Now Available—New Edition of the Cisco Product Quick Reference Guide Stay Current on Cisco Products with This Valuable Tool

Announcing the new Summer/Fall 2008 edition of the Cisco Product Quick Reference Guide—an overview of Cisco products and solutions for every part of your business. It provides information to readers from enterprise, service provider, and small and medium-sized businesses. This is your tool for matching today's business challenges with industry-leading products and solutions from Cisco. A compact, portable, and easy-to-use reference, the guide summarizes information about many of Cisco's products sold through our channel partners. Inside the guide you will find a wealth of information, including brief product overviews, important features, technical specifications, part numbers, and ordering information.

For more information and to place your order, visit the Cisco Product Quick Reference Guide website at

<http://www.cisco.com/go/guide>.

Application Networking Services

New Documents

- [*Cisco ACE 4700 Series Appliance Administration Guide*](#)

Provides instructions for the administration of the Cisco 4700 series ACE appliance. It describes how to perform administration tasks on the ACE, including initial setup, establish remote access, manage software licenses, configure class maps and policy maps, manage the ACE software, configure SNMP, configure redundancy, configure the XML interface, and upgrade your ACE software.

Americas Headquarters:
Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

© 2008 Cisco Systems, Inc. All rights reserved.

- [*Cisco ACE 4700 Series Appliance Application Acceleration and Optimization Configuration Guide*](#)
Describes the configuration of the application acceleration and optimization features of the Cisco 4700 series ACE appliance. It also provides an overview and description of those features.
- [*Cisco ACE 4700 Series Appliance Command Reference*](#)
Provides an overview on the command-line interface (CLI) for the Cisco 4700 series ACE appliance and describes the CLI commands, including syntax, options, and related commands.
- [*Cisco ACE 4700 Series Appliance Device Manager GUI Configuration Guide*](#)
Describes how to use the Device Manager GUI, which resides in flash memory on the Cisco 4700 series ACE appliance, to provide a browser-based interface for configuring and managing the appliance.
- [*Cisco ACE 4700 Series Appliance Routing and Bridging Configuration Guide*](#)
Describes how to configure the routing and bridging features of the Cisco 4700 series ACE appliance.
- [*Cisco ACE 4700 Series Appliance Security Configuration Guide*](#)
Describes how to perform the following ACE security configuration tasks: security access control lists (ACLs), user authentication and accounting using a TACACS+, RADIUS, or Lightweight Directory Access Protocol (LDAP) server, application protocol and HTTP deep packet inspection, TCP/IP normalization and IP fragmentation, and Network Address Translation (NAT).
- [*Cisco ACE 4700 Series Appliance Server Load-Balancing Configuration Guide*](#)
Describes how to configure the following server load-balancing features on the Cisco 4700 series ACE appliance: real servers and server farms, class maps and policy maps to load balance traffic to real servers in server farms, server health monitoring (probes), stickiness, firewall load balancing, and TCL scripts.
- [*Cisco ACE 4700 Series Appliance SSL Configuration Guide*](#)
Describes how to configure the following Secure Sockets Layer (SSL) features on the Cisco 4700 series ACE appliance: SSL certificates and keys, SSL initiation, SSL termination, and end-to-end SSL.
- [*Cisco ACE 4700 Series Appliance System Message Guide*](#)
Describes how to configure system message logging on the Cisco 4700 series ACE appliance. This guide also lists and describes the system log (syslog) messages generated by the ACE.
- [*Cisco ACE 4700 Series Appliance Virtualization Configuration Guide*](#)
Describes how to operate your Cisco 4700 series ACE appliance in a single context or in multiple contexts.
- [*Cisco ACE 4700 Series Application Control Engine Appliance Quick Start Guide*](#)
Provides an overview of the major functions and features of the Cisco 4700 series ACE appliance, instructions on how to initially configure the ACE to allow traffic and basic load balancing, and instructions on how to configure the ACE to provide various scalability and security capabilities.
- [*Cisco CSS-to-ACE Conversion Tool User Guide*](#)
Describes how to use the CSS-to-ACE conversion tool to migrate Cisco Content Services Switches (CSS) running- or startup-configuration files to the Cisco 4700 series ACE appliance.
- [*Cisco WAAS Installation and Configuration Guide for Windows on a Virtual Blade*](#)
Describes how to install and configure the Windows Server on WAAS product.

