9.3.1 Installation Guide*](#)
Explains how to install Cisco Prime Optical and how to upgrade from previous releases.
- [*Cisco Prime Optical 9.3.1 ML Provisioning Methodology*](#)
Describes the methodology that Cisco Prime Optical uses to provision ML-series cards.
- [*Cisco Prime Optical 9.3.1 User Guide*](#)
Explains how to use Cisco Prime Optical to manage Cisco Optical Networking System (ONS) network elements (NEs) and switches.
- [*Cisco Prime Optical 9.3.1 Release Notes*](#)
Describes the caveats for Cisco Prime Optical.
- [*Cisco Prime Optical 9.3.1 Open Source Licensing*](#)
Contains the licenses and notices for open source software used in Cisco Prime Optical.
- [*Cisco Prime Network Analysis Module Command Reference Guide, 5.1\(2\)*](#)
Explains how to use this software by using the command-line interface (CLI).
- [*CLI Reference Guide for Cisco Secure Access Control System 5.3*](#)
Explains how to configure and maintain Cisco Secure Access Control System 5.3 by using the command-line interface.
- [*Documentation Guide for Cisco Network Analysis Module Software, Release 5.1\(2\)*](#)
Contains pointers to the product documentation available on Cisco.com.
- [*Installation and Upgrade Guide for the Cisco Secure Access Control System 5.3*](#)
Describes the system requirements for the Cisco Secure Access Control System 5.3. Also explains how to install, upgrade, configure, troubleshoot, and maintain this application.
- [*License and Documentation Guide for the Cisco Secure Access Control System, Release 5.3*](#)
Provides important license and documentation information for the Cisco Secure Access Control System 5.3.

- [*Migration Guide for Cisco Secure Access Control System 5.3*](#)
Explains how to migrate data from Cisco Secure Access Control System release 3.x and 4.x to ACS 5.3.
- [*Release Notes for Cisco Prime Network Analysis Module Software, 5.1\(2\)*](#)
Provides late-breaking information and known and resolved product problems for this release.
- [*Release Notes for the Cisco Secure Access Control System 5.3*](#)
Describes the features, related documentation, resolved issues, and known issues for functionality in this release.
- [*Software Developer's Guide for the Cisco Secure Access Control System 5.3*](#)
Helps programmers who use the web services, CLI commands, and databases in ACS, to create custom applications.
- [*Supported and Interoperable Devices and Softwares for the Cisco Secure Access Control System 5.3*](#)
Provides details about the devices and software that ACS 5.3 supports.
- [*Third Party and Open Source Copyright Notices for Cisco Prime Network Analysis Module Software, 5.1\(2\)*](#)
Contains information about licenses for open-source software included in this product. It also contains information about other types of licenses associated with Prime NAM software.
- [*User Guide for Cisco Secure Access Control System 5.3*](#)
Explains how to use Cisco Secure Access Control System 5.3. This guide is for security administrators who use ACS, and who set up and maintain network and application security.
- [*User Guide for Cisco Prime Network Analysis Module Software, 5.1\(2\)*](#)
Explains how to use the Prime NAM software.

Revised Documents

- [*Release Notes for the Cisco Secure Access Control System 5.2*](#)
Describes the features, related documentation, resolved issues, and known issues for functionality in this release.

Physical Security and Building Systems

None at this time.

Routers

Revised Documents

- [Cisco 7600 Series Ethernet Services Plus \(ES+\) and Ethernet Services Plus T \(ES+T\) Line Card Configuration Guide](#)

Describes the Cisco 7600 series Ethernet Services Plus (ES+) and Ethernet Services PlusT (ES+T) line cards that are supported on the Cisco 7600 series routers. This document also explains how to configure line card-specific features for the Cisco 7600 series ES+ and ES+T line card and how to troubleshoot the installation.

- [Cisco 7600 Series Routers Documentation Roadmap](#)

Describes the Cisco 7600 series Router documentation and provides links to access the documentation online.

- [Cisco 7600 Series Router MIB Specifications Guide](#)

Describes the Cisco 7600 series Router product implementation of the Simple Network Management Protocol(SNMP).

- [Cisco 7600 Series Router SIP, SSC, and SPA Software Configuration Guide](#)

Explains how to configure and troubleshoot SPA interface processors (SIPs), SPA services cards (SSCs), and shared port adapters (SPAs) that are supported on a Cisco 7600 series router.

Security

New Documents

- [Cisco NAC Appliance—Clean Access Manager Configuration Guide, Release 4.9](#)

Describes the configuration of the Clean Access Manager for Cisco NAC Appliance, Release 4.9.

