

# Introduction

---

This document describes the basic commands used to configure NetFlow features in Cisco IOS software.

**Note**

---

Prior to Cisco IOS release 12.3(14)T the commands for configuring NetFlow were presented in the *Cisco IOS Switching Services Command Reference*.

---

Refer to the configuration document indicated here for configuration guidelines:

<b>For guidelines about configuring this feature...</b>	<b>Refer to the following <i>Cisco IOS Configuration Guide</i>...</b>
NetFlow	<ul style="list-style-type: none"><li>• “<i>Cisco IOS Switching Services Configuration Guide</i>, Release 12.3 ”</li></ul>

**Note**

---

A separate NetFlow configuration guide for Cisco IOS NetFlow features will be published at a later date.
