## Description

Campus Manager 4.0.11 is a software update for Campus Manager 4.0.10. In addition to the devices supported, this package contains fixes to both existing and newly discovered problems.

You should print out and read this document before installing Campus Manager 4.0.11.

**Caution**

---

Campus Manager 4.0.11 has specific prerequisites. Before installing Campus Manager 4.0.11, see “[Hardware and Software Requirements](#)” section on page 3.

---

## Related Documentation

[Table 1 on page 4](#) lists the devices supported in Campus Manager 4.0.11.

A list of all devices supported in Campus Manager 4.0.10 is available on Cisco.com.

To access this, go to:

[http://cisco.com/en/US/docs/net\\_mgmt/ciscoworks\\_campus\\_manager/4.0.6/device\\_support/table/cm406sdt.html](http://cisco.com/en/US/docs/net_mgmt/ciscoworks_campus_manager/4.0.6/device_support/table/cm406sdt.html)

For a list of fixes to known problems, see “[Resolved Problems in Campus Manager 4.0.11](#)” section on page 14.

A list of all known and resolved problems in Campus Manager 4.0.10, including the patches containing fixes for known problems rolled into latest SP, is available on Cisco.com.

To access the Readme for Campus Manager 4.0.10 on Windows, go to:

[http://www.cisco.com/en/US/docs/net\\_mgmt/ciscoworks\\_campus\\_manager/4.0.10/readme/cm4010wrm.html](http://www.cisco.com/en/US/docs/net_mgmt/ciscoworks_campus_manager/4.0.10/readme/cm4010wrm.html)

**Note**

---

We sometimes update the printed and electronic documentation after original publication. Therefore, we recommend that you also review other documentation for Campus Manager 4.0.6 on Cisco.com for any updates.

---

# Hardware and Software Requirements

Campus Manager 4.0.11 requires that you have installed CiscoWorks Common Services 3.0.6 and Campus Manager 4.0.10.

Hardware and software requirements are the same as those needed for CiscoWorks Common Services 3.0.6 and Campus Manager 4.0.10 installation.

For a detailed list of requirements and instructions to install CiscoWorks Common Services 3.0.6 and Campus Manager 4.0.10, go to Cisco.com:

- For documentation on CiscoWorks Common Services 3.0.6, go to:  
[http://www.cisco.com/en/US/products/sw/cscowork/ps3996/prod\\_release\\_notes\\_list.html](http://www.cisco.com/en/US/products/sw/cscowork/ps3996/prod_release_notes_list.html)
- You can download Common Services 3.0.6 from:  
<http://www.cisco.com/cgi-bin/tablebuild.pl/cd-one-3des>
- For documentation on Campus Manager 4.0.10, go to:  
[http://www.cisco.com/en/US/products/sw/cscowork/ps563/prod\\_release\\_notes\\_list.html](http://www.cisco.com/en/US/products/sw/cscowork/ps563/prod_release_notes_list.html)
- You can download Campus Manager 4.0.10 from:  
<http://www.cisco.com/cgi-bin/tablebuild.pl/cw2000-campus>

## Campus Manager 4.0.11 Upgrade Path

Use the table below to verify the upgrade path to Campus Manager 4.0.11:

If you have installed...	You must install...
CM4.0	CS3.0.3+CM4.0.3+CS3.0.5+CM4.0.6+CS3.0.6+CM4.0.10+CM4.0.11
CM4.0+CM4.0 SP1 or SP2	CS3.0.3+CM4.0.3+CS3.0.5+CM4.0.6+CS3.0.6+CM4.0.10+CM4.0.11
CM4.0 SP3	CM4.0.5+CS3.0.5+CM4.0.6+ CS3.0.6+CM4.0.10+CM4.0.11

## Patches Rolled into Campus Manager 4.0.11

There are no patches, containing fixes to bugs, that have been rolled into Campus Manager 4.0.11.

# Supported Devices in Campus Manager 4.0.11

Table 1 lists the devices supported in Campus Manager 4.0.11.

For a list of all devices supported in Campus Manager 4.0.10, see the Supported Devices Table for Campus Manager 4.0.6 on Cisco.com (see the [“Related Documentation”](#) section on page 2).

**Table 1** Supported Devices in Campus Manager 4.0.11

Device Type	Devices/ Modules Supported	sys ObjectID	Topology	VLAN Mgmt	LANE Mgmt	ATM Mgmt	User Tracking	Path Analysis	Minimum Software

## Downloading Campus Manager 4.0.11

You can download the Campus Manager 4.0.11 installer file, cwcm4\_0\_11\_win.zip, by either:

- [Downloading From Cisco.com](#)

Or

- [Downloading From Software Center](#)

## Downloading From Cisco.com

You can download the updates:

- From the Software Downloads page  
From the Cisco.com home page, Select **Products & Solutions > Network Management > All Network Management Products > CiscoWorks Campus Manager > Download Software** to access the Software Downloads page.