- [Cisco Wide Area Application Services API Reference \(Software Version 4.1.1\)](#)
Describes the Web Service API for the WAAS Central Manager version 4.1.1.
- [Cisco Wide Area Application Services Command Reference \(Software Version 4.1.1\)](#)
Describes the CLI commands for WAAS 4.1.1.
- [Cisco Wide Area Application Services Configuration Guide \(Software Version 4.1.1\)](#)
Describes how to configure, maintain, and monitor WAAS 4.1.1.
- [Cisco Wide Area Application Services Quick Configuration Guide \(Software Version 4.1.1\)](#)
Describes how to perform a basic configuration of a WAAS 4.1.1 network.
- [Release Note for Cisco Wide Area Application Services \(Software Version 4.1.1x\)](#)
Describes the new features, upgrade and downgrade instructions, and operating notes for WAAS 4.1.1x.
- [Release Note for the Cisco 4700 Series Application Control Engine Appliance \(Software Version A3\(x\)\)](#)
Provides information about operating considerations, caveats, and command-line interface (CLI) commands for the ACE.

Revised Documents

- [Release Note for the Cisco Application Control Engine Module \(Software Version A2\(X\)\)](#)
Describes the resolved caveats, open caveats, and command changes for software version A2(1.2).

Cisco Interfaces and Modules

None at this time.

Cisco IOS Software

None at this time.

Cisco NX-OS

Revised Documents

- [Cisco Nexus 7000 Series MIB Support List](#)
Adds support for the CISCO-EIGRP-MIB.
- [Cisco NX-OS Command Reference Master Index, Release 4.0](#)
Updates the index of all commands for the NX-OS 4.0(3) release.
- [Cisco NX-OS Fundamentals Command Reference, Release 4.0](#)
Changes the keyword for the **echo** command.

- [Cisco NX-OS Fundamentals Configuration Guide, Release 4.0](#)
Changes keywords for filtering and searching **show** command output.
- [Cisco NX-OS Interfaces Command Reference, Release 4.0](#)
Describes the added commands to configure carrier delay for VLAN interfaces.
- [Cisco NX-OS Interfaces Configuration Guide, Release 4.0](#)
Details the process to configure carrier delay for VLAN interfaces.
- [Cisco NX-OS Layer 2 Switching Command Reference, Release 4.0](#)
Details the added command to force devices to send prestandard MST information.
- [Cisco NX-OS Layer 2 Switching Configuration Guide, Release 4.0](#)
Adds a process to force devices to send prestandard MST information.
- [Cisco NX-OS Multicast Routing Command Reference, Release 4.0](#)
Describes the added and updated multicast commands for the NX-OS 4.0(3) release.
- [Cisco NX-OS Multicast Routing Configuration Guide, Release 4.0](#)
Describes the added and updated multicast commands for the NX-OS 4.0(3) release.
- [Cisco NX-OS Quality of Service Command Reference, Release 4.0](#)
Describes the added commands to use tunnels.
- [Cisco NX-OS Quality of Service Configuration Guide, Release 4.0](#)
Details the processes to use tunnels; changed WRR default.
- [Cisco NX-OS Release Notes, Release 4.0](#)
Describes new features and the fixed and new caveats for the NX-OS 4.0.3 release.
- [Cisco NX-OS Security Command Reference, Release 4.0](#)
Describes the added or updated commands for several features, including password-strength checking and multiple DHCP server support.
- [Cisco NX-OS Security Configuration Guide, Release 4.0](#)
Describes the added or updated features, including password-strength checking and multiple DHCP server support.
- [Cisco NX-OS System Management Command Reference, Release 4.0](#)
Describes several updated commands including **ntp enable** and **snmp-server protocol** commands.
- [Cisco NX-OS System Management Configuration Guide, Release 4.0](#)
Adds support for disabling the NTP and SNMP protocols.
- [Cisco NX-OS Unicast Routing Command Reference, Release 4.0](#)
Describes the updated EIGRP and BGP commands.
- [Cisco NX-OS Unicast Routing Configuration Guide, Release 4.0](#)
Adds support for the CISCO-EIGRP-MIB and EIGRP authentication in a VRF.

