Table 1 Product Documentation (continued)

Document Title	Location
<i>User Guide for Cisco TelePresence Readiness Assessment Manager 1.0</i>	<ul style="list-style-type: none"> In PDF on the product CD-ROM On Cisco.com at the following URL: http://www.cisco.com/en/US/products/ps8542/products_user_guide_list.html
<i>Deployment Guide for Cisco TelePresence Readiness Assessment Manager 1.0</i>	On Cisco.com at the following URL: http://www.cisco.com/en/US/products/ps8542/products_installation_and_configuration_guides_list.html

Known Problems

There were no known problems at the time this document was created.

Informational Notes

- If Cisco TelePresence Readiness Assessment Manager is idle for a few hours, it prompts you to enter a username and password when you start to use it again. After you enter credentials, a “HTTP Status 404 - /ram/LiaisonServlet” error appears. Close the window and start Cisco TelePresence Readiness Assessment Manager again.
- A device is unsupported if it fails during inventory. The role for such a device is blank in the device classification table (select **Inventory > Device Classification**.)

Note

A device also fails during inventory if it is unreachable and is likewise displayed with a blank role in the device classification table.

Documentation Errata

The *Documentation Guide for Cisco TelePresence Readiness Assessment Manager 1.0* contains a URL location for a device support table. A device support table is not needed because Cisco TelePresence Readiness Assessment Manager creates a device inventory report that lists any unsupported devices.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, submitting a service request, and gathering additional information, see the monthly *What's New in Cisco Product Documentation*, which also lists all new and revised Cisco technical documentation, at:

<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

Subscribe to the *What's New in Cisco Product Documentation* as a Really Simple Syndication (RSS) feed and set content to be delivered directly to your desktop using a reader application. The RSS feeds are a free service and Cisco currently supports RSS version 2.0.

This document is to be used in conjunction with the documents listed in the “[Product Documentation](#)” section.
