

INDEX

A

access-code command [10](#)
addon command [12](#)
after-hour exempt (voice register pool) command [15](#)
after-hours block pattern (call-manager-fallback) command [17](#)
after-hours date (call-manager-fallback) command [19](#)
after-hours day (call-manager-fallback) command [21](#)
alias (call-manager-fallback) command [23](#)
 for call rerouting [24](#)
alias (voice register pool) command [27](#)
application (call-manager-fallback) command [29](#)
application (voice register global) command [30](#)
application (voice register pool) command [32](#)
authenticate (voice register global) command [34](#)

B

b2bua command [36](#)

C

call-forward b2bua all command [38](#)
call-forward b2bua busy command [40](#)
call-forward b2bua mailbox command [42](#)
call-forward b2bua noan cpmmand [44](#)
call-forward busy (call-manager-fallback) command [46](#)
call-forward noan (call-manager-fallback) command [48](#)
call-forward pattern (call-manager-fallback) command [50](#)
call-manager-fallback command [52](#)
clear voice moh-group statistics command [54](#)
codec g722-64k command [55](#)

codec (voice register pool) command [56](#)
cor (call-manager-fallback) command [58](#)
cor (voice register pool) command [63](#)
credentials command [66](#)
customizing the system message text displayed on all Cisco IP phones [273](#)

D

date-format (call-manager-fallback) command [68](#)
default-destination command [70](#)
description (voice moh-group) command [72](#)
device-id command [73](#)
device-name command [75](#)
device-type command [76](#)
dial peer
 longest match rules [24](#)
dialplan-pattern (call-manager-fallback) command [78](#)
digit collect kpml command [81](#)
dtmf-relay (voice register pool) command [82](#)

E

E.164 [24](#)
elin command [84](#)
elin (voice emergency response settings) [86](#)
emergency response location [90](#)
emergency response zone [92](#)
ephone-type command [94](#)
extension-range command [98](#)
external-ring (voice register global) command [100](#)

H

- h450 h450-2 timeout (voice service voip) command [101](#)
- huntstop
 - rules [24](#)
- huntstop (call-manager-fallback) command [103](#)

I

- id (voice register pool) command [105](#)
- incoming called-number (voice register pool) command [107](#)
- ip qos dscp (call-manager-fallback) [108](#)
- ip source-address (call-manager-fallback) command [110](#)
- ip source-address (credentials) command [112](#)

K

- keepalive (call-manager-fallback) command [114](#)

L

- limit-dn (call-manager-fallback) command [116](#)
- location (voice emergency response zone) [118](#)
- logging (voice emergency response settings) [120](#)

M

- max-conferences (call-manager-fallback) command [122](#)
- max-dn (call-manager-fallback) command [124](#)
- max-ephones (call-manager-fallback) command [127](#)
- maximum bit-rate (cm-fallback-video) [129](#)
- max-dn (voice register global) [130](#)
- max-pool (voice register global) command [132](#)
- max-presentation command [134](#)
- max registrations (voice register pool) command [136](#)
- message text displayed on Cisco IP phones, customizing [273](#)
- moh-file-buffer (cm-fallback) command [138](#)

- moh (call-manager-fallback) command [140](#)
- moh-live (call-manager-fallback) command [142](#)
- multicast moh (call-manager-fallback) command [144](#)
- mwi expires (call-manager-fallback) command [146](#)
- mwi reg-e164 (call-manager-fallback) command [147](#)
- mwi relay (call-manager-fallback) command [148](#)
- mwi sip-server (call-manager-fallback) command [149](#)

N

- name (voice emergency response location) command [152](#)
- number (voice register pool) [154](#)
- num-buttons command [156](#)

O

- outbound-proxy system command [158](#)

P

- pattern direct (vm-integration) command [159](#)
- pattern ext-to-ext busy (vm-integration) command [161](#)
- pattern ext-to-ext no-answer (vm-integration) command [163](#)
- pattern trunk-to-ext busy (vm-integration) command [165](#)
- pattern trunk-to-ext no-answer (vm-integration) command [167](#)
- phoneload command [169](#)
- pickup (call-manager-fallback) command [170](#)
- preference (voice register pool) command [172](#)
- preference rules [24](#)
- proxy (voice register pool) command [174](#)

R

- registrar server (SIP) command [176](#)
- rerouting rules [24](#)
- reset (call-manager-fallback) command [178](#)
- rules

preference [24](#)
rerouting [24](#)