Interoperability Systems

None at this time.

Network Management

New Documents

- [Release Notes for Cisco Network Registrar 7.0.1](#)
Describes new features, system requirements, and restrictions for the Network Registrar product. Cisco Network Registrar release notes are available at the following URL:
http://cisco.com/en/US/products/sw/netmgmtsw/ps1982/prod_release_notes_list.html

Revised Documents

- [Cisco DCNM Fundamentals Configuration Guide, Release 4.0](#)
Updates the NX-OS device configuration requirements and adds information about the Global Preferences dialog box.
- [Cisco DCNM Release Notes, Release 4.0](#)
Provides updates to fixed and new caveats for the DCNM 4.0(3) release.

Optical Networking

The terms “Unidirectional Path Switched Ring” and “UPSR” may appear in Cisco literature. These terms do not refer to using Cisco ONS 15xxx products in a unidirectional path switched ring configuration. Rather, these terms, and “Path Protected Mesh Network” and “PPMN,” refer generally to Cisco’s path protection feature, which may be used in any topological network configuration. Cisco does not recommend using its path protection feature in any particular topological network configuration.

Routers

None at this time.

Security

Revised Documents

- [Cisco NAC Appliance Hardware Installation Quick Start Guide, Release 4.1](#)
Describes hardware specifications and initial configuration for Cisco NAC 3300 series appliances.
- [Supported Hardware and System Requirements for Cisco NAC Appliance \(Cisco Clean Access\)](#)
Provides a hardware support list and system requirements for the Clean Access Manager/Server/Agent.

Server Networking and Virtualization

None at this time.

Service Exchange

None at this time.

Storage Networking

None at this time.

Switches

Revised Documents

- [Catalyst 2960 Switch Command Reference, Cisco IOS Release 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Catalyst 2960 Switch Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Catalyst 3560 Switch Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Catalyst 3560 Switch Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Catalyst 3750 Metro Switch Command Reference, 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Catalyst 3750 Metro Switch Software Configuration Guide, 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Catalyst 3750 Switch Command Reference, 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Catalyst 3750 Switch Software Configuration Guide, 12.2\(46\)SE](#)
Describes how to configure the switch and switch stacks by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Catalyst 3750-E and 3560-E Switch Command Reference, Release 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.

- [Catalyst 3750-E and 3560-E Switch Software Configuration Guide, 12.2\(46\)SE](#)
Describes how to configure the switch and switch stacks by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3020 for HP Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3020 for HP Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3030 for Dell Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3030 Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3040 for FSC Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3040 for FSC Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3120 for HP Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3120 for HP Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3130 and 3032 for Dell Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Blade Switch 3130 and 3032 for Dell Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Switch Module 3110 and 3012 for IBM BladeCenter Command Reference, Release 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco Catalyst Switch Module 3110 and 3012 for IBM BladeCenter Software Configuration Guide, Release 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.

- [Cisco Gigabit Ethernet Switch Module for HP BladeSystem p-Class Release Notes, Cisco IOS Release 12.2\(46\)SE](#)
Describes the system requirements, limitations, and caveats for the Cisco Catalyst Blade Switch 3020 for HP. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco ME 2400 Switch Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco ME 2400 Switch Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco ME 3400 Switch Command Reference, Rel. 12.2\(46\)SE](#)
Describes the commands that have been specifically created or changed for use with the switch. Revised for Cisco IOS Release 12.2(46)SE.
- [Cisco ME 3400 Switch Software Configuration Guide, Rel. 12.2\(46\)SE](#)
Describes how to configure the switch by using the command-line interface and how to configure the software features. Updated for Cisco IOS Release 12.2(46)SE.
- [Cisco Nexus 7000 Series Connectivity Management Processor Configuration Guide](#)
Adds explanations of how the CMP accepts users with network administrator privileges, how to display and clear logging messages, and how to configure serial communication settings.
- [Cisco Nexus 7000 Series FPGA/EPLD Upgrade Release Notes](#)
Adds a section that lists the EPLDs available for downloading for each release.
- [Cisco Software Activation and Compatibility Document, Release 12.2\(46\)SE](#)
Describes the Cisco software activation process and the feature compatibility of Catalyst switches.
- [Cisco Software Activation Document for Dell, Release 12.2\(46\)SE](#)
Describes the Cisco software activation process.
- [Cisco Software Activation Document for HP Release 12.2\(46\)SE](#)
Describes the Cisco software activation process.
- [Cisco Software Activation Document for IBM, Release 12.2\(46\)SE](#)
Describes the Cisco software activation process.
- [Release Notes for Catalyst 3750, 3560, and 2960 Switches, Cisco IOS Release 12.2\(46\)SE](#)
Describes the system requirements, limitations, and caveats for the Catalyst 3750, 3560, and 2960 switches. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for Catalyst 3750-E and Catalyst 3560-E Switches, Cisco IOS Release 12.2\(46\)SE](#)
Describes the system requirements, limitations, and caveats for the Catalyst 3750, 3560, 2970, and 2960 switches. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for Cisco Catalyst Blade Switch 3120 for HP, Cisco IOS Release 12.2\(46\)SE](#)
Describes the system requirements, limitations, and caveats for the Cisco Catalyst Blade Switch 3120 for HP. Revised for Cisco IOS Release 12.2(46)SE.

