- Wireless-N Business Notebook Adapter
- Setup Wizard CD-ROM
- User Guide (English only) on CD-ROM
- Quick Installation

QUICK INSTALLATION

BUSINESS SERIES

1 Begin Installation

IMPORTANT: IMPORTANT: Do not install the Adapter in your PC until you are instructed to do so in Step 2 or the Adapter will not install correctly.

A The Notebook Adapter is installed and set up using the Setup Wizard that comes on the enclosed CD.

B To begin, insert the **Setup Wizard CD-ROM** into your CD-ROM drive. The Setup Wizard should run automatically, and the *Welcome* screen should appear.

C To install the Adapter, click **Click Here to Start** on the *Welcome* screen.

D After reading the License Agreement, click **Next** to continue the installation and Windows will begin copying the files onto your PC.

E Windows will begin copying the files onto your PC.

F The Setup Wizard will now prompt you to install the Adapter into your PC.

Proceed to Step 2.

C

D

2 Connect the Adapter

Go to the section for your Windows operating system.

Windows XP

A Locate an available CardBus slot on your notebook PC.

B With the connector pin end facing the CardBus slot and the label facing up, slide the Adapter into the CardBus slot until it locks in place.

Then, click **Next**.

C If you have Windows XP with Service Pack 2, the Welcome to the *Found New Hardware Wizard* screen appears, click **Next**.

Connecting the Adapter

C

D If the *Found New Hardware* screen appears, make sure that *Install the Software Automatically (Recommended)* is selected, then click **Next**.

E Windows will begin copying the driver files to your computer.

F When the Wizard has finished installing the software, click **Finish**.

Proceed to Step 3.

D

F

Windows 2000

A If this screen appears, click **Yes**.

B Locate an available CardBus slot on your notebook PC.

C With the connector pin end facing the CardBus slot and the label facing up, slide the Adapter into the CardBus slot until it locks in place.

Then, click **Next**.

D If this screen appears, click **Yes**.

Proceed to Step 3.

A

Connecting the Adapter

D

The next screen to appear will be the *Available Wireless Networks* screen. From this screen, you can launch one of the two setup methods.

Important: For Quick Installation, use this document only if your network appears on the Available Wireless Networks screen.

Manual Setup: If you are using Manual Setup, click the **Manual Setup** button and follow the on-screen prompts.

Setting Up the Adapter with Available Networks

On the *Available Wireless Networks* screen, the available networks are listed in the center table by Available Wireless Networks. Select the wireless network you wish to connect to and click the **Connect** button. (If you do not see your network listed, you can click the **Refresh** button.)

If the network uses wireless security, you will need to configure security on the Adapter. If not, you will be taken directly to the *Congratulations* screen, shown in Step B.

A If wireless security is enabled on this network, you will see one of these wireless security screens.

Available Wireless Networks

WEP Key Needed for Connection

Select **64-bit** or **128-bit**. Then, enter a passphrase or WEP key.

Passphrase - The passphrase must match the passphrase of your wireless network. This is case-sensitive and should not be longer than 16 alphanumeric characters.

WEP Key - The WEP key must match the WEP key of your wireless network. For 64-bit encryption, enter exactly 10 hexadecimal characters. For 128-bit encryption, enter exactly 26 hexadecimal characters. Valid hexadecimal characters are "0" to "9" and "A" to "F".

Click **Connect** and go to Step B.

WPA-Personal Configuration

Enter the Passphrase. The Passphrase must match the Passphrase of your wireless network and must be 8-63 characters.

Click **Connect** and go to Step B.

WEP Key Needed

NOTE: Your passphrase must match the passphrase of your other wireless network devices and is compatible with Linksys wireless products only. (Non-Linksys wireless products, require a WEP key to be entered.)

WPA-Personal

WPA2-Personal Configuration

Enter the Passphrase. The Passphrase must match the Passphrase of your wireless network and must be 8-63 characters.

Click **Connect** and go to Step B.

B

After the Adapter is configured for the network, the *Congratulations* screen will appear. Click **Finish** to complete the setup.

Congratulations! Setup is complete.

NOTE: After the Adapter is installed, the Wireless Network Monitor screen will open and its icon will appear in your PC's system tray. Double-click the icon if you want to open the Monitor to find available wireless networks or for configuration changes.
