

Wireless LAN Compliance Status

Last updated: September 14, 2009

This page lists the Wireless LAN products and the specific countries each product is currently certified in for order and shipment. If there is not an "X" in the matrix box that corresponds to the country and product, then that product is not certified to ship to this country.

Please take note of the Country SKU Suffix in the column adjacent to your country. You will need this specific SKU Suffix to ensure you order the product with the proper power and channel settings required for each country. If you have any questions regarding this information, please contact your Cisco Account Manager or Cisco Reseller for more information.

Legend:

"X" = Product is approved

Clients:
