

End of Life for LAN Emulation

Last Updated: December 4, 2012

Support for LAN emulation (LANE) feature and commands has been removed in Cisco IOS Release 15.1M and later releases. This change marks the end of life for LAN emulation.

Finding Feature Information

Your software release may not support all the features documented in this module. For the latest caveats and feature information, see [Bug Search Tool](#) and the release notes for your platform and software release. To find information about the features documented in this module, and to see a list of the releases in which each feature is supported, see the feature information table at the end of this module.

Use Cisco Feature Navigator to find information about platform support and Cisco software image support. To access Cisco Feature Navigator, go to www.cisco.com/go/cfn. An account on Cisco.com is not required.

Removal of Support for LAN Emulation Feature

The following LAN Emulation feature is obsolete and is no longer available from Cisco IOS Release 15.1M and later releases:

- [LAN Emulation Overview](#)
- [Configuring LAN Emulation](#)
- [Configuring Token Ring LAN Emulation](#)
- [Configuring Token Ring LAN Emulation for Multiprotocol over ATM](#)

Removal of Support for LAN Emulation Commands

Americas Headquarters:
Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

The following commands are obsolete and are no longer available from Cisco IOS Release 15.1M and later releases (no replacement commands are provided):

- **debug atm bus**
- **debug lane client**
- **debug lane config**
- **debug lane finder**
- **debug lane server**
- **debug lane signaling**
- **lane auto-config-atm-address**
- **lane bus-atm-address**
- **lane client**
- **lane client-atm-address**
- **lane client flush**
- **lane client mpoa client name**
- **lane client mpoa server name**
- **lane config-atm-address**
- **lane config database**
- **lane database**
- **lane fixed-config-atm-address**
- **lane fssrp**
- **lane global-lecs-address**
- **lane le-arp**
- **lane server-atm-address**
- **lane server-bus**
- **show lane**
- **show lane bus**
- **show lane client**
- **show lane config**
- **show lane database**
- **show lane default-atm-addresses**
- **show lane le-arp**
- **show lane neighbor**
- **show lane qos database**
- **show lane server**

Feature Information for End of Life for LAN Emulation

The following table provides release information about the feature or features described in this module. This table lists only the software release that introduced support for a given feature in a given software release train. Unless noted otherwise, subsequent releases of that software release train also support that feature.

Use Cisco Feature Navigator to find information about platform support and Cisco software image support. To access Cisco Feature Navigator, go to www.cisco.com/go/cfn. An account on Cisco.com is not required.

Table 1 Feature Information for End of Life for LAN Emulation

Feature Name	Releases	Feature Information
End of Life for LAN Emulation	15.1M	Support for LAN emulation has been removed from the Cisco IOS software.
