

# Cisco IOS Release 12.3T

## Cisco IOS Configuration Fundamentals Command Reference

### snmp-server enable traps through statistics-distribution-interval

**Commands related to Network Management and Configuration Fundamentals are now documented at the following locations:**

- Network Management

[http://www.cisco.com/en/US/products/ps6350/products\\_command\\_reference\\_book09186a008042df72.html](http://www.cisco.com/en/US/products/ps6350/products_command_reference_book09186a008042df72.html)

- Configuration Fundamentals

[http://www.cisco.com/en/US/products/ps6350/products\\_command\\_reference\\_book09186a008042deb0.html](http://www.cisco.com/en/US/products/ps6350/products_command_reference_book09186a008042deb0.html)

Note that SNMP commands are documented in the Network Management Command Reference.

The 12.3T implementation of commands is carried forward into Cisco IOS Release 12.4. For earlier releases, see the index at:
