

# Keep Pace with the Speed of Change

Migrate from conventional phone systems to unified communications to reduce costs and meet the demands of today's workforce.

## Be More Cost Effective, More Efficient, More Collaborative

More and more companies are turning to collaborative business communication solutions to succeed in today's competitive and challenging business environment. While existing legacy phone systems might still function, there are increasing drawbacks, costs and risks of doing business using out-dated technology.

## Best Practices for Migrating Legacy Phone Systems

Join us for "Best Practices for Migrating Legacy Phone Systems", an interactive discovery session where members from Cisco's Advanced Services team will share best practices, deployment approaches, and recommended next steps for migrating from older legacy phone systems and infrastructure to newer IP-based communications and collaboration solutions.

## Engage with Senior Industry Experts

Engage in a collaborative session and hear from Cisco's Advanced Services experts — former CTOs and CIOs, senior industry consultants, and skilled architects with 15+ years experience helping customers migrate to newer collaborative communications systems.

**Register for a 1:1 Migration Session with Senior Industry Experts.**

**Learn how migrating to Unified Communications can:**

- Accelerate return on your voice infrastructure investment
- Strengthen your customer relationships and loyalty
- Increase system reliability and efficiency
- Improve employee productivity

**For more information, contact your local Cisco account representative or certified partner.**
