

What's New in Cisco Product Documentation

December 2009

RSS

What's New in Cisco Product Documentation lists new and revised Cisco documentation since the last release of this monthly publication. To subscribe to the *What's New in Cisco Product Documentation* RSS feed, paste the following URL into your RSS reader:

http://www.cisco.com/cdc_content_elements/rss/whats_new/whatsnew_rss_feed.xml

Previous releases of the *What's New in Cisco Product Documentation* are available at the following URL:

<http://www.cisco.com/en/US/docs/general/whatsnew/archive/archive.html>

Cisco Product Documentation Collaboration Tools

Cisco DocWiki

Allows you to collaborate on Cisco product documentation. See:

<http://docwiki.cisco.com>

New on the Cisco DocWiki:

Cisco Internetworking Technology Handbook

Guides you to understand Cisco internetworking technology and describes different components of an internetwork and the protocols used.

NetPro Ideas Forum

Allows you to communicate with other customers and Cisco technical writers. Share your ideas about Cisco documentation on the NetPro Ideas Forum.

http://forum.cisco.com/eforum/servlet/NetProf?page=Idea_Center_discussion

Americas Headquarters:
Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

Cisco IOS and NX-OS Software

None at this time.

Network Management

New Documents

- [*Cisco Nexus 5000 Series NX-OS Fibre Channel over Ethernet Configuration Guide*](#)
Provides information about Fibre Channel over Ethernet (FCoE) and the FCoE Initialization Protocol (FIP). Describes how to enable FCoE, and how to configure FCoE VLANs and virtual interfaces on the Cisco Nexus 5000 Series switches.
- [*Cisco Nexus 5000 Series NX-OS Security Configuration Guide*](#)
Describes how to configure security features for the Cisco Nexus 5000 series switches. Includes information about FIPS, users and common roles, RADIUS and TACACS+, IP ACLs, PKI, IPsec, FS-SP and DHCHAP, port security, fabric binding, and TrustSec Fibre Channel Link Encryption. Includes new information about user authorization on a TACACS+ server, TrustSec Fibre Channel Link Encryption, MSCHAP version 2 for authentication on a RADIUS server, and AAA enhancements.
- [*Cisco Nexus 5000 Series NX-OS SAN Switching Configuration Guide*](#)
Describes how to configure and manage features such as VSANs, SAN device virtualization, dynamic VSANs, zones, distributed device alias services, Fibre Channel routing services and protocols, FLOGI, name server, FDMI, RSCN database, SCSI targets, FICON, and other advanced features.
- [*Cisco Nexus 5000 Series Layer 2 Switching Configuration Guide*](#)
Describes how to configure and manage features such as VLANs, Private VLANs, Spanning Tree Protocol, Per VLAN Rapid Spanning Tree (Rapid PVST+), MST, STP extensions, and other layer 2 advanced features.
- [*Cisco Nexus 5000 Series Quality of Service Configuration Guide*](#)
Describes how to configure quality of service (QoS) features to control network and application traffic. These features include setting up ingress port rating, creating and enforcing service policy definitions, and configuring data traffic.

- [Cisco Nexus 5000 Series System Management Configuration Guide](#)
Describes how to configure the system management features that you can use to monitor and manage a switch.
- [CLI Reference Guide for the Cisco Secure Access Control System 5.1](#)
Describes how to configure and maintain Cisco Secure Access Control System 5.1 by using the command-line interface.
- [Installation and Upgrade Guide for the Cisco Secure Access Control System 5.1](#)
Describes how to configure the CSACS-1121 appliance, install ACS 5.1 on the CSACS-1121 appliance or on a VMware server, and to upgrade from ACS 5.0 to 5.1.
- [License and Documentation Guide for Cisco Secure Access Control System 5.1](#)
Provides important license and documentation information.
- [Migration Guide for the Cisco Secure Access Control System 5.1](#)
Provides information on the data migration process from Cisco Secure Access Control System (ACS) release 4.x to ACS 5.1.
- [Regulatory Compliance and Safety Information for Cisco 1121 Secure Access Control System 5.1 and Cisco NAC Appliance 4.7](#)
Provides regulatory compliance and safety information for Cisco 1121 Secure Access Control System appliance.
- [Release Notes for the Cisco Secure Access Control System 5.1](#)
Provides information on the features, related documentation, resolved issues, and known issues for functionality in ACS 5.1 release.
- [Software Developer's Guide for the Cisco Secure Access Control System 5.1](#)
A guide for programmers who use the web services, CLI commands, and databases that ACS provides to create custom applications.
- [Supported and Interoperable Devices and Software Tables for the Cisco Secure Access Control System 5.1](#)
Provides information regarding the devices and softwares that are supported in ACS 5.1.
- [User Guide for the Cisco Secure Access Control System 5.1](#)
Provides detailed step-by-step configuration instructions for setting up and administering ACS. Guides users to perform various tasks on the ACS web interface.

