Cisco IOS Software Release 12.2(1)XE

Please provide your feedback on this document.

Description of the Release	<p>X Release: Cisco IOS® Software Release 12.2(1)XE is an ?X? release optimized for the Cisco 806, 826, as well as the soho 78 model. This release is based upon the 12.2(1)T maintenance release. Any early deployment (ED) release of software should be used in a test network before being deployed in a production network.</p> <p>Starting with Cisco IOS Software Releases 12.2/12.2T and child releases, the traditional migration path for certain features/bugfixes may not apply as it did in the past. This is because the T train contains many more fixes than the mainline. Therefore, Cisco IOS Software Release 12.2(2) will not be built. 12.2(3) will be the next 12.2 mainline maintenance release. Cisco IOS Software Release 12.2(1)T has been relabeled to 12.2(2)T; there will be no 12.2(1)T.</p>
