## Audience and Use

The *Cisco Unity Documentation Addendum, Release 4.1* is designed to be used in conjunction with the 4.0(5) and later versions of Cisco Unity guides on Cisco.com at [http://www.cisco.com/en/US/products/sw/voicesw/ps2237/tsd\\_products\\_support\\_series\\_home.html](http://www.cisco.com/en/US/products/sw/voicesw/ps2237/tsd_products_support_series_home.html). Everything in those guides applies to version 4.1, except as noted in this addendum.

Each chapter in the addendum corresponds to a guide in the product documentation set. New features are described in topics in the applicable guide chapter. Information that has changed in a guide—either because Cisco Unity functionality changed or because the information is incorrect—is described in the “Errors” section at the end of the guide chapter in the addendum.

Note that if a guide has no corresponding chapter in the addendum, it means that there is no new or changed content, and the 4.0(5) and later version of the guide on Cisco.com applies to 4.1.

## Documentation Conventions

**Table 1** *Cisco Unity 4.2 Documentation Addendum Conventions*

Convention	Description
