

Open Source Used In SFE/SGE Managed Switches

This document contains the licenses and notices for open source software used in this product. With respect to the free/open source software listed in this document, if you have any questions or wish to receive a copy of the source code to which you are entitled under the applicable free/open source license(s) (such as the GNU Lesser/General Public License), please contact us at

www.cisco.com/go/smallbiz_opensource_request.

It would greatly assist us in responding to your requests if you would include the following reference number 78EE117C99-4900413.

Ce document contient les licences et les avis concernant le logiciel à exploitation libre utilisé dans ce produit. En ce qui a trait au logiciel gratuit ou à exploitation libre figurant dans ce document, si vous avez des questions ou souhaitez recevoir une copie du code source, auquel vous avez droit en vertu des licences gratuites ou d'exploitation libre applicables (telles que licences GNU Lesser/General Public), veuillez communiquer avec nous à l'adresse

www.cisco.com/go/smallbiz_opensource_request.

Nous pourrions plus facilement répondre à vos demandes si le numéro de référence 78EE117C99-4900413 y était indiqué.

Open Source Used In SFE/SGE series switches

Contents

1.1 LZMA 4.16

1.1.1 Available under license

1.2 OpenSSL 0.9.8

1.2.1 Notifications

1.2.2 Available under license

1.1 LZMA 4.16

1.1.1 Available under license :

License

LZMA SDK 4.61 beta is placed in the public domain.

LZMA SDK 4.57 is available under any of the following licenses:

GNU Lesser General Public License (GNU LGPL)

Common Public License (CPL)

Simplified license for unmodified code (read SPECIAL EXCEPTION)

This means that you can select one of these options and follow rules of that license.

SPECIAL EXCEPTION: Igor Pavlov, as the author of this code, expressly permit you statically or dynamically to link your code (or bind by name) to the files from LZMA SDK without subjecting your linked code to the terms of the CPL or GNU LGPL. Any modification or addition to any file in the LZMA SDK, however, is subject to the

GNU LGPL or CPL terms.

This SPECIAL EXCEPTION allows you to use LZMA SDK in applications with proprietary code, provided you keep the LZMA SDK code unmodified.

SPECIAL EXCEPTION #2: Igor Pavlov, as the author of this code, expressly permits you to use LZMA SDK 4.57 and LZMA SDK 4.60 beta under the same terms and conditions contained in the License Agreement you have for any previous version of LZMA SDK developed by Igor Pavlov.

SPECIAL EXCEPTION #2 allows holders of proprietary licenses to use latest version of LZMA SDK as update for previous versions.

GNU LGPL and CPL are pretty similar and both these licenses are classified as free software licenses at <http://www.gnu.org/> and OSI-approved at <http://www.opensource.org/>.

The source code of 7-Zip is released under the terms of the GNU LGPL. You can download the source code of 7-Zip at 7-Zip's Source Forge Page

1.2 OpenSSL 0.9.8

1.2.1 Notifications :

This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit (<http://www.openssl.org/>)

This product includes cryptographic software written by Eric Young (ey@cryptsoft.com).

This product includes software written by Tim Hudson (tjh@cryptsoft.com).

1.2.2 Available under license :

LICENSE ISSUES

=====

The OpenSSL toolkit stays under a dual license, i.e. both the conditions of the OpenSSL License and the original SSLeay license apply to the toolkit. See below for the actual license texts. Actually both licenses are BSD-style Open Source licenses. In case of any license issues related to OpenSSL please contact openssl-core@openssl.org.

OpenSSL License