Or

- From <http://www.cisco.com/cgi-bin/tablebuild.pl/cw2000-campus>

To download the file from Cisco.com:

- 
- Step 1** Locate the package file cwcm4\_0\_11\_win.zip.
  - Step 2** Save the file to a temporary working area of your server.
- 

## Downloading From Software Center

To download the file from Software Center:

- 
- Step 1** Go to the CiscoWorks homepage and select **Common Services > Software Center > Software Update**. The Software Updates page appears.
  - Step 2** Check the Campus manager check box in the Products Installed table, and click **Select Updates**. The CCO and Proxy Server Credentials page appears.  
You are prompted to enter your Cisco.com User Name and Password. If you have configured proxy settings, you are prompted to enter the Proxy Server User credentials.  
You can configure your Proxy Server User credentials from the Proxy Server Setup page.  
To access the Proxy Server Setup page, go to the CiscoWorks Homepage and select **Common Services > Server > Security > Cisco.com Connection Management > Proxy Server Setup**.  
The Proxy Server Setup page appears. Enter the required information in the page to configure your Proxy Server settings.
  - Step 3** Enter the required credentials, and click **Next**.  
The Available Images page appears with packages for both Windows and Solaris (cwcm4\_0\_11\_win.zip and cwcm4\_0\_11\_sol.zip).
  - Step 4** Select cwcm4\_0\_11\_win.zip and click **Next**.  
The Destination Location page appears.
  - Step 5** Enter the location or browse to the location using the Browse button.

**Step 6** Click **Next**.

The Summary page appears. The Summary window displays a summary of your inputs.

**Step 7** Click **Finish** to confirm the download operations.

The package file is downloaded to the directory that you selected, in the folder cm.

## Installing Campus Manager 4.0.11

Before you install Campus Manager 4.0.11, make sure your installation environment meets the requirements described in “[Hardware and Software Requirements](#)” section on page 3.

To install Campus Manager 4.0.11:

**Step 1** Log into the machine as local administrator.**Step 2** Navigate to the directory that contains the zip file that you have downloaded.**Step 3** Unzip the package file cwcm4\_0\_11\_win.zip to your temporary directory.**Step 4** Navigate to the temporary directory where you have extracted the files packaged in the installer.**Step 5** Double-click the file cwcm4\_0\_11\_win.exe, to begin installation.

A prompt appears:

```
This will install Campus Manager 4.0.11. Do you want to proceed?
```

**Step 6** Click **Yes** to continue or click **No** to exit the setup.

If you have not installed Common Services 3.0.6, this message appears:

```
Install CiscoWorks Common Services 3.0.6 before installing Campus Manager 4.0.11.
```

The installation terminates when you click **OK**.

Common Services 3.0.6 is a service pack release over Common Services 3.0.5.

You can download Common Services 3.0.6 from:

<http://www.cisco.com/cgi-bin/tablebuild.pl/cd-one-3des>

For details on installing Common Services 3.0.6, see the Readme for Common Services 3.0.6 on Windows at the following location:

[http://www.cisco.com/en/US/docs/net\\_mgmt/ciscoverks\\_common\\_services\\_software/3.0.6/readme/windows/guide/cs306win.html](http://www.cisco.com/en/US/docs/net_mgmt/ciscoverks_common_services_software/3.0.6/readme/windows/guide/cs306win.html)

If you have not installed Campus Manager 4.0.10, this message appears:

```
Install Campus Manager 4.0.10 before installing Campus Manager 4.0.11.
```

The installation terminates when you click **OK**.

Campus Manager 4.0.10 is a software update for Campus Manager 4.0.6.

You can download Campus Manager 4.0.10 from:

<http://www.cisco.com/cgi-bin/tablebuild.pl/cw2000-campus>

For details on installing Campus Manager 4.0.10, see the Readme for Campus Manager 4.0.10 on Windows at the following location:

[http://www.cisco.com/en/US/docs/net\\_mgmt/ciscoworks\\_campus\\_manager/4.0.10/readme/cm4010wr.html](http://www.cisco.com/en/US/docs/net_mgmt/ciscoworks_campus_manager/4.0.10/readme/cm4010wr.html)

After installing Common Services 3.0.6 and Campus Manager 4.0.10, resume from [Step 5](#).

**Step 7** Click **Next** in the Welcome Screen to continue your installation.

The Software License Agreement dialog box appears.

**Step 8** You should click either:

- **Accept** to continue

or

- **Do Not Accept** to exit the setup

The System Requirements window appears and the installation checks whether the system requirements are met.

- If there is not enough disk space to install Campus Manager 4.0.11, the installation displays an error message and stops.
- If the minimum requirements are not met, the installation displays an error message and exits the setup.

**Step 9** Click **Next**.

The Daemons Restart Options dialog box appears with the following message:

If no other CiscoWorks application installations are pending, you can choose to start CiscoWorks Daemons.

Do you want to restart CiscoWorks Daemons at the end of this installation?

If you want to start CiscoWorks daemons, click Yes.

If you do not want to start CiscoWorks daemons, click No.

