

Please Read

You reached this page because you were trying to access documentation from the old Cisco Connection Online (CCO) website, also known as UniverCD. The CCO website is being discontinued. We apologize for any inconvenience, and we hope this redirect will help you find the documentation on the new Cisco.com website.

To access the Cisco IOS IP SLAs documentation on the new Cisco.com website, please go to the following locations and bookmark them for future use:

- [Cisco IOS IP SLAs Features Roadmap](#)
- [Cisco IOS IP SLAs Configuration Guide, Release 12.4T](#)
- [Cisco IOS IP SLAs Configuration Guide, Release 12.4](#)
- [Cisco IOS IP SLAs Command Reference](#)

Finding Cisco Technical Documentation on Cisco.com

There are several ways you can navigate the new Cisco.com website to find documentation:

1. From [Cisco.com](#), click Documentation under Quick Links.
2. From [Cisco.com](#), point your cursor to Support. Click Select a Product.
3. From [Cisco.com](#), point your cursor to Support. Click a specific task (for example, Configure).

Once you find the product you are interested in, use the left-hand navigation to select the type of information you are interested in (for example, General Information).

To directly access the Product Selector tool to find Cisco technical documentation, please use the following URL:

<http://www.cisco.com/web/psa/products/index.html>

For an overview on how to navigate the documentation site on Cisco.com, please see the online demonstration at the following URL:

http://www.cisco.com/public/support/tac/new_UI_demo.htm