Revised Documents

- [Release Notes for Cisco NAC Profiler, Release 2.1.8](#)
Provides late-breaking and cumulative release and upgrade information for Cisco NAC Profiler Release 2.1.8 (build 39).

Optical Networking

The terms “Unidirectional Path Switched Ring” and “UPSR” may appear in Cisco literature. These terms do not refer to using Cisco ONS 15xxx products in a unidirectional-path-switched-ring configuration. Rather, these terms, and “Path Protected Mesh Network” and “PPMN,” generally refer to Cisco’s Path Protection feature, which may be used in any topological network configuration. Cisco does not recommend using its Path Protection feature in any particular topological network configuration.

Physical Security

None at this time.

Routers

New Documents

- [Cisco MWR 2941-DC Mobile Wireless Edge Router Software Configuration Guide, Release 12.4\(20\)MR](#)
Describes how to configure the Cisco MWR 2941-DC Mobile Wireless Edge Router, including new features for Cisco IOS Release 12.4(20)MR.
- [Release Notes for Cisco MWR 2941-DC Mobile Wireless Edge Router for Cisco IOS Release 12.4\(20\)MR](#)
Describes the software updates introduced in Cisco IOS Release 12.4(20)MR for the Cisco MWR 2941-DC Mobile Wireless Edge Router.

Security

New Documents

- [Applying Zone-based Firewall Policies in Cisco Security Manager](#)
Outlines the Zone-based Firewall model and describes using Cisco Security Manager to implement Zone-based Firewall rules on IOS routers.
- [Guide to User Documentation for Cisco Security Manager 3.3.1](#)
Identifies and links to installation and setup information for Cisco Security Manager 3.3.1 and Auto Update Server 3.3.1.
- [Installation Guide for Cisco Security Manager 3.3.1](#)
Provides requirements and describes how to install Cisco Security Manager 3.3.1 on a Windows server and to install dedicated client software for Cisco Security Manager 3.3.1 on a Windows PC. Includes pre- and post-installation guidelines and troubleshooting information.
- [Migrating from 1800/2800/3800 ISRs to 1900/2900/3900 ISRs Using Cisco Security Manager 3.3.1](#)
Describes how to use Cisco Security Manager 3.3.1 to replace older model integrated services routers (1800, 2800, and 3800 ISR series) with newer generation 2 models (1900, 2900, and 3900 ISR series).

- [Regulatory Compliance and Safety Information for Cisco 1121 Secure Access Control System 5.1 and Cisco NAC Appliance 4.7](#)
Provides regulatory compliance and safety information for the Cisco NAC-3315/3355/3395 appliances.
- [Release Notes for Cisco Security Manager 3.3.1](#)
Describes new features available in Cisco Security Manager 3.3.1, provides important notes regarding the product, and lists recently resolved problems and currently known problems in Cisco Security Manager 3.3.1.
- [Supported Devices and Software Versions for Cisco Security Manager 3.3.1](#)
Lists the devices and operating system versions supported by Cisco Security Manager 3.3.1.
- [User Guide for Auto Update Server 3.3.1](#)
Provides detailed descriptions of all features available in Auto Update Server 3.3.1 and procedures for implementing these features in your network.
- [User Guide for Cisco Performance Monitor 3.3.1](#)
Provides detailed descriptions of all features available in Cisco Performance Monitor 3.3.1 and procedures for implementing these features in your network.
- [User Guide for Cisco Security Manager 3.3.1](#)
Provides detailed descriptions of all features available in Cisco Security Manager 3.3.1, procedures for implementing these features in your network, and comprehensive coverage of each field in the GUI.

