

Deleting Managers

When you delete Unified CM Assistant managers, Cisco Unified CallManager maintains information on the manager as a user in the directory. For example, if a manager with the user ID, *rmartinez*, has two assistants with user IDs, *dbell* and *jkent*, you can disassociate *rmartinez* from both assistants by deleting *rmartinez* as a manager in the Cisco Unified CallManager database. The directory still shows *rmartinez* as a user.

Deleting Managers from Cisco Unified CallManager

You can delete managers with all their manager-assistant associations from the Cisco Unified CallManager database and LDAP Directory. To access the Delete Managers option, choose **Bulk Administration > Managers/Assistants > Delete Managers**.

You have two ways for locating existing records to delete:

- [Using Query to Delete Manager Associations, page 29-1](#)
- [Using a Custom File to Delete Manager Associations, page 29-2.](#)

Using Query to Delete Manager Associations

To delete managers from their associations with assistants from Cisco Unified CallManager directory, use this procedure.

Procedure

-
- Step 1** Choose **BAT Administration > Managers/Assistants > Delete Managers > Query**. The Delete Managers Configuration window displays.
- Step 2** From the first Find Managers where drop-down list box, choose one of the following criteria:
- User ID
 - First Name
 - Middle Name
 - Last Name
 - Department

From the second Find Managers where drop-down list box, choose one of the following criteria:

- begins with
- contains
- is exactly
- ends with
- is empty
- is not empty

Step 3 Specify the appropriate search text, if applicable.

Tip To find all managers that are registered in the database, click **Find** without entering any search text.

Note To choose managers from more than one department, enter multiple departments in this field. For example, to choose managers from departments 12 and 24, enter **12, 24** in the third box instead of performing two operations.

Step 4 To further define your query and to add multiple filters, check the Search Within Results check box, choose **AND** or **OR** from the drop-down box, and repeat steps 2 and 3.

Step 5 Click **Find**.

A list of discovered managers displays by:

- User ID
- First Name
- Middle Name
- Last Name
- Department

Step 6 In the Job Information area, enter the Job description.

Step 7 To delete the managers immediately, click the Run Immediately radio button or, click Run Later to delete the managers at a later time.

Step 8 To create a job for deleting chosen managers, click **Submit**.

Step 9 To schedule and/or activate this job, use the Job Scheduler option in the Bulk Administration main menu.

For more information on jobs, see the [Chapter 52, “Scheduling Jobs.”](#)

For information on log files, see [“BAT Log Files” section on page 57-17.](#)

See the [“Related Topics” section on page 29-3.](#)

Using a Custom File to Delete Manager Associations

You can create a custom file by using a text editor to locate manager associations that you want to delete.

Before You Begin

1. Create a text file that lists user IDs for managers that you want to delete
2. Put each user ID on a separate line.
3. Upload the custom file to the first node of Cisco Unified CallManager server. See the [“Uploading a File” section on page 2-3](#)

To delete managers associations by using a custom file, use the following procedure.

Procedure

-
- Step 1** Choose **BAT Administration > Managers/Assistants > Delete Managers > Custom File**. The Delete Managers Configuration window displays.
- Step 2** In Select managers where field, keep the identifier, **User ID**.
- Step 3** In the second field, in Custom File drop-down list box, choose the name of the custom file that you created for this transaction.
- Step 4** Click **Find**.
- The list of discovered managers displays.
- Step 5** In the Job Information area, enter the Job description.
- Step 6** To delete the managers immediately, click the **Run Immediately** radio button, or click **Run Later** to delete the managers at a later time.
- Step 7** To create a job for deleting chosen managers, click **Submit**.
- Step 8** To schedule and/or activate this job, use the Job Configuration window.
- For more information on jobs, see the [Chapter 52, “Scheduling Jobs.”](#)
- For information on log files, see [“BAT Log Files” section on page 57-17.](#)