- [Release Notes for Cisco Catalyst Switch Module 3110G, 3110X, and 3012 for IBM Blade Center, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Cisco Catalyst Switch Module 3110G, 3110X, and 3012 for IBM Blade Center. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Catalyst 2955, Catalyst 2950, and Catalyst 2940 Switches, Cisco IOS Release 12.1\(22\)EA12](#)

Describes the system requirements, limitations, caveats, and updated system messages for the Catalyst 2955, 2950, and 2940 switches. Revised for Cisco IOS Release 12.1(22)EA11.
- [Release Notes for the Catalyst 3550 Multilayer Switch, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, caveats, and updated system messages for the Catalyst 3550 switches. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Catalyst 3750 Metro Switch, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Catalyst 3750 Metro switches. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Cisco Catalyst Blade Switch 3130 and 3032 for Dell, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Cisco ME 2400 series Ethernet switches. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Cisco Catalyst Blade Switch 3020 for HP, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Cisco Catalyst Blade Switch 3020 for HP. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Cisco Catalyst Blade Switch 3030, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Cisco Catalyst Blade Switch 3030. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Cisco Catalyst Blade Switch 3040 for FSC, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Cisco Catalyst Blade Switch 3040 for FSC switches. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Cisco IGESM and Cisco Fiber IGESM, Cisco IOS Release 12.1\(22\)EA12](#)

Describes the system requirements, limitations, and caveats for the Cisco IGESM and Cisco Fiber IGESM. Revised for Cisco IOS Release 12.1(22)EA12.
- [Release Notes for the Cisco ME 2400 Series Ethernet Access Switch, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Cisco Catalyst Blade Switch 3130 and 3032 for Dell. Revised for Cisco IOS Release 12.2(46)SE.
- [Release Notes for the Cisco ME 3400 Series Ethernet Access Switch, Cisco IOS Release 12.2\(46\)SE](#)

Describes the system requirements, limitations, and caveats for the Cisco ME 3400 series Ethernet switches. Revised for Cisco IOS Release 12.2(46)SE.