Revised Documents

- [Cisco NAC Appliance—Clean Access Manager Configuration Guide, Release 4.7](#)
Describes configuration of the Clean Access Manager for Cisco NAC Appliance, Release 4.7.
- [Cisco NAC Appliance—Clean Access Server Configuration Guide, Release 4.7](#)
Describes configuration of the Clean Access Server (including DHCP, AD SSO, and VPN concentrator integration) for Cisco NAC Appliance, Release 4.7.
- [Cisco NAC Appliance Hardware Installation Guide, Release 4.7](#)
Describes Clean Access Manager and Clean Access Server (including high availability) for Cisco NAC Appliance, Release 4.7.
- [Release Notes for Cisco NAC Appliance \(Cisco Clean Access\), Version 4.7\(0\)](#)
Provides late-breaking and cumulative release, upgrade, and bug fix information for Release 4.7.

Service Exchange

None at this time.

Storage Networking

None at this time.

Switches

New Documents

- [Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter Getting Started Guide](#)
Provides instructions on how to install, configure, and manage your Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter.
- [Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter Hardware Installation Guide](#)
Includes installation instructions and technical specifications for the Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter.
- [Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter NX-OS Command Reference, Release 4.1\(2\)E1\(1\)](#)
Provides command references for the Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter NX-OS, Software Release 4.1(2)E1(1).
- [Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter NX-OS Configuration Guide](#)
Provides configuration information for the Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter NX-OS, Software Release 4.1(2)E1(1).
- [Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter NX-OS License and Copyright Information](#)
Provides license and copyright information for the Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter.
- [Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter NX-OS Release Notes, Release 4.1\(2\)E1\(1\)](#)
Provides information such as open caveats and limitations for Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter NX-OS, Release Notes 4.1(2)E1(1).
- [Regulatory Compliance and Safety Information for the Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter](#)
Includes translated safety warnings and compliance information relating to the Cisco Nexus 4001I and 4005I Switch Module for IBM BladeCenter.

TelePresence

None at this time.

Universal Gateways and Access Servers

None at this time.

Video, Cable, and Content Delivery

None at this time.

Voice and Unified Communications

Revised Documents

- [Cisco PGW 2200 Softswitch Release 9 Billing Interface Guide](#)
Provides billing information for the Cisco PGW 2200 Softswitch software Release 9.
- [Cisco PGW 2200 Softswitch Release 9 Dial Plan Guide \(through Release 9.7\)](#)
Describes the information that users need to create, implement, and deploy dial plans for the Cisco PGW 2200 Softswitch Release 9 through Release 9.7.
- [Cisco PGW 2200 Softswitch Release 9 MML Command Reference](#)
Provides reference information for the Release 9 Man-Machine Language (MML) commands used to provision the Cisco PGW 2200 Softswitch.
- [Cisco PGW 2200 Softswitch Release 9 Provisioning Guide \(through Release 9.7\)](#)
Describes how to provision your Cisco PGW 2200 Softswitch Release 9 through Release 9.7.
- [Cisco PGW 2200 Softswitch Release 9.7 Software Installation and Configuration Guide](#)
Describes how to install and configure the Cisco PGW 2200 Softswitch Release 9.7 and the Sun Solaris 10 operating system on the Cisco PGW 2200 Softswitch host, and the migration procedure from previous releases to Release 9.7.
- [Cisco PGW 2200 Softswitch Release 9.8 Dial Plan Guide](#)
Describes how to create, implement, and deploy dial plans for the Cisco PGW 2200 Softswitch Release 9.8.
- [Cisco PGW 2200 Softswitch Release 9.8 Provisioning Guide](#)
Describes how to provision your Cisco PGW 2200 Softswitch Release 9.8.
- [Cisco PGW 2200 Softswitch Release 9.8 Software Installation and Configuration Guide](#)
Describes how to install and configure the Cisco PGW 2200 Softswitch Release 9.8 and the Sun Solaris 10 operating system on the Cisco PGW 2200 Softswitch host, and the migration procedure from previous releases to Release 9.8.
- [Release Notes for the Cisco PGW 2200 Softswitch Release 9.7\(3\)](#)
Describes the features and caveats for Cisco PGW 2200 Softswitch Release 9.7(3).
- [Release Notes for the Cisco PGW 2200 Softswitch Release 9.8\(1\)](#)
Describes the features and caveats for Cisco PGW 2200 Softswitch Release 9.8(1).