- [Cisco NAC Appliance—Clean Access Server Configuration Guide, Release 4.9](#)

Describes the configuration of the Clean Access Server for Cisco NAC Appliance, Release 4.9.

- [Cisco NAC Appliance Hardware Installation Guide, Release 4.9](#)

Explains how to install and initially configure the Clean Access Manager and Clean Access Server on all Cisco NAC Appliance platforms.

- [Cisco Security Manager New Features by Release](#)

Lists new features, organized by release number, for 13 versions and 11 service packs of Cisco Security Manager.

- [Release Notes for Cisco NAC Appliance, Release 4.9](#)

Provides late-breaking and cumulative release, upgrade, and bug fix information for Release 4.9.

Revised Documents

- [Accessibility Features in Cisco NAC Agent- Keyboard Navigation](#)

Describes the keyboard shortcuts that are used to navigate through Cisco NAC Agent dialog boxes.

- [Cisco NAC Appliance FIPS Card Field-Replaceable Unit Installation Guide](#)

Explains how to install field-replaceable FIPS card in the Cisco NAC Appliance.

- [*Cisco NAC Appliance Service Contract/Licensing Support*](#)
Explains how to obtain and install product licenses, service contracts, ordering, and RMA.
- [*Getting Started with Cisco NAC Network Modules in Cisco Access Routers*](#)
Explains how to work with Cisco NAC Network Module (NME-NAC-K9) in Integrated Services Routers.
- [*Support Information for Cisco NAC Appliance Agents, Release 4.5 and Later*](#)
Provides support and compatibility information (OS, browser, Java) for Cisco NAC Appliance Agents, Release 4.5 and later.
- [*Cisco Identity Services Engine API Reference Guide, Release 1.0.4*](#)
Explains how to use REST APIs and related API calls for monitoring and troubleshooting Cisco ISE deployments for Cisco Identity Services Engine (ISE).
- [*Cisco Identity Services Engine CLI Reference Guide, Release 1.0.4*](#)
Describes the list of command-line interface (CLI) command types used to configure and maintain Cisco Identity Services Engine (ISE) software.
- [*Cisco Identity Services Engine Hardware Installation Guide, Release 1.0.4*](#)
Explains how to install the Cisco ISE software on supported Cisco ISE appliances, Vmware, Cisco Network Admission Control (NAC) appliance, and Cisco Secure Access Control System (ACS) appliance.
- [*Cisco Identity Services Engine Migration Guide for Cisco Secure ACS 5.1 and 5.2, Release 1.0.4*](#)
Explains how to migrate data from a Cisco Secure Access Control System (ACS) Release 5.1/5.2 database to a Cisco Identity Services Engine (ISE) appliance.
- [*Cisco Identity Services Engine Network Component Compatibility, Release 1.0.4*](#)
Describes Cisco Identity Services Engine (ISE) compatibility with switches, wireless LAN controllers, and other policy enforcement devices, as well as client machine operating systems with which Cisco ISE interoperates in the network.
- [*Cisco Identity Services Engine Sponsor Portal User Guide, Release 1.0.4*](#)
Describes the portal for administrating Guest accounts for Cisco Identity Services Engine (ISE), Release 1.0.4.
- [*Cisco Identity Services Engine Troubleshooting Guide, Release 1.0.4*](#)
Provides troubleshooting information categorized to identify and resolve issues for Cisco Identity Services Engine (ISE), Release 1.0.4.
- [*Cisco Identity Services Engine User Guide, Release 1.0.4*](#)
Describes the various services and features that Cisco ISE offers and explains how to configure them.
- [*Release Notes for the Cisco Identity Services Engine, Release 1.0.4*](#)
Describes the features, limitations and restrictions (caveats), and related information for Cisco Identity Services Engine (ISE), Release 1.0.4.

Service Exchange

None at this time.

Storage Networking

None at this time.

Switches

None at this time.

TelePresence

Universal Gateways and Access Servers

None at this time.