Voice and Unified Communications

New Documents

- [Alarm and Exception Code Reference for Cisco Unified MeetingPlace Release 7.0](#)
Provides information about alarms and exception codes for the Cisco Unified MeetingPlace system.
- [Cisco Unified Communications SRND Based on Cisco Unified Communications Manager 7.x](#)
Provides design considerations and guidelines for deploying Cisco Unified Communications solutions based on Cisco Unified Communications Manager 7.x releases.
- [Cisco Unified Contact Center Enterprise 7.5 Solution Reference Network Design \(SRND\)](#)
Provides design considerations and guidelines for deploying contact center solutions based on Cisco Unified Contact Center Enterprise (Unified CCE) Release 7.5.
- [Configuration Guide for Cisco Unified MeetingPlace 3515 Media Server \(Online Help\)](#)
Provides detailed step-by-step instructions for configuring the Cisco Unified MeetingPlace 3515 Media Server. This is an online help version for customer download.
- [Configuration Guide for Cisco Unified MeetingPlace 3545 Media Server \(Online Help\)](#)
Provides detailed step-by-step instructions for configuring the Cisco Unified MeetingPlace 3545 Media Server. This is an online help version for customer download.
- [Configuration Guide for Cisco Unified MeetingPlace Release 7.0](#)
Provides detailed step-by-step instructions for configuring the Cisco Unified MeetingPlace Release 7.0 system.
- [Documentation Guide for Cisco Unified MeetingPlace Release 7.x](#)
Describes the set of documents available for the 7.x release of Cisco Unified MeetingPlace.
- [Documentation Guide for Cisco Unified Presence Release 7.0](#)
Describes the documents that make up the Cisco Unified Presence suite of installation and configuration documents.
- [Hardware and Software Compatibility Information for Cisco Unified Presence](#)
Describes the hardware servers and software that are compatible with versions of Cisco Unified Presence.
- [Installation and Upgrade Guide for Cisco Unified MeetingPlace 7.0](#)
Describes how to install all components of the Cisco Unified MeetingPlace Release 7.0 system and contains tasks for configuring the Media Server.

- [*Installation Guide for Phone Designer Release 7.0*](#)
Provides procedures for installing and configuring Phone Designer.
- [*Integration Guide for Cisco Unified MeetingPlace Release 7.0 Working with IBM Lotus Notes*](#)
Describes how to install and configure IBM Lotus Notes with Cisco Unified MeetingPlace Release 7.0.
- [*Integration Guide for Cisco Unified MeetingPlace Release 7.0 Working with Jabber*](#)
Describes how to install and configure Jabber with Cisco Unified MeetingPlace Release 7.0.
- [*Integration Guide for Cisco Unified MeetingPlace Release 7.0 Working with Microsoft Outlook*](#)
Describes how to install and configure Microsoft Outlook with Cisco Unified MeetingPlace Release 7.0.
- [*Integration Guide for Configuring Cisco Unified Presence Release 7.0 for Interdomain Federation*](#)
Describes the configuration steps for setting up a federated network between the Cisco Unified Presence server and a foreign domain.
- [*Integration Guide for Configuring Cisco Unified Presence Release 7.0 with Microsoft Exchange*](#)
Provides the instructions for integrating Cisco Unified Presence with Microsoft Exchange Calendar 2003 or 2007.
- [*Integration Guide for Configuring Cisco Unified Presence with Microsoft OCS for MOC Call Control*](#)
Describes the configuration steps for integrating Cisco Unified Presence with Microsoft Office Communications Server or Microsoft Live Communications Server for Microsoft Office Communicator (MOC) call control.
- [*Integration Guide for Microsoft Office Communicator with Cisco Unified MeetingPlace Release 7.0*](#)
Describes how to install and configure Microsoft Office Communicator with Cisco Unified MeetingPlace Release 7.0.
- [*Licensing Information for Cisco Unified MeetingPlace*](#)
Provides licensing information for software included in the Cisco Unified MeetingPlace product.
- [*Licensing Information for Cisco Unified Presence*](#)
Contains licensing information and acknowledgments of copyright for Cisco Unified Presence.
- [*Licensing Information for Phone Designer*](#)
Contains licensing information and acknowledgments of copyright for Phone Designer.
- [*Maintenance Guide for Cisco Unified MeetingPlace Release 7.0*](#)
Describes how to monitor and maintain the Cisco Unified MeetingPlace Release 7.0 system.
- [*Planning Guide for Cisco Unified MeetingPlace Release 7.0*](#)
Provides information about planning your installation of the Cisco Unified MeetingPlace Release 7.0 system.
- [*Port Usage Information for Cisco Unified Presence Release 7.0*](#)
Provides a list of the TCP and UDP ports that Cisco Unified Presence Release 7.0 uses for intracluster connections and for communications with external applications or devices.
- [*Quick Start Guide: Attending a Web Meeting*](#)
Provides task-based information about how to attend a Cisco Unified MeetingPlace web meeting.

