

Service Description: Wireless LAN (“WLAN”) RF Assessment Service

This document describes WLAN RF Assessment Service.

Related Documents: This document should be read in conjunction with the following documents also posted at www.cisco.com/go/serviceDescriptions/: (1) Glossary of Terms; (2) List of Services Not Covered; and (3) Severity and Escalation Guidelines. All capitalized terms in this description have the meaning ascribed to them in the Glossary of Terms.

Direct Sale from Cisco. If you have purchased these Services directly from Cisco, this document is incorporated into your Master Services Agreement (MSA), Advanced Services Agreement (ASA), or equivalent services agreement executed between you and Cisco. In the event of a conflict between this Service Description and your MSA or equivalent services agreement, this Service Description shall govern.

Sale via Cisco Authorized Reseller. If you have purchased these Services through a Cisco Authorized Reseller, this document is for description purposes only; is not a contract between you and Cisco. The contract, if any, governing the provision of this Service will be the one between you and your Cisco Authorized Reseller. Your Cisco Authorized Reseller should provide this document to you, or you can obtain a copy of this and other Cisco service descriptions at www.cisco.com/go/serviceDescriptions/.

Cisco shall provide the WLAN RF Assessment Service described below as selected and detailed on the Purchase Order for which Cisco has been paid the appropriate fee. Cisco shall provide a Quote for Services (“Quote”) setting out the extent of the Services and duration that Cisco shall provide such Services. Cisco shall receive a Purchase Order that references the Quote agreed between the parties and that, additionally, acknowledges and agrees to the terms contained therein.

Service Summary

WLAN RF Assessment Service supports the following Cisco Wireless LAN solutions:

Secure Mobility, Location-based, Unified Voice

WLAN RF Assessment Service is not available for the Guest Access Solution.

WLAN RF Assessment Service

Under this Service, Cisco shall provide the WLAN RF Assessment Service during Standard Business Hours, unless stated:

- Coordinate and perform an onsite site survey that captures the site details including physical, environmental considerations, electrical - AC/DC supplies, cabling, Network synchronization, peripheral equipment, and remote access.
- Perform critical radio frequency survey to determine the optimal access point placement.
- Analyze the information obtained from the site survey and develop recommendations for site modification and improvements.
- Provide a site survey report detailing the results of the site survey, radio frequency assessment, environmental requirements and optimized placement of wireless access point.

Service Responsibilities of Customer

Customer shall comply with the following obligations:

- Provide a Network topology map, configuration information, and information of new features being implemented as needed.
- Retain overall responsibility for any business process impact and any process change implementations
- Ensure key Customer networking and operational personnel are available to participate in interview sessions as required.
- Unless otherwise agreed to by the parties, Customer shall respond within two (2) business days of Cisco’s request for documentation or information needed for the Service.
- Customer acknowledges that Cisco’s obligation is to only provide assistance to Customer with respect to the tasks detailed and that such assistance may not result in some or all of the tasks being completed.