Wireless

None at this time.

Creating Bookmarks to Cisco.com Pages

When you log in using your Cisco.com user ID, you can use the My Cisco tool to save links and documents, and then access the links later from any Cisco.com page. The tool is available on most Cisco.com pages. See the User Guide for help: <http://www.cisco.com/web/help/mycisco.html>.

Support from Cisco

Select from Cisco support opportunities at:

<http://www.cisco.com/en/US/support/index.html>

You can use this website to:

- Obtain technical assistance
- Download software
- Report security vulnerabilities or get assistance with security involving Cisco products
- Access tools and resources
 - Sign up for product alerts
 - Register for field notices
 - Search for known issues using the Bug Toolkit
- Participate in technology discussions with the Networking Professionals (NetPro) community
- Access training resources
- Interactively identify and troubleshoot common hardware, configuration, and performance issues, using the TAC Case Collection tool

Submitting a Service Request

Open a service request online at:

<http://www.cisco.com/techsupport/servicerequest>

View a list of Cisco worldwide contacts at:

http://www.cisco.com/en/US/support/tsd_cisco_worldwide_contacts.html

Obtaining Additional Information

Information about Cisco products, services, technologies, and networking solutions is available from various online sources.

- Sign up for Cisco e-mail newsletters and other communications at the Cisco Subscription Center at:
<http://www.cisco.com/offer/subscribe>
- Use the Cisco Support website to access online resources, including documentation and tools to resolve technical issues with Cisco products. To receive security and technical information about your products, you can subscribe to the Product Alert Tool (accessed from Field Notices), the Cisco Technical Services Newsletter, and Really Simple Syndication (RSS) Feeds. Access to most tools on the Cisco Support website requires a Cisco.com user ID and password.
<http://www.cisco.com/techsupport>
- Order the *Cisco Product Quick Reference Guide*, a portable, easy-to-use reference tool that provides an overview of Cisco products and solutions for each area of your business. Go to:
<http://www.cisco.com/en/US/prod/qrg/index.html>

- Visit the Cisco Services website to learn the latest technical, advanced, and remote services to increase the operational reliability of your network. Go to:
<http://www.cisco.com/go/services>
- Visit Cisco Marketplace, the company store, for Cisco collateral, logo merchandise, Cisco Press books, and software at:
<http://www.cisco.com/go/marketplace/>
- Obtain general networking, training, and certification titles from Cisco Press publishers at:
<http://www.ciscopress.com>
- Read the Internet Protocol Journal, a quarterly journal published by Cisco for engineering professionals who design, develop, and operate internets and intranets. Go to:
<http://www.cisco.com/ipj>
- *What's New in Cisco Product Documentation* (this document) is an online publication that provides information about the latest documentation releases for Cisco products. This online publication is updated monthly and organized by product category:
<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>
- Access international Cisco websites at:
http://www.cisco.com/public/countries_languages.shtml
- Product Selector Application (PSA) is now available for customers and allows them to select their product or technology. To access Cisco technical documentation, go to the following URL:
<http://www.cisco.com/go/techdocs>
- Warranty Finder is now available for customers and allows them to find warranty information that applies to a specific product or product series/family. To access Cisco Warranty Finder, go to the following URL:
<http://www.cisco-warrantyfinder.com>
- Visit the Cisco Data Center Documentation Twitter Feed for daily updates on Cisco NX-OS features and documentation and provide feedback on documentation needs. Go to the following URL:
<http://twitter.com/CiscoDCDocs>