- [Quick Start Guide: Attending and Scheduling a Cisco Unified MeetingPlace Meeting from IBM Lotus Notes](#)
Provides task-based information about how to attend and schedule a Cisco Unified MeetingPlace meeting from IBM Lotus Notes.
- [Quick Start Guide: Attending and Scheduling a Cisco Unified MeetingPlace Meeting from Microsoft Outlook](#)
Provides task-based information about how to attend and schedule a Cisco Unified MeetingPlace meeting from Microsoft Outlook.
- [Quick Start Guide: Attending and Scheduling a Cisco Unified MeetingPlace Meeting from Your Phone](#)
Provides task-based information about how to attend and schedule a Cisco Unified MeetingPlace meeting from your phone.
- [Quick Start Guide: Attending and Scheduling a Cisco Unified MeetingPlace Web Meeting](#)
Provides task-based information about how to attend and schedule a Cisco Unified MeetingPlace web meeting.
- [Quick Start Guide: Attending and Scheduling a Cisco WebEx Meeting](#)
Provides task-based information about how to attend and schedule a Cisco WebEx meeting.
- [Quick Start Guide: Sharing Content in the Cisco Unified MeetingPlace Web Meeting Room](#)
Provides task-based information about how to share content in the Cisco Unified MeetingPlace web meeting room.
- [Quick Start Guide: Using Cisco Unified MeetingPlace Release 7.0 with Jabber](#)
Provides task-based information about how to use Cisco Unified MeetingPlace with the Jabber application.
- [Quick Start Guide: Using Cisco Unified MeetingPlace Release 7.0 with Microsoft Office Communicator](#)
Provides task-based information about how to use Cisco Unified MeetingPlace with the Microsoft Office Communicator application.
- [Quick Start Guide: Using Cisco Unified MeetingPlace Release 7.0 with Your Cisco Unified IP Phone](#)
Provides task-based information about how to use Cisco Unified MeetingPlace with the Cisco IP Phone.
- [Quick Start Guide for Phone Designer Release 7.0](#)
Describes information about using Phone Designer.
- [Release Notes for Cisco Unified MeetingPlace Release 7.0](#)
Contains information about new features and limitations and contains a list of bugs open in this release.
- [Release Notes for Cisco Unified Presence Release 7.0\(1\)](#)
Describes system requirements, new features, changed information, documentation updates, and open caveats for Cisco Unified Presence Release 7.0(1).
- [Release Notes for Cisco Unity Express 3.2](#)
Provides support information for Cisco Unity Express 3.2.

- [Release Notes for Phone Designer Release 7.x](#)
Describes system requirements, new features, changed information, documentation updates, and open caveats for Phone Designer Release 7.0.
- [System Requirements and Compatibility Matrix for Cisco Unified MeetingPlace Release 7.0](#)
Contains the system requirements for the Cisco Unified MeetingPlace Release 7.0 system and a matrix of compatible video endpoints.
- [Troubleshooting Guide for Cisco Unified MeetingPlace 7.0](#)
Describes how to troubleshoot issues with the Cisco Unified MeetingPlace Release 7.0 system.
- [User Guide for Cisco Unified MeetingPlace Release 7.0](#)
Provides task-based information about how to use Cisco Unified MeetingPlace Release 7.0.
- [Voice Prompt Reference for Cisco Unified MeetingPlace and Cisco Unified MeetingPlace Express](#)
Provides a list of music and voice prompts for all releases of Cisco Unified MeetingPlace and Cisco Unified MeetingPlace Express.

Revised Documents

- [Cisco Unified Communications Operating System Maintenance Guide for Cisco Unified Presence](#)
Provides information about using the Cisco Unified Communications Operating System GUI and the command-line interface (CLI) to perform many common system- and network-related tasks.
- [Cisco Unified Customer Voice Portal \(CVP\) 7.x Solution Reference Network Design \(SRND\)](#)
Provides design considerations and guidelines for deploying contact center voice response solutions based on Cisco Unified Customer Voice Portal (CVP) 7.x releases.
- [Configuration and Maintenance Guide for Cisco Unified Presence Release 7.0](#)
Provides instructions for configuring, maintaining, and administering Cisco Unified Presence.
- [Deployment Guide for Cisco Unified Presence Release 7.0](#)
Provides a configuration overview for deploying Cisco Unified Presence in the network.
- [Developer Guide for Cisco Unified Presence Release 7.0](#)
Describes the interfaces and web services for using Cisco Unified Presence with other systems. This document is intended for developers who write applications that extend the functionality of these interfaces and web services.
- [Disaster Recovery System Guide for Cisco Unified Presence Release 7.0](#)
Provides an overview of the Disaster Recovery System and provides procedures for performing various backup- and restore-related tasks.
- [Installation and Upgrade Guide for Cisco Unified Presence Release 7.0](#)
Provides procedures for installing Cisco Unified Presence.
- [Integration Guide for Cisco Unified MeetingPlace Click-to-Conference with IBM Lotus Sametime Instant Messaging](#)
Describes how to install and configure IBM Lotus Sametime Instant Messaging with Cisco Unified MeetingPlace Release 7.0.