**Step 10** You should click either:

- **Yes** to restart CiscoWorks daemons

or

- **No** if you have any other installations pending

A Summary dialog box displaying the current settings for installation appears.

**Step 11** Click **Next**.

The Setup Complete dialog box appears with the message:

Setup is complete. Click Finish to start CiscoWorks.

**Step 12** Click **Finish** to complete and quit the installation.

To ensure that the installation is successful, go to **Common Services > Software Center > Software Update**. Click **Campus Manager** and ensure that the Patches Installed table displays Campus Manager 4.0.11.

## Reinstalling Campus Manager 4.0.11

To reinstall Campus Manager 4.0.11, follow the instructions in the “[Installing Campus Manager 4.0.11](#)” section on page 12.

## Known Problems in Campus Manager 4.0.11

Known problems are unexpected behaviors or defects in Campus Manager software releases.

To obtain more information about known problems, access the Cisco Software Bug Toolkit at <http://www.cisco.com/cgi-bin/Support/Bugtool/home.pl>. (You will be prompted to log into Cisco.com.)

For a list of known problems in Campus Manager 4.0.10, see *Release Notes for Campus Manager 4.0.10* on Cisco.com (see “[Related Documentation](#)” section on page 2).

Table 2 lists the Known problems in Campus Manager 4.0.11

**Table 2** Known Problems in Campus Manager 4.0.11

Bug ID	Summary
CSCso59624	Neighbor device information is not shown in Data Collection report and Topology Services for Cisco SAMI with Home Agent.
CSCso68976	In Topology maps, a single link between C2106WLC device and its neighbor is displayed twice. This happens when there is a mismatch between the MIB values of ifName and ifDesc.
CSCsk44148	Campus Manager incorrectly shows a FastEthernet link for WAE612 device. This occurs when you launch the Link Attributes report of the WAE612 device from topology maps.

## Resolved Problems in Campus Manager 4.0.11

Table 3 lists the resolved problems in Campus Manager 4.0.11.

**Table 3** Resolved Problems in Campus Manager 4.0.11

Bug ID	Summary
CSCs108093	Campus Manager reported false root devices, when you opened the Topology Map for a VLAN with an unknown STP protocol.
CSCsm66361	Online help for System Defined groups was incorrect.

## Frequently Asked Questions

- [Q.How will I know which version of Campus Manager I have installed?](#)
- [Q.I do not want support for all the devices that you have supported in Campus Manager 4.0.11. Can I select only the devices I want?](#)
- [Q.Where can I find device support for CiscoView, Device Fault Manager, or Resource Manager Essentials?](#)
- [Q.Where can I find information on the supported devices for Campus Manager 4.0.11?](#)

- Q.** How will I know which version of Campus Manager I have installed?
- A.** To check the version of Campus Manager installed on your system, from the CiscoWorks desktop, select **Common Services > Software Center > Software Update > Campus Manager**.

The Patches Installed table displays the installed version of the applications.

If Patches Installed Table Displays	Campus Manager Version Installed is...
Campus Manager - 4.0.11	4.0.11

- Q.** I do not want support for all the devices that you have supported in Campus Manager 4.0.11. Can I select only the devices I want?
- A.** No. The present installation framework does not support this feature. Even if you do not have all the supported devices, installing Campus Manager 4.0.11 will not adversely affect your network.
- Q.** Where can I find device support for CiscoView, Device Fault Manager, or Resource Manager Essentials?
- A.** The device support packages are available at the following locations:

Application	Location is...
CiscoView	<a href="http://www.cisco.com/cgi-bin/Software/CiscoView/cvplanner.cgi">http://www.cisco.com/cgi-bin/Software/CiscoView/cvplanner.cgi</a>
Device Fault Manager	<a href="http://www.cisco.com/cgi-bin/tablebuild.pl/cw2000-dfm">http://www.cisco.com/cgi-bin/tablebuild.pl/cw2000-dfm</a>
Resource Manager Essentials	<a href="http://www.cisco.com/cgi-bin/tablebuild.pl/cw2000-rme">http://www.cisco.com/cgi-bin/tablebuild.pl/cw2000-rme</a>

- Q.** Where can I find information on the supported devices for Campus Manager 4.0.11?
- A.** You can find the latest information on supported devices for Campus Manager 4.0.11 on Cisco.com. To access this, either:
- Go to the Cisco.com home page and select **Products & Solutions > Network Management > All Network Management Products > CiscoWorks Campus Manager**.
  - From the Technical Documentation & Tools section, select **General Information > Compatibilty Information > Supported Devices Table for Campus Manager 4.0.11**.
- Or
- Go to
  - [http://www.cisco.com/en/US/products/sw/cscowork/ps563/products\\_device\\_support\\_tables\\_list.html](http://www.cisco.com/en/US/products/sw/cscowork/ps563/products_device_support_tables_list.html)

**Note**

The Supported Devices Table for Campus Manager 4.0.6 contains the information on device support for Campus Manager 4.0.11.
