

End of Life for Multiprotocol over ATM

Last Updated: December 4, 2012

Support for Multiprotocol over ATM feature and commands has been removed in Cisco IOS Release 15.1M and later releases. This change marks the end of life for multiprotocol over ATM (MPOA).

Finding Feature Information

Your software release may not support all the features documented in this module. For the latest caveats and feature information, see [Bug Search Tool](#) and the release notes for your platform and software release. To find information about the features documented in this module, and to see a list of the releases in which each feature is supported, see the feature information table at the end of this module.

Use Cisco Feature Navigator to find information about platform support and Cisco software image support. To access Cisco Feature Navigator, go to www.cisco.com/go/cfn. An account on Cisco.com is not required.

Removal of Support for Multiprotocol over ATM

The following Multiprotocol over ATM feature is obsolete and is no longer available in Cisco IOS Release 15.1M and later releases:

- [Multiprotocol over ATM Overview](#)
- [Configuring the Multiprotocol over ATM Server](#)
- [Configuring the Multiprotocol over ATM Client](#)

Removal of Support for Multiprotocol over ATM Commands

The following commands are obsolete and are no longer available in Cisco IOS Release 15.1M and later releases (no replacement commands are provided):

Americas Headquarters:
Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

- `debug mpoa client`
- `debug mpoa server`
- `mpoa client config name`
- `mpoa client name`
- `mpoa server config name`
- `mpoa server name`
- `mpoa server name trigger ip-address`
- `show mpoa client`
- `show mpoa client cache`
- `show mpoa client statistics`
- `show mpoa default-atm-addresses`
- `show mpoa server`
- `show mpoa server cache`
- `show mpoa server statistics`
