 route list information [3-52](#)

 route pattern information [3-51](#)

 translation pattern information [3-51](#)

 understanding call flow details [3-50](#)

 understanding results summary [3-49](#)

analysis results

 examples [3-30](#)

analysis using gateways

 choosing Analog Access Gateways [3-15](#)

 choosing Cisco IOS H.323 Gateways [3-14](#)

 choosing Cisco IOS MGCP Gateways [3-10](#)

 choosing Cisco IOS SCCP gateways [3-10](#)

 choosing Cisco VG248 Phone Gateways [3-17](#)

 choosing gateway endpoints [3-10](#)

 choosing non-IOS MGCP Gateways [3-13](#)

 entering analysis input [3-10](#)

 finding a gateway [3-8](#)

 performing analysis [3-18](#)

analysis using multiple analyzer

 analyzing the uploaded csv file [3-29](#)

 deleting uploaded csv files [3-28](#)

 performing analysis [3-23](#)

 uploading input files [3-27](#)

 using DNA template to create csv file [3-23](#)

 using text-based editor to create csv file [3-24](#)

 multiple analyzer csv file format [3-25](#)

 viewing csv file content [3-28](#)

analysis using phones

 choosing a phone line [3-6](#)

 finding a phone [3-5](#)

 performing analysis [3-7](#)

analysis using trunks

 choosing SIP trunks [3-21](#)

 finding a trunk [3-20](#)

 performing analysis [3-21](#)

 selecting a trunk [3-21](#)

analyzing the uploaded csv file [3-29](#)

audience [vii](#)

C

call flow details [3-50](#)

choosing a phone line [3-6](#)

choosing gateway endpoints [3-10](#)

conventions [viii](#)

D

database synchronization

 disabling [3-2](#)

 with Cisco Unified CallManager [3-1](#)

deleting uploaded csv files [3-28](#)

dialed number analyzer

accessibility compliance [1-2](#)
 accessing [2-1](#)
 analysis [1-2](#)
 analysis output [1-3](#)
 analyze using gateways [3-8](#)
 analyze using phones [3-4](#)
 analyzing Cisco Unified CallManager dial plan configuration [3-1](#)
 database synchronization [3-1](#)
 dialing patterns [1-2](#)
 digit discard instructions [1-2](#)
 features [1-1](#)
 introduction [1-1](#)
 logging on [2-1](#)
 logging out [2-3](#)
 more information [1-3](#)
 performing simple analysis [3-2](#)
 starting the DNA service [2-2](#)
 stopping the DNA service [2-3](#)
 trace configuration files [3-56](#)
 using multiple analyzer for analysis [3-23](#)
 using trunks for analysis [3-19](#)
 viewing output files [3-56](#)

dialing patterns

- dumping [3-55](#)

digit discard instructions

- dumping [3-55](#)

document

- audience [vii](#)
- conventions [viii](#)
- organization [vii](#)
- purpose [vii](#)

documentation

- related [viii](#)

dumping dialing patterns [3-55](#)

dumping digit discard instructions [3-55](#)

E

examples [3-30](#)

F