Video and Content Delivery

Revised Documents

- [*Cisco IOS CMTS Cable Command Reference*](#)
Describes the new and modified commands necessary to configure, maintain, and troubleshoot Cisco CMTS routers in Cisco IOS Release 12.2(33)SCF1.
- [*Cisco IOS CMTS Cable Software Configuration Guide, Release 12.2SC*](#)
Describes the configuration details, prerequisites, and restrictions for new and modified software features supported on Cisco CMTS routers in Cisco IOS Release 12.2(33)SCF1.
- [*Cisco uBR7200 Router Release Notes for Cisco IOS Release 12.2\(33\)SCF*](#)
Describes the open and closed caveats, system requirements, software compatibility information, and a brief summary of the new hardware and software features supported on the Cisco uBR7200 series routers in Cisco IOS Release 12.2(33)SCF1.
- [*Cisco uBR10012 Router Release Notes for Cisco IOS Release 12.2\(33\)SCF*](#)
Describes the open and closed caveats, system requirements, software compatibility information, and a brief summary of the new hardware and software features supported on the Cisco uBR10012 router in Cisco IOS Release 12.2(33)SCF1.

- [Cisco uBR10012 Universal Broadband Router Hardware Installation Guide](#)

Provides the initial hardware installation and basic configuration procedures for the Cisco uBR10012 router. It contains procedures for installing the router, creating a basic software configuration file, and starting up the router.

Voice and Unified Communications

New Documents

- [Cisco Jabber for Mac Installation and Configuration Guide](#)
Deploy and perform administrative tasks for Cisco Jabber for Mac
- [Release Notes for Cisco Jabber for Mac version 8.6](#)
Get the latest information about Cisco Jabber for Mac

Revised Documents

- [Release Notes for Cisco Unified MeetingPlace Release 8.0](#)
Provides a description of new features, changes between different releases, limitations, caveats, and troubleshooting information for Release 8.0. This release of the document provides updates for Release 8.0.2.

Wireless

None at this time.

Creating Bookmarks to Cisco.com Pages

When you log into Cisco.com, you can use the My Cisco tool to save links and documents. You can then go to the links from any Cisco.com page. The tool is available on most Cisco.com pages. See the User Guide for help: <http://www.cisco.com/web/help/mycisco.html>.

Cisco Support and Documentation

The Cisco Support and Documentation website provides online resources to download documentation, software, and tools. Use these resources to install and configure the software in addition to troubleshooting and resolving technical issues with Cisco products and technologies.

Access to most tools on the Cisco Support and Documentation website requires a Cisco.com user ID and password.

For more information, go to this URL:

<http://www.cisco.com/cisco/web/support/index.html>

Submitting a Service Request

Open a service request online at:

<http://www.cisco.com/techsupport/servicerequest>

View a list of Cisco worldwide contacts at:

http://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.

- Sign up for Cisco e-mail newsletters and other communications at:
<http://www.cisco.com/offer/subscribe>
- Use the Cisco Support website to access online resources, documentation and tools to resolve technical issues with Cisco products. To receive security and technical information about your products, you can subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) feeds. You need a Cisco.com user ID and password to access most of the tools on the Cisco Support website.
<http://www.cisco.com/techsupport>
- Order the *Cisco Product Quick Reference Guide*, a portable, easy-to-use reference that provides an overview of Cisco products and solutions for each area of your business. Go to:
<http://www.cisco.com/en/US/prod/qrg/index.html>
- Visit the Cisco Services website for the latest technical, advanced, and remote services to increase the operational reliability of your network. Go to:
<http://www.cisco.com/go/services>
- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:
<http://www.cisco.com/go/marketplace/>
- Obtain general networking, training, and certification titles from Cisco Press publishers at:
<http://www.ciscopress.com>
- Read the Internet Protocol Journal, a quarterly journal published by Cisco for engineering professionals who design, develop, and operate internets and intranets. Go to:
<http://www.cisco.com/ipj>
- *What's New in Cisco Product Documentation* (this document) is an online publication that provides information about the latest documentation releases for Cisco products. This online publication is updated monthly and organized by product category:
<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>
- Product Selector Application (PSA) is available for customers and allows them to select their product or technology. To access Cisco technical documentation and resources, go to the following URL:
<http://www.cisco.com/go/techdocs>

- Warranty Finder is now available for finding your warranty information that applies to a specific product or product series/family. To access Cisco Warranty Finder, go to the following URL:
<http://www.cisco-warrantyfinder.com>
- Visit the Cisco Data Center Documentation Twitter Feed for daily updates on Cisco NX-OS features and documentation and provide feedback about the documentation. Go to the following URL:
<http://twitter.com/CiscoDCDocs>

Cisco and the Cisco logo are trademarks or registered trademarks of Cisco and/or its affiliates in the U.S. and other countries. To view a list of Cisco trademarks, go to this URL: www.cisco.com/go/trademarks. Third-party trademarks mentioned are the property of their respective owners. The use of the word partner does not imply a partnership relationship between Cisco and any other company. (1110R)
