

Service Description of Software Application Services

Software Application Support and Software Application Support Plus Upgrades

This document describes Software Application Support (**SAS**) and Software Application Support plus Upgrades (**SASU**) Cisco Services which you the “End-User” have purchased (and Cisco will be providing) either directly from Cisco or through a Cisco Authorized Channel. It should be read in conjunction with the following documents posted at www.cisco.com/go/servicedescriptions: (i) the Glossary of Terms, (ii) the Priority and Escalation Guideline and (iii) the list of Services not covered. This document is for description purposes only. It is not a contract and does not create any rights or obligation for you or for Cisco. The contract, if any, governing the provision of Cisco Services shall be either: (a) the one signed by you and Cisco if you are purchasing the services directly from Cisco or (b) the one between you and the Cisco Authorized Channel.

SAS and SASU service levels may not be available for every Cisco Application Software Product. For new Software purchases, SAS or SASU begins on the date of shipment of the Application Software *plus* one day.

SAS

Cisco Responsibilities:

- Cisco Technical Assistance Center (TAC) access 24 hours per day, 7 days per week to assist by telephone, fax, electronic mail or the internet with Application Software use, configuration and troubleshooting issues. Cisco will respond within one (1) hour for all calls received during Standard Business Hours and for Severity 1 and 2 calls received outside Standard Business Hours. For Severity 3 and 4 calls received outside Standard Business Hours, Cisco will respond no later than the next Business Day.
- Manage problems according to the [Cisco Severity and Escalation Guideline](#).
- Access to Cisco.com. This system provides End-User with helpful technical and general information on Cisco Products as well as access to Cisco's on-line Software Center library. Please note that access restrictions identified by Cisco from time to time may apply.
- Work-around solutions or patches to reported Application Software problems using reasonable commercial efforts. For an Application Software patch, a Maintenance Release for the Application Software experiencing the problem will be provided as follows: (a) download from Cisco.com (as available),

or (b) shipment of Application Software on media such as CDROM using a nominated carrier. Requests for alternative carriers will be at End-User's expense.

- Minor and Maintenance Releases. The Application Software releases and supporting Documentation are available on the Cisco.com Software Center (www.cisco.com/software) or on media such as CDROM, through the Cisco Product Upgrade Tool (PUT) (www.cisco.com/upgrade). Applicable supporting Documentation, if available, is on Cisco.com and is limited to one copy per release. Additional copies may be purchased.

SASU

Cisco Responsibilities:

- Cisco-provided deliverables, as specified above in SAS plus.
- Cisco-provided, on request, Major Application Software Releases. Such Updates are limited to Application Software releases that have been validly licensed and paid for and that are covered under a current SASU contract. The Application Software releases and supporting Documentation will be made available on the Cisco.com Software Center (www.cisco.com/software) or on media such as CDROM, through the Cisco PUT (www.cisco.com/upgrade). Applicable supporting Documentation, if available, is available on Cisco.com and is limited to one copy per licensed Software. Additional copies may be purchased.

End-User Responsibilities:

The provision of the Service options assumes that End-User will:

- Provide a priority level as described in the [Cisco Severity and Escalation Guideline](#) for all the calls End-User places.
- Comply with the terms of the Cisco Software license attached to the Software or in the absence of such terms by the license posted at http://www.cisco.com/en/US/products/prod_warrantie_s_item09186a008025c927.html
- Provide, at End-User's expense, reasonable access to the Product through the Internet or via modem to

establish a data communication link between End-User and the Cisco TAC engineer and systems passwords so that problems may be diagnosed and, where possible, corrected remotely.

- Provide thirty (30) days Notice to Cisco of any requested addition(s) to your Equipment List.
- Notify Cisco, using Cisco.com, of Product on the Equipment List which End-User has moved to a new location within thirty (30) days of such relocation. Please be aware that the Services will be provided to End-User beginning thirty (30) days after receipt of your notification. Cisco will also need End-User to notify Cisco of any modification to the Product and configuration including upgrades or changes to FRUs not in the original configuration within five (5) days of such modification.
- Provide current shipment contact information as follows: contact name, title, address, telephone number, e-mail address, and fax number.
- Provide valid and applicable serial numbers for all Product problems and issues reported to Cisco or where End-User is seeking information from Cisco in connection with Product use. Cisco may also require End-User to provide additional information in the form of location of the Product, city location details and zip code information.
- When requested, provide Cisco with a list of all personnel that End-User has authorized to contact Cisco or access Cisco.com for Services and to download Software from Cisco.com or Cisco's PUT. End-User is responsible for reviewing the list on an annual basis and adding or removing personnel as necessary
- Verify any in-transit damage of the media for the SAS or SASU Application Software Updates.
- Update to the latest Application Software release and latest third-party Software release, if required by

Cisco to correct a reported Application Software problem.

- Pay all engineering time, travel, and out-of-pocket expenses if End-User request performance of onsite Services or Services outside the scope of Service options described in this document.
- Provide any Hardware required to perform fault isolation.
- Receive Services on Cisco Application Software for which End-User has:
 - Purchased a valid and current license for the latest Major and Minor release or is renewing support for a valid supported license revision.
- Make all reasonable efforts to isolate the Application Software problem prior to requesting support from Cisco.
- Acquire, install configure and provide technical support for all:
 - Third-party Products, including upgrades required by Cisco or related Services; and
 - Network infrastructure, including, but not limited to, local and wide-area data Networks and equipment required by Cisco for operation of Application Software.
- Maintain End-User's entire Application Software implementation currently in use under the same Service option for Cisco to provide Services for any portion of End-User's Application Software implementation
