■ New Features.....	2
■ Known Issues	3
■ Issue Tracking	4

New Features

Vantage 3.3 introduces the following features.

For details on any of the features listed in this release note, visit www.cisco.com and search for "Vantage" to find white papers and data sheets, or, contact your account representative.

Vantage 3.3

- Support for Arris VOD (with MET server installed on DNCS)
- Support for RNCS System Configurations

Known Issues

This section lists known issues associated with Vantage software releases.

These lists are not intended to be comprehensive. If you have questions about a particular issue, contact your account representative.

Notes:

- Defects are identified by a case tracking number (Defect ID) and a headline that briefly identifies the case.
- The headlines in this section are presented exactly as they appear in the issue tracking system.
- See *Issue Tracking* (on page 4) for instructions to obtain details and current status for known issues.

Issue Tracking

Search for a Specific Bug

- 1 Go to http://www.cisco.com/cgi-bin/Support/Bugtool/launch_bugtool.pl.
- 2 When prompted, log in with your user name and password. The Bug Toolkit page opens.
Note: If you have not set up an account on Cisco.com, click **Register Now** and follow the on-screen instructions to register.
- 3 In the **Search for Bug ID** field, enter the ID of the bug you want to view and click **Go**. The Bug Toolkit displays information about the bug in the **Search Bugs** tab.

Search for Bugs Using Specific Criteria

Follow these instructions to use the following various search options to display specific bugs.

- 1 Go to http://www.cisco.com/cgi-bin/Support/Bugtool/launch_bugtool.pl.
- 2 When prompted, log in with your user name and password. The Bug Toolkit page opens.
Note: If you have not set up an account on Cisco.com, click **Register Now** and follow the on-screen instructions to register.
- 3 To search for all the bugs in this release, enter the following search criteria in the **Search Bugs** tab:
 - Select Product Category: Select **Video**.
 - Select Products: Select **Cisco Videoscape Voyager Vantage**.
 - Software Version: Select the desired software version number.
 - Select Version Type: Select one of the following options:
 - **Known Affected Version (KAV):** the software version/release assumed to contain this bug
 - **Fixed-in:** the software version/release in which the bug has been fixed
 - **Found-in:** the software version/release in which the bug was first reported
 - Search for Keyword(s): Enter desired key words in this field. Separate search phrases with Boolean expressions (**AND**, **NOT**, **OR**) to search within the bug title and details.
 - Advanced Options: You can perform a search using the default search criteria, or define custom criteria for an advanced search. To customize the advanced search, select **Use custom settings for severity, status, and others** and provide the following information:
 - Severity – Select the severity level.
 - Status – Select any combination of **Terminated**, **Open**, or **Fixed**.

- Select **Terminated** to view terminated bugs. To filter terminated bugs, clear the Terminated check box and select the appropriate sub-options that appear below the terminated check box. The sub-options are **Closed, Junked, and Unreproducible**.
 - Select **Open** to view all the open bugs. To filter the open bugs, clear the Open check box and select the appropriate sub-options that appear below the Open check box. The sub-options are **Assigned, Forwarded, Held, Information Required, More, New, Open, Postponed, Submitted, and Waiting**. Select multiple sub-options as required.
 - Select **Fixed** to view fixed bugs. To filter fixed bugs, clear the Fixed check box and select the appropriate sub-options that appear below the fixed check box. The sub-options are **Resolved and Verified**.
 - Advanced – Select the **Show only bugs containing bug details** check box to view only those bugs that contain detailed information, such as symptoms and workarounds.
 - Modified Date – Select this option if you want to filter bugs by the date they were last modified.
 - Results Displayed Per Page – Select the appropriate option from the list to restrict the number of results that appear per page.
- 4 Click **Search**. The Bug Toolkit displays the list of bugs for this release.