- [Quick Start Guide for Cisco Unified MeetingPlace Click-to-Conference with IBM Lotus Sametime Instant Messaging](#)
Describes how to use IBM Lotus Sametime Instant Messaging with Cisco Unified MeetingPlace Release 7.0.
- [Release Notes for Cisco Unified MeetingPlace Click-to-Conference with IBM Lotus Sametime Instant Messaging](#)
Contains information about new features and limitations and contains a list of bugs open in this release.
- [Release Notes for Cisco Unified Video Advantage Release 2.1 \(2\)](#)
Describes new features and open caveats for the Cisco Unified Video Advantage Release 2.1 (2).
- [Serviceability Configuration and Maintenance Guide for Cisco Unified Presence](#)
Provides instructions for configuring alarms and traces for Cisco Unified Presence serviceability and remote serviceability.
- [User Guide for Cisco IP Phone Messenger and Cisco Unified Presence Release 7.0](#)
Provides information about using the Cisco IP Phone Messenger.

Wireless

Creating Links to the Cisco Page

Cisco documentation gives customers with a Cisco.com user ID the ability to save helpful links and tools by using the My Cisco button. This button appears at the top of the page, and can be used to create bookmarks to access from any computer.

Support from Cisco

Select from Cisco support opportunities at:

<http://www.cisco.com/en/US/support/index.html>

Uses for this website include:

- Obtaining technical assistance
- Downloading software
- Reporting security vulnerabilities or obtaining assistance with security involving Cisco products
- Accessing tools and resources
 - Sign up for product alerts
 - Register for field notices
 - Search for known issues using the Bug Toolkit
- Participating in technology discussions with the Networking Professionals (NetPro) community
- Accessing training resources

- Interactively identifying and troubleshooting common hardware, configuration, and performance issues using the TAC Case Collection tool

Submitting a Service Request

Open a service request online at:

<http://www.cisco.com/techsupport/servicerequest>

View a list of Cisco worldwide contacts at:

<http://www.cisco.com/warp/public/687/Directory/DirTAC.shtml>

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.

- Sign up for Cisco e-mail newsletters and other communications at the Cisco Subscription Center at:
<http://www.cisco.com/offer/subscribe>
- The Cisco Support website provides online resources, including documentation and tools for resolving technical issues with Cisco products. To receive security and technical information about your products, you can subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) Feeds. Access to most tools on the Cisco Support website requires a Cisco.com user ID and password.
<http://www.cisco.com/techsupport>
- Order the Cisco Product Quick Reference Guide, a portable, easy to use reference tool that provides an overview of Cisco products and solutions for every part of your business. Go to:
<http://www.cisco.com/go/guide>
- Visit the Cisco Services website to learn the latest technical, advanced, and remote services available to increase the operational reliability of your network. Go to:
<http://www.cisco.com/go/services>
- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:
<http://www.cisco.com/go/marketplace/>
- Obtain general networking, training, and certification titles from Cisco Press publishers at:
<http://www.ciscopress.com>
- Read the Internet Protocol Journal, a quarterly journal published by Cisco for engineering professionals who design, develop, and operate internets and intranets. Go to:
<http://www.cisco.com/ipj>
- *What's New in Cisco Product Documentation* (this document) is an online publication that provides information about the latest documentation releases for Cisco products. Updated monthly, this online publication is organized by product category:
<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

- Access international Cisco websites at:
http://www.cisco.com/public/countries_languages.shtml
