

## Ayehu eyeShare for Cisco EnergyWise

Ayehu eyeShare for Cisco EnergyWise is an out-of-the-box automation solution designed to facilitate and accelerate the configuration and deployment of Cisco EnergyWise.

Using a set of pre-packaged workflow templates, the eyeShare automation platform allows you to rapidly deploy Cisco EnergyWise over the entire corporate network, controlling thousands of EnergyWise-enabled devices.

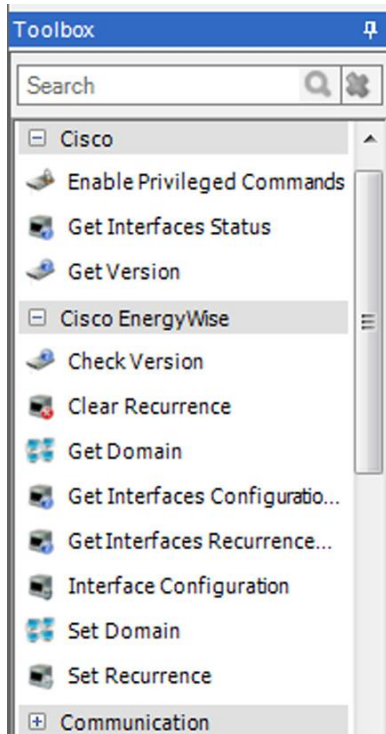

### Why Use Ayehu eyeShare for deploying EnergyWise?

Many organizations are beginning to realize that adopting a green strategy can significantly reduce energy consumption, and thus, have an immediate positive impact on profitability and regulatory compliance. In a typical business environment the number of Cisco EnergyWise-controlled end devices grows very quickly. Phones, thin clients, switches, routers, and other devices are abundant even in small to medium companies. Ayehu eyeShare helps customers and partners simplify the deployment of Cisco EnergyWise into their corporate network, significantly reducing the time spent on manual configuration tasks. eyeShare for Cisco EnergyWise significantly reduces the time customers need to spend on deploying EnergyWise, making Cisco EnergyWise one of the simplest-to-implement energy management solutions in the market. It offers no manual work, no command lines, and no scripting.

## With Ayehu eyeShare you can:

- Schedule and execute IT operation tasks by dragging and dropping pre-defined automation workflow templates into the eyeShare designer
- Quickly customize existing workflow templates or design new workflow for common, repetitive tasks using a task automation library
- Automate and orchestrate complex IT processes that integrate with multiple systems

## eyeShare for Cisco EnergyWise primary features include:

- Rapid EnergyWise deployment and configuration solution
- Ready-to-use EnergyWise workflow processes
- EnergyWise policies enforcement and configuration validation
- Rule-based engine for defining conditions and scenarios

## eyeShare for Cisco EnergyWise primary benefits include:

- A quick ROI through a rapid EnergyWise deployment
- A reduced TCO by using the automated EnergyWise deployment scenarios
- Elimination of manual work, coding, and scripting
- A reduction in human errors
