

Registration and Licensing Notes for CiscoWorks Common Services 2.2

CiscoWorks Common Services installs a 90-day unrestricted license by default. We highly recommend that you obtain and install a production license immediately.

The 90-day unrestricted license allows you to install and use your VPN/Security Management Solution (VMS) applications. This license expires after 90 days and licensed applications will no longer function.

To obtain a production license for your CiscoWorks Common Services software, register your software at one of the following websites. You will need to provide the Product Authorization Key (PAK), which is printed on a label affixed to the VMS Management and Monitoring Centers (VMMC) sub-box.

- If you are a registered user of Cisco.com, use this website:
<http://www.cisco.com/cgi-bin/Software/FormManager/formgenerator.pl>
- If you are not a registered user of Cisco.com, use this website:
<http://www.cisco.com/cgi-bin/Software/FormManager/formgenerator.pl>

The production license will be sent to the e-mail address you provided during registration. Retain this license with your CiscoWorks Common Services software records.

Corporate Headquarters:
Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

Licensing CiscoWorks Common Services

After you obtain the production license, perform these steps to license your software:

Step 1 Copy the new license file to the CiscoWorks Common Services server.

Step 2 Select **VPN/Security Management Solution > Administration > Common Services > Licensing Information**.

The License Information dialog box appears. The license type, number of devices supported by the license, and the expiration date of the license appear under License Information.

Note The **VPN/Security Management Solution** drawer is available only if Management Center (MC) applications are installed on your server.

Step 3 To update your license:

a. Enter the path to the new license file in the Filename field, or click **Select** to locate the new file.

b. Click **Update**.

After the system verifies the license file, a message indicates the status of the license update.

c. To close the message box, click **OK**.

The updated licensing information appears under License Information.

Getting Help With Licensing

If you have trouble using the registration website or this document, contact the Licensing Department in the Cisco Technical Assistance Center (TAC):

- Phone: +1 (800) 553-2447
- E-mail: licensing@cisco.com
