

Cisco Unity at a Glance for Standard Conversation

This diagram illustrates the main Cisco Unity™ menus available to you by phone.

You can refer to this diagram as you manage your messages by phone. Refer to the *Cisco Unity User Guide* for descriptions of Cisco Unity features, and for related procedures.

To access messages by phone

- Step 1** Dial the internal or external Cisco Unity phone number.
- Step 2** If you dialed the external phone number, press * when Cisco Unity answers.
- Step 3** Enter your ID, if required, then press #.
- Step 4** Enter a password, if required.

To access the ActiveAssistant

- Step 1** Start Microsoft Internet Explorer.
- Step 2** Enter **http://<your server name>/web/aa**.
(If you do not know the address, contact your system administrator.)
- Step 3** Enter your network user name and password, if required. (Use your Windows user name and password, not your Cisco Unity password.)

To access the Cisco Unity Visual Messaging Interface (VMI)

- Step 1** Start Microsoft Internet Explorer.
- Step 2** Enter **http://<your server name>/web/vmi**.
(If you do not know the address, contact your system administrator.)
- Step 3** Enter your network user name and password, if required. (Use your Windows user name and password, not your Cisco Unity password.)
